OF THE LEGISLATORS DOINGS Many Bills Carried Down by One

Motion in the Senate. LINCOLN, March 30 .- (Special.) - Senator Thomas spent the last day of the session nursing a bad eye. For several days the member has been troubling him considerthem to save the bill from the grasp of the ably and last night, through the medium of a specialist, he found that he was suffering from the effects of a long-named ulcer, which was just incubating. When Senator Fries made his motion this afternoon to indefinitely postpone all bills not on the sifting file, bills not carrying appropriations and bi'le not on third read ing, the effect was like a dull thud, though it carried almost unanimously. Among those bills which met such an untimely end phone company should have the right to were the fraternal congress bill, the Fishback telephone bill, over which a hard messages with it, even though there were fight occurred this morning; the Dodge railroad and commerce bill, the Muxen fire and police board pill and the Kyd elevator companies to turn the message over to the bill. This last bill was recognized by the other at the point nearest the point where string committee as a most dangerous measure. One member of the sifting committee, to whom Kyd had applied for help in lifting the bill, said it would sew up the farmers so tight that it would be impossible for them to bunch up and haul their hogs to town together. Governor Mickey threw a bomb into the center of activities of many legislators today when he caused it to be known that probably he would veto H. R. 305, by Zuelow of Colfax. This bill passed the house and senate by large margins. It was supported not only actively by leading members, but by many outsiders in various counties where it was demanded. Representative Zuelow has made the fight of his legislative career for the bill and he has not yet quit. In fact, he has injected new energy into the fight since the governor's position has become known. He has, with the aid of friends, been industriously circulating a petition in the senate and house for the passage of the bill over the governor's veto and the indications are a majority of the membership will sign this petition. Governor Mickey informed Mr. Zuelow late this afternoon that he could not give him a definite answer as to what his action on this bill will be until tomorrow morning. If Mr. Zuelow loses the fight it will be after he has exhausted

his last resource. The bill provides that where a bridge of 500 feet or more is now standing in any county in the state that upon its being conveyed to the state it shall then be the duty of the state to maintain such one bridge in each county thereafter. This is left, however, entirely with the discretion ings, so that it does not make it compulsory. The idea is to aid counties whose

DIFFERENCES OVER EQUIPMENT Manager of Opera Company Objects

to Contract of Agent. When the scenery and other stage equipment was being removed from the Auditorium last night some questions arose as to the ownership of some ropes and electric light globes, and for a time the discussion became very animated between Manager Goerlitz of the opera company and President Nash of the Auditorium. It required only a few words to dispose of these questions, but the discussion took on additional features, in which Manager Goerlitz dis closed the fact that some of his expectations had not been realized, one of them being that after he had agreed that all expenses connected with the constructing of the stage arrangements in excess of \$1,000 should be borne by the opera company. Mr Nash had declined to change the contract in the interests of Mr. Goerlitz. Mr. Goerlitz admitted the terms of the contract and that the Auditorium company was only abiding by its agreed upon rights, but he wanted to have the terms changed.

Witnesses Examined During the Day, Among Whom is Frank Dimpom of

Omaha.

CHICAGO, March 30.-Conspiracy indictments are threatened against heads of the big meat packing concerns unless alleged tampering with witnesses who have been summoned to testify before the federal grand jury is discontinued at once. With two witnesses on the stand today who, it is asserted, admitted that they had been approached with a suggestion that their testimony be mild, the jury, it is declared, is getting ready to take drastic measures. We will shut off interference with witnesses," said Assistant Attorney General experiments have shown that they will do Pagin tonight, "even if we have to resort to proceedings under the conspiracy stat-

ute to do so." Belief was general tonight that Mr. Pagin has already laid out plans for new ndictments.

Pifteen Witnesses Heard Fifteen witnesses were head today, three women being among those who testified. The women were said to be stenographera employed by the National Packing com

One of the witnesses before the jury today was Charles E. Meade of Boston, formerly connected with Swift and Com pany's car lines. Mr. Meade said that he had not been in that business for three years. The witness said that since his retirement Swift and Company had dis posed of their interests in the car line business

L. S. Curtis of T. E. Baker & Co. of Bos ton, and Frank Dimpom of Omaha were other witnesses before the jury. Mr. Dimpom explained the meat business from the viewpoint of the medium through which the customer obtains meat.

Witnesses Talten to Hotel. The fifteen secret service men who have been frequenting the corridors in the building where the grand jury is in session were not to be seen today. District Attorney Morrison was said to have ordered that waiting witnesses instead of spending their time in the vicinity of the jury room are to be concealed in down town hotels until called before the jury. In this way the witnesses will be more readily prevented from learning the identity of the secret service men watching for possible

irregularity. Ten men arrived in the jury room this afternoon and reported to the government officials. It is said that the ten are em ployed by railroads in Michigan.

Jusserand and Von Speck Stenburg, in spite times in a century. The audience last of official denials, are believed in diplomatic circles here to relate to the opening of negotiations. The foreign office continues to maintain that Russia has taken no official step, which certainly is literally true. There is an important admission. however, that Ambassador Jusserand upon his own responsibility may have given President Roosevelt the French idea of Russia's position. The French embassy

have not actually begun. Canr Not Ready for Peace. 11:25 p. m.-Members of the war party who are at daggers' points with the friends of peace, are industriously insinuating that if Russian diplomacy is doing anything it the directon of peace it is without imperial sanction and is in reality only an unofficia endeavor to induce Japan to agree to negotiate on the lines of no cession of terri tory and no indemnity, and to enable the advocates of peace to point out to the emperor that peace is possible without na tional humiliation. To show that the emperor is still recalcitrant on the question of ending the war, they are spreading a story to the effect that when Foreign Minister Lamsdorff, in advocating the advisability of peace, drew the gloomiest picture of the

situation in the near east, his majesty became angry and lost patience The perseverance with which these stories are repeated indicates beyond doubt that they are circulated with a deliberate pur-

Incite Fear of Japanese. MOGHILEV, Russia, March 30.-Procla mattens have been scattered broadcast here calling on the people to support the existing order to escape a second Mongolian yoke the Japanese being described as worse than the locusts of Egypt. It is added that once they establish themselves in Asia they will not only possess Manchuria and Corea, but will swarm over and drive out the Russians from Siberia.

Would Let Belligerents Alone. BERLIN, March 30 .- The suggestion that an international congress might be called to arrange the Russian-Japanese terms of peace find no favor at the Foreign office here, where a full settlement between the belligerents, without the interference of others powers, is much preferred. An international congress would mean a derangement of the present equilibrium of interests, because those undertaking to settle peace would seek advantages for themselves as a proper brokerage on the transaction. The strongest obstacle against peace appears to be the influence of the Russian military body, which still stands resolutely for a continuance of the war.

GUNSHU PASS, Manchuria, March 30,-Thinese merchants, arriving here after a ircuitous flight from Mukden, relate that the Japanese have taken up the administration of Manchuria. They have installed Japanese officials in place of the Chinese, have taken possession of the Russian administrative buildings and have estab-

lished a Japanese police force at Mukden. The work of converting the railfoad from Port Dalny to Mukden into a narrow gauge road has been completed, giving the Japanese three lines of supply from Seoul by way of Feng Wang Cheng, from Port Dainy to Mukden and over the Sinmintin road, which the Japanese are reported to have leased.

Fresh Japanese troops are reported to be arriving at the front.
