OMAHA CORN DOWN FOUR CENTS ON RATE

Wheat and Corn Speculative Markets Continue Wenk-Europe Does Not Follow American

Declines.

OMAHA. March 30, 1966. OMAHA. March 30, 1965
There is a considerable variance in the estimates on the grain left in Nebraska.
The government reports compiled to show the reserves March 1 showed that there was 24,000,000 bushels of wheat still in the rate of the last crop. Figures complied about the same time by elector companies showed only 18,000,000 bushels. The sovernment reports and crop estimates are usually higher in this state than the figures made by local grain handlers. There has been a fair movement or wheat since has been a tair movement or wheat since he first of the month, so that the remainder in the state has been considerably reduced. The heaviest movement has, of course, been in corn and the amount in the state has been heavily reduced. The accomment figures at the first of the month were thousand bushels and the local ligures were 19,000,000 bushels. It is the general opinion now that the state he ingures were 43,000,000 bushels and the local ingures were 49,000,000 bushels. It is the general opinion now that the rates have gone in with a 5 to 7-cent advance, that the movement in this state will entirely arry up. It is believed the larmers, under the inducement of the low rate and high market, have sold all the corn they could and that now they will be indisposed to part with any more of their surplus until the next crop is assured. There is a question as to the oats reserve, the government ingures being 46 per cent and the elevator had,000 bushels.

The Omaha corn market went down a clear 4 cents thin movining. That shows the last corn possible has been contracted for before the new rate goes in, and the brokers do not any longer dare to take the corn on the former basis. The new rate basis makes 49-cent corn in Omaha in place of 44 cents.

cookers on the former basis. The new rate basis makes 40-cent corn in Omaha in place off 44 cents.

The wheat market continued weak, though somewhat better than Wednesday. The May reached the high and low points of \$1.12%, and \$1.12 before noon, against \$1.12%, and \$1.11% Wednesday. The July did not raily at all and remained around \$1.20. The European markets were strong, considering the American weakness, and Liverpool closed with a loss of only \$200. The European markets were strong, considering the American weakness, and Liverpool closed with a loss of only \$200. Antwerp 1½c down. Berlin unchanged and Buda Pesth advanced 13c. Minneapolis reports a heavy buying of July and selling of May. Large contracts have been made for export of wheat by Chicago houses in July, August and September. This will mostly go by the gulf and follows sales of flour by Kansas mills on a basis of 80c for July wheat at Kansas City. The millers of the southwest made a hit by their work of last year, when they contracted flour for export at a low basis before there was any damage to their crops and afterward filled the contracts at a loss. The primary receipts of wheat are 372,000 bushels, against 282,000 bushels, against 282,000 bushels, and the shipments are 227,000 bushels, against 273,000 bushels of corn, but says he is a seller. Cudahy is thought to have sold. The corn clearances are \$50,000 bushels, against 23,000 bushels, and the shipments are 75,000 bushels, and the s

Prices on Board of Trade. CHICAGO, March 30 - Excellent weather continued to depress wheat values here today, the July option at the close being off

CHICAGO. March 30.—Excellent weather continued to depress wheat values here today, the July option at the close being off ic. Corn. oats and provisions are practically unchanged.

Sentiment in the wheat pit was bearish throughout the greater part of the session. At the opening July was off a shade to include the comparatively steady tone of cubies in the face of weakness here yesterday caused a moderate demand early in the day, commission houses being the principal buyers. Inder this demand the market became somewhat firmer, July advancing to 8%c. Ample support, however, was lacking and the market soon cased off again. Weather, both in the northwest and southwest, was of a kind to discourage any great volume of purchases. Advices from Minneapolis claimed that spring seeding is progressing favorably in that section. Reports from the southwest also were largely of a bearish tenor, the fall sown when being reported in excellent condition. The total movement of wheat showed a liberal increase over that of the corresponding day a year ago, and this fact had some influence in creating the bearish sentiment. Toward the middle of the day selling became general. Fairly liberal sales by a promiuent bull started active selling by pit traders. As a result prices broke easily, July decilining to to 57%c. Later the greater part of the loss was regained on buying due partly to a report showing small shipments from Argentina. Final quotations on July were at 5%c/689c. May opened unchanged to %c higher at \$1.12%g/1.12%, sold between \$1.12 and \$1.12%, and closed at \$1.12%. Clearances of wheat and flour were equal to \$5.000 bushels. Primary receipts were \$32.700 bushels, compared with 28.900 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 280 cars, against 501 cars last week and 221 cars a year ago.

Reports of heavy export sales, in which loo bushels, compared with 28.900 bushels and prospects of early planting. The market closed at \$1.000 bushels. Primary receipts were \$210 cars, with \$7 of contract gra

NEW YORK STOCKS AND BONDS

Market is Dull and Inactive, with Volume CHICAGO GRAIN AND PROVISIONS of Transactions Lowest for Weeks. Features of the Trading and Closing

RATE FOR CALL LOANS IS AGAIN LOW

Close is Irregular After a Raily in Which Many Issues Make Substantial Gains-Movements

NEW YORK, March 30.—Today's stock market was not mich more than a driving match and the movement was not conceive or convincing as any time. The visuame of transactions shrains to the lowest in many weeks very large importance was attached in the discussion about the stock exchange to the infratehed stock transfer tax as the factor making most of this student compase in activity. The decision to make tais tax oull a party measure was accented as oftering an extreme was accented as oftering an extreme was accented as oftering an extreme actual transfer of stock holdings from one owner to another, it is generally agreed that it would form a serious restraint upon manipulative operations and upon the sociated seniping operations on the floor of the stock exchange upon which the professional traders argely rely for their avelations. The manipulative measures usual in a very active speculation are not commed to room trading operations, but are rened upon also to further the lipitation of new capital issues when they first make their appearance. With a large volume of such new issues in prospect there is a fear that the marketing of them may be handicapped by any restraint of the freedom of operations in the market. But there was ground for suspicion that if other conditions were not operative this factor might not have been so effective in the decline of activity, the discussion being a result rather of the idleness of the market than its cause. NEW YORK, Maren 30.-Today's stock

activity, the discussion being a result rather of the idleness of the market than its cause.

There was calling of loans during the day, which necessituted a shifting of accommodations even where renewals were secured without an advance in the rates. The stock market never escapes some disturbance when this process is going on. The subscriptions for the Japanese loan were the direct cause of the firmness of call money, but preparations were also going on for the April its estilement and the placing of the Pennsylvania bond issue looms beyond. Confidence is professed that the narder tone of the money market will be short lived and that the loan operations, when concluded, will permit the quick return of their proceeds to the money market, it is upon this conviction that current operations in stocks are rather of a waiting constant in the process of the firmness of call money to the process of the firmness of call money to the process of the firmness of call money to the process of the firmness of call money to the process of the firmness of call money to the process of the firmness of call money to the process of the firmness of call money, but preparations and the placing of the Pennsylvania bond issue looms between the process of the firmness of call money to the process of the firmness of call money to process the process of the p

opinion on the outlook. The selling pressure was light, but there is no disposition to buy on a large scale. A weak bank statement on Saturday is taken for granted. Although some of the interior exchanges on New York have risen to a premium, this is believed to be due to remittances to participate in the Japanese loan subscriptions. Interior banks, however, are drawing freely on their New York correspondents for payment of internal revenue collections, which adds materially to the sub-treasury requirements at this center. Returns of February net earnings of railroads as they come to hand are not encouraging to a demand for stocks, although the poor earning conditions then are shown to be corrected by later returns of gross earnings.

The market got no help from foreign influence, the weakness of Russians being aggravated at Paris by the German attitude in Morocco. A revival of the iron merger talk alarmed the shorts in those stocks and had some sympathetic effect on the general market. The greater tranquility than was expected in the call money market also contributed to the late firmness. The wide movements in a few low grade securities were due to individual causes. The increase in the Lackawanna dividend rate has been so long and so often expected that its announcement caused little impression. The market closed irregular after its substantial recovery.

Bonds were irregular. Total sales, par value £3.956.00. United States bonds were all unchanged on call.

MONEY—24-933, per cent.

The rate of discount in the open market for short bills is 24 per cent; for three months' bills, 24-92-5-16 per cent. New York Mining Stocks.

NEW YORK, March 20.—The following are the closing quotations on mining stocks

LONDON. March 30.—Money in active demand in the market today in connection with nearly \$5,000,000 being needed for various calls on new issues. The release of the Japanese money, however, prevented a scarcity. Operators on the Stock exchange were cheerful and hopeful regarding the approach of peace, but trading was inactive. The phenomenal success of the Japanese loan was the leading topic of conversation. Consols were in fair demand. Home ralls were dull on adverse traffic returns. Americans opened firm and with marked fractional gains. Afterwards there was a slight relapse and some stocks dropped to below parity. United States Steel remained firm. After rallying slightly prices closed easier. Japanese were buoyant. Imperial Japanese government 6s of 1904 are quoted at 1.65%.

BERLIN, March 30.—There were no marked changes in any of the departments on the Bourse today.

PARIS. March 30.—Prices on the Bourse today opened weak, owing to the speech made by Chancellor yon Buelow yesterdsy in the Reichstag on the subject of Morocco. At the close the market was firmer. Russian imperial 4s. 88.40; Russian bonds of 1904, 5.02.

Is a single for the department, and the prices paid of the fact that the demand for that class from the country has been limited offerings, everything was disposed of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early hour and the prices paid of at an early dan anything at all desirable and om side rather and anything at all desirable and common cutters, so that such kinds did not suffer to said the prices and common cutte Foreign Financial.

Bank of England Statement. Bank of England Statement.

LONDON, March 30.—The weekly statement of the Bank of England shows the following changes: Total reserve, decreased £1,319,000; circulation, increased £779,000; buillon, decreased £5,59,283; other securities, increased £5,004,000; other deposits, increased £3,02,000; public deposits, increased £3,02,000; public deposits, increased £3,000; notes reserve, decreased £1,308,000; government securities unchanged. The proportion of the Bank of England reserve to liability, which last week was 56.06 per cent, is now 49.59 per cent.

Treasury Statement. WASHINGTON. March 30.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balance, \$140,248,078; shows: Available cash bulance, \$140.348,078 gold. \$69,391,840.

OMAHA. March 30.—Bank clearings today were \$1,281,060.14. For the corresponding day of 1904 the clearings were \$1,280,445.59.

Wool Market.

BOSTON. March 30.—WOOL—Although the trading is quiet there is distinctly a better feeling in the wool market. The unexpected keen demand for wool at the London sales and the general strong demand abroad have shown the trade that there is a scarcity of wool in Europe and it is apparent that dealers who have bought in the west are feeling encouraged over the situation. Territory wools are quiet, but pulled wools are in better demand. Foreign grades are steady, Quotations: Territory, Idaho, fine, 18.30c; heavy fine, 169; 17c; fine medium, 19.30c; heavy fine, 169; 17c; fine medium, 19.30c; heavy fine, 174; 184; heavy fine, 159; 18c; heavy fine, 159; 18c; heavy fine, 159; 18c; heavy fine, 174; 18c; heavy fine, 159; 18c; ow medium, 230; 24c; Utah and Nevada, fine, 179; 18c; heavy fine, 159; 18c; fine medium, 130; 18c; medium, 130; 24c; Montana, fine, choice, 250; fine average, 199; 20c; fine medium, choice, 250; fine average, 199; 20c; staple, 250; medium, 230; 25c; ilight fine, 1820; heavy fine, 140; 18c; tub washed, 206374c.

Metal Market. Wool Market.

Metal Market.

NEW YORK, March 30.—METALS—There was a slight advance in the London tin market, which closed at £137 17s \$4 for spot and at £134 19s for futures. Locally the market was quiet but steady, with holders a little firmer in their views and spot quoted at \$29.75 a 50.10. Copper was off a little in the English market, with spot closing at £67 5s and futures at £67 18 256 Locally the market was unchanged at \$13.27 a 15.25 for inke. \$15.25 for casting. Lead, unchanged at \$4.50 a 16.51 for casting. Lead, unchanged at \$4.50 a 16.51 for easting. Lead, unchanged at \$4.50 a 16.51 for casting. Lead, unchanged at \$4.50 a 16.51 for casting. Lead, unchanged at \$4.50 a 16.51 for closed at \$4.50 and the London market was also up a little closing at £3 15s. Iron closed at \$4.50 in Glasgow and at \$4.50 a 16.51 for market was unchanged; No, 1 foundry northern is quoted at \$17.55 18.25. No. 2 foundry northern, \$17.55 018.25. No. 1 foundry southern and No. 1 foundry southern soft, \$17.75 18.25.

ST. LOUIS, March 30.—METALS—Lead market firm at \$5.505.525. Metal Market.

NEW ORLEANS. March 20.—SUGAR—Quiet; open kettle, 28,284%; open kettle centrifugal, 44,384%; centrifugal whites, 5%; yellows, 44,66%; ceconds, 35,484%; MOLASSES—Quiet; open kettle, 13,926; centrifugal, 63,146. Syrup, 30.

Evaporated Apples and Dried Fruits.

Evaporated Apples and Dried Fruits. NEW YORK. March 30.—EVAPORATED APPLES—The market attracts but little attention for the time being and in some instances holders of prime fruit are offer-

Instances holders of prime fruit are offering slight concessions. Common are quoted at 465%c, prime at 5.3505.40c, choice at 656%c and fancy at 7c.

CALIFORNIA DRIED FRUITS—Prunes show no improvement as far as the local spot situation is concerned, prices being at 2½c to 5%c for the lower grades. Apricots remained unchanged, with choice quoted at 104,601%c extra choice at 114,601%c and fancy at 12,01%c. Peaches were firmly held, with choice quoted at 104,600%c and fancy at 110,601%c.

NEW YORK, March 30.—COFFEE—Futures opened steady at unchanged prices, which was a little below expectations based on steadler French cables. Later the market did better on a good demand, however, from local bulls and some scattering buying through commission houses, and toward the close the market became quite active on smaller San Paulo receipts for the day and reports of a better spot demand. The market was finally steady at a net advance of 5@10 points. Sales reported were 95.500 bags, including May at 5.5@6.60c; June 6.60c; July 6.70@6.80c; September, 3.95 @7.00c; December, 7.15@7.20c. Spot, steady; No. 7 Rio, invoice, 7%c.

NEW YORK. March 30.-DRY GOODS-Market somewhat improved and although little of speculation is evident, operations are slightly enlarged from certain sections. Advices from the west indicate a general improvement as far as the rettail trade is concerned and the effect on all portions of the trade is likely to be very apparent.
