New York Money Market.

Speculative Market Declines and Traders Are Very Bearish.

CORN TO STOP COMING AFTER SATURDAY

onditions All Tend to Minimize Corn Receipts from First Hands After

Rates Go tp in April-May Corn Brenks.

OMAHA, March 23, 1905.

Bearish is no name for the market togot up for a tick or two to \$1.13, and from
enere steadily declined till at noon it had
reached \$1.12 and showed a continuing
downwarp tendency. Monday the range
was from \$1.13\frac{1}{2}\$ to be lower. The July by
noon today went from 190\text{w} to \$3\frac{1}{2}\$\$, this being \$\frac{1}{2}\$\$ to be lower. The July by
noon today went from 190\text{w} to \$3\frac{1}{2}\$\$, this being \$\frac{1}{2}\$\$ to be lower. The commission houses are trying to close out their
May wheat trades. They fear sensational
continges in price as the time for settlement
of the May deal draws near. They are
trying to get out of the old deals and are
also trying to keep their customers from
making new deals. Minneapolis shows the
sair e nervousness, and the committee has
required deposits of to per cent on all deals.
Bradstreets shows a decrease in wheat
cast of the Rockies of 1,500,000 bushels and
in Europe and affoat 1,400,000 bushels, makter \$\frac{1}{2}\$\$ to total decrease of \$\frac{1}{2}\$\$ on the lower

\*\*Total deals.\*\* OMAHA, March 28, 1965. east of the Rockies of 1,506,000 bushels and in Europe and affoat 1,400,000 bushels, making a total decrease of 2,006,000 bushels, the Chicago contract stocks of wheat are now 3,507,000, an increase of 40,000 bushels. The primary receipts are 55,000 bushels, against 376,000 bushels, are 500,000 bushels, and the shipments in North Dakota, and those farmers who had the nerve to seed in the latter part of February now having a fine growth of wheat. Shoux Falls says seeding will be general the last of the week and Red Lake and Crafton report seeding general in their states.

Everybody is standing by for a cessation of corn movement from first hands as soon as the rate goes in Saturday.

"The receipts here will drop to almost nothing," said W. S. Dexter. "The farmore have been seiling all they could while the low rate was in, and as soon as the rate goes up they will stop until the next crop is assured."

rop is arsured. The receipts are even now beginning of all off, said another local shipper. It is going to be dead dull here after the state of the present low rate and then the cost of transportation goes up or 7 cents Saturday that will end it, here is lots of corn in the state, but will hot come out any more. The matest will drop in compiliance with the near-There is lots of corn in the state, but it will not come out any more. The market will drop in compliance with the new rate and the farmers will be slow to sell at a lower price than they have been getting. Then it comes at a time when the roads are pretty well at their worst, so that the weather conditions are against movement from first hands. The farmers are also to be busy with their spring planting. The price of cattle and hogs also will cause many farmers to feed their corn father than sell it at lower prices. The corn moving out now is almost all sold some time ago. The corn must be loaded and the bill of lading got before Saturday, so that no one is selling arrector for which he has actually no cars."

Bradstreet's shows the world's corn increases 142,000 bushels and the outs increase 400,000 bushels, and the contract stock of corn is now 9,073,000 bushels, an increase of 189,000 bushels, and the contract oats are 5,917,000 bushels, an increase of 189,000 bushels. The crowd is bearish on the May corn and the market sold off nearly a cent in consequence. Omaba Cash Prices.

NEW YORK, March 28.—Special cable and telegraphic communication received by Bradstreets showing the following changes in available supplies of grain, as compared with last report:

Wheat—United States and Canada, east Rockles, decreased 1.506,000 bu; affoat for and in Europe, decreased 1.400,000 bu; total supply, decreased 2.900,000 hu.

Corn—United States and Canada, east Rockles, increased 142,000 bu.

Onts—United States and Canada, east Rockles, increased 142,000 bu.

The leading decreases reported this week are: An estimate of 300,000 bu, at the north-western interior clevators; 162,000 bu, in Manitoba, and 50,000 bu, at the Minnespolis private elevators. Visible Supply of Grain. Private elevators.
The leading increases are: 150,000 bu. at

RAIN AND PRODUCE MARKET | Fort Worth, and 55,000 bu. at the Chicago

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, March is.—Reports from all sections of the southwest teiling of the viscorous condition of fail-sown wheat had a secidedly weakening effect on the market here today. Wheat for July delivery closed with a loss of lightly. May corn is down to the condition of the provisions are down 24-3154c.

Weakeness was manifest in the wheat market from the start, the July delivery opening 16-16 lower to a shade higher at 51-124-1254c. Lower prices at Liverpool and continued excellent weather conditions in the United States were the factors contributing to the initial weakness of the July option. A feeble raily occurred shortly after the opening, resulting in May advancing to 5-18 and July to 90-2c. Moderate receipts in the northwest was partly responsible for the upturn. The show of strength, however, was only momentary, the market soon easing off again on persistent selling of July. The May option was comparatively inactive throughout the day. Many additional reports regarding the excellent condition of the crop were received, and these added to the weakness of the stustion. One example of these hearish advices was a report estimating the total yield of wheat in Kansas at 115,000,000 bushels, which is 45,000,000 bushels in excess of the average crop. The market became extremely weak iate in the day on general selling by local traders in addition to sellbushels, which is 45,000,000 bushels in excess of the average crop. The market became extremely weak late in the day on general selling by local tradets in addition to selling by both northwestern and southwestern houses. July declined to 85% and May to \$1.11%. The close was almost at the lowest point of the day, final quotations in July being at 85%. May closed at \$1.12 a net loss of \$5c. Clearances of wheat and flour were equal to 4,700 bushels. Primary receipts were 352,700 bushels compared with \$76,300 bushels compared with \$76,300 bushels apply, as shown by Bradstreet's, decreased 3,000,000 bushels. Minneapolls, Duluth and Chicago reported receipts of 250 to 100.000 bushels. luth and Chicago reported receipts of 230 cars against 216 cars last week and 351 cars

cars against 186 cars last week and 351 cars a year ago
Sentiment in the corn pit was bearish and prices showed a material decline. The slump in wheat led to considerable liquidation late in the day, resulting in a sharp reaction. Enormous primary receipts and prospects of liberal shipments from Argontina in the near future were additional weakening influences. The market closed practically at the lowest point of the sension. May opened a shade lower at 48%c. sold up to 48%c and then declined to 47%c. The close was at 47%c. Local receipts were 301 cars with 3 of contract grade.

Good weather, the break in other grains and the weakness of the cash article caused heavy liquidation of oats, resulting in declines in all options. May opened unchanged at 30%c, sold between 1914630%c and closed at 28%c. Local receipts were 236 cars.

Provisions were weak in sympathy with

Provisions were weak in sympathy with the decline in grains. Larger receipts of live hogs than expected also created bearish sentiment. At the close May pork was down 100124c at \$12.874.012.70. Lard was off 5c at \$7.1007.124. Ribs were 24.05c lower at \$6.924.016. Estimated receipts for tomorrow: Wheat, 28 cars; corn, 187 cars; oats, 122 cars; hogs, 38.000 head. The leading futures ranged as follows: Articles Open | High | Low | Class | You

NEW YORK STOCKS AND BONDS

Market is Generally Irregular and the Trend of Values is Lower.

**DULLNESS FOLLOWS OCCASIONAL RALLIES** 

Preparations for Subscription to New Japanese Loan Which is to Be Opened Today Cause Advance in Call Money.

NEW YORK, March 28.—Teday's stock market was an affair of constant fluctua-tions, giving an appearance of uncertainty to the temper of the speculation, but the fluctuations were mostly below last night's

NEW YORK, March 38.— Young's stock market was an appearance of uncertainty to the temper of the speculation, but the fluctuations were mostly below last night's level. The occasional railles were poorly held and the end of the day showed the average of prices considerably below last night. The activity was nearly all on a descending scale of prices, the occasional railles leading up to duliness and neglect, showing the subsidence of the demand from the shorts at the higher level.

Call money again touched it per cent and the outlook in the money market plainly was the most direct factor in the operations of the day. Preparations were being made for the subscriptions to the new Japanese loan which is to be offered tomorrow, a \$75,000,000 installment being New York's portion. Those in tharge of the offering claim that every safeguard will be adopted to protect the money market from disturbance and that the operation will be largely in the nature of a transfer of book accounts between banks. But Wall street has an old experience of such assurances and is well aware that an operation of that magnitude is not perfected without a necessary shifting of loans on a large scale. The amount of disturbance resulting in the money market is likely to be dependent on the width of the margin surplus above the legal reserve requirements. As the surplus is just now unusually low for the period of the year there was some natural misgiving that the money market might not escape the spring flurry. The latter part of the week will have to meet the usual quarterly requirement of April 1. Reports from the south show a general disposition to hold cotton at present low prices to await a recovery, which makes a large requirement for money. Interested inquiry is on foot to know how soon the coming Pennsylvania bond issue will come upon the market, the expectation being that the \$50,000,000 recently authorized and the \$50,000,000 recently authorized and the \$50,000,000 recently all the recent deal rumors. There was disappointment on the pa

mediate prospects.

Bonds were irregular. Total sales, par value, \$2,845,000. United States bonds were all unchanged on call.

CATTLE—There was a liberal run of cattle here this morning, and owing to the fact that Chicago was reported slow and weak part that Chicago was reported slow and weak

all desirable grades.

Beef steer ouyers were out in good season, and as they all seemed to have liberal orders to fill, there were none too many cattle to meet the requirements of the trade. The market on anything at all desirable could safely be quoted strong, and, in fact, even some of the commoner kinds seemed to sell to better advantage than was the case yesterday. There were some good cattle on sale, as high as \$5.50 being paid. Owing to the active demand most everything was disposed of in good season. The cow market also showed considerable activity, and that was particularly the case with the choicer granes, which could safely be quoted strong and active. The common and medium grades were not as active as the better kinds and could not be quoted more than steady. The cattle, Beef steer ouyers were out in good sea-

active as the better kinds and could not be quoted more than steady. The cattle, though, kept moving toward the scales and as a result the bulk of the offerings was disposed of at a reasonably early hour. Bulls, veal calves and stags all commanded fully steady prices where the quality was at all good.

There were quite a few stockers and feeders included in the receipts, but the demand was also fairly liberal, and anything showing quality sold freely at good, strong prices. Those lacking in quality were not particularly active, but still they sold without a great deal of trouble at fully as good prices as were paid yesterday. Hepresentative sales:

HOGS—There was not an excessive run of hogs in sight today, but packers continued their bearish tactics and as a result prices at all points showed a loss ranging from a shade to 5c. The market at this point opened mostly 2½c lower, but after packers had supplied some of their more urgent orders they became more bearish, and the close was weak, or right around a nickel lower, so that the general market could best be described by calling it weak to 5c lower. Trading was fairly active at the opening, and the first 100 loads were sold in good season. After packers lowered their bids, however, trading was not quite so active, so that it was rather late before everything was disposed of. The bulk of the hogs went from \$5.07% to \$5.12%, with the choicest loads selling largely from \$5.12% to \$5.15. Representative sales:

Wool Market.

BOSTON. March 28. WOOL- Although the trading is quiet there is distinctly a better feeling in the wool market. The unexpected keen demand for wool at the London sales and the general strong demand abroad have shown the trade that there is a scarcity of wool in Europe and it is apparent that dealers who have bought in the west are feeling encouraged over the situation. Territory wools are quiet, but pulled wools are in better demand. Foreign grades are steady, Quotations: Territory, Idaho, sine, 19.20c; heavy fine, 169 fec, fine medium, 18920c; medium, 216726; low medium, 250-26c; Wyoming, fine, 17-50 fec, fine medium, 18920c; ow medium, 18924c; low medium, 250-26c; low medium, 250-26c; low medium, 250-26c; fine medium, 250-26c; fine medium, 250-26c; fine medium, 250-26c; fine average, 19920c; sine medium, choice, 216725c; fine average, 19920c; staple, 250-25c; medium, 250-25c; light fine, 18920c; heavy fine, 14915c; tubwashed, 370c; light fine, 18920c; heavy fine, 14915c; tubwashed, 370c; Cotton Market. Wool Market.
