inited States District Attorney Baxter has been busily engaged since his return from Chicago securing statements and depsettions from Omaha and South Omaha martles relative to their knowledge of the Beef trust affairs. A number of these statements are merely hearsay and sifted own to the actual personal knowledge of the affants are valueless for information before the grand jury now in session at Chicago. Judge Baxter says:

Some of these stories are pure fabrications and are based on mere rumor. I have received a number of letters from persons claiming to be familiar with alleged facts, who are anxious to be given transportation to Chicago to testify before the grand jury there. Upon investigation I find that there is nothing to their evidence. The depositions can be taken here as well as at Chicago, and it is not the desire or purpose of District Attorney Morrison to accommodate a lot of fake witnesses and run up a big bill of expense and afford them an excuse for a free ride to Chicago, However, such information as may be obtained as is of any value will be sent to Chicago, and the witnesses also if it is thought that their oral evidence is the more valuable."

#### Looking Up Pencing Cases.

The three special inspectors of the land department now in the field in western Nebraska looking after the illegal fencing of the public lands are directed to report to District Attorney Baxter. Several reports have already been received at the office of the district attorney and proceedings will e commenced against the accused parties before the grand jury, which assembles here in May. A number of flagrant violations of the fencing laws have recently been ascertained and the offenders will be rigorously prosecuted. Such at least is the information given out by Judge Baxter. He is of the opinion that much of the time of the grand jury will be taken up with the fencing cases and some interesting developments are looked for

There seems to be a lull in bootlegging matters up on the Indian reservations, which Mr. Baxter attributes to the wholesome prosecutions of these cases during the last term of the federal courts and the consequent conviction of a host of the bootleggers.
