

An Attractive Investment THE PERU PARA RUBBER COMPANY

Incorporated in the District of Columbia, has acquired a grant aggregating 375,000 acres of rubber forest land, which, computed at a conservative estimate, represents 4,500,000 rubber bearing trees of the famous PARA RUBBER ready to be tapped.

This concession was granted by special act of the Peruvian Legislature and ratified by the President of Peru and the Department of Public Works of that republic, to Dr. A. De Clairmont, on condition that he and his associates, or assigns, construct at their expense two public roadways of 50 kilometers, or about 21 miles each. Competent engineers estimate that the construction of these roads will cost about \$350,000.

The land was specially located by George M. Von Hessel, the government engineer of Peru who pronounces it "THE PICK OF ALL PERU" for its location and its fine rubber.

The concession has been assigned to and purchased by the PERU PARA RUBBER COMPANY, which was incorporated in January, 1905, in Washington under the general incorporation law enacted by congress for the District of Columbia.

India Rubber a Most Profitable Investment

In order to raise the money necessary for making good the conditions of its concession and enter upon the active harvest of its rubber crop, the company has decided to place a limited amount of its stock on the market.

We have the land and the trees. We want you to help us TAP THE RUBBER. We need money to begin operations. And for that reason we are selling a small block of stock, three shares for \$10, the par value of one. THIS OFFER WILL REMAIN OPEN ONLY FOR A SHORT TIME.

All stock is alike—one share draws the same dividend as another—there is no preferred stock.

INVEST NOW—and the profits accruing from your stock will pay you back 45 per cent of all your money the first working year, which is an earning of 15 per cent on each of your three shares, which you can now buy for the price of one.

It will pay you 100 per cent or more the second working year on your actual investment. Money may be remitted by Chicago or New York draft, or by check on Omaha banks, payable to the Peru-Para Rubber Company.

Call and investigate or send for booklet, giving further information. Address,

LATTER DAY SAINTS MEET

People from All Parts of the World Assemble at Lamoni, Iowa.

WILL MAKE PROTEST AGAINST POLYGAMY

Eldest Son of Founder of Church Presides at Conference Which Will Continue in Session for Several Days.

LAMONI, Ia., April 4.—(Special)—The little town of Lamoni is filling up with comers to the annual gathering of the Latter Day Saints, every train into the town bringing its contingent. Delegates are already here from various parts of the world—Canada, England, South Sea Islands, Australia, Scandinavia, Scotland, Wales, Hawaii and from all parts of the United States. Once each year the Reorganized Church of Jesus Christ of Latter Day Saints holds its general conference. The headquarters of this church is at Lamoni, where lives its venerable president, Joseph Smith, eldest son of the Joseph Smith who was killed by a mob at Carthage, Ill., in 1844, fourteen years after he had founded the church. This church has its affiliation with the church in Utah, though they are often confounded with that institution. These people repudiate the doctrine of polygamy and concomitant evils, and denounce the "heresies" introduced by Brigham Young after his assumption of leadership.

The conference proper begins April 6 at 10 o'clock a. m., at which time the large gathering of delegates will be called to order by their aged president, now a man nearly 72 years old, though hale and hearty. In presiding over the conference he will be assisted by his two counselors, one of whom is his eldest son, Frederick M. Smith, the other, R. C. Evans of London, Can. These three men constitute what is known as the first presidency, and upon them devolves the care of the whole church.

At 8:30 yesterday morning, one of the auxiliaries of the church began the sessions of its annual convention. The society is known as Zion's Religio-Literary society, and is the young people's organization of the church. Its president is J. A. Gurnsey of Lamoni, who has been for a year re-elected to that position. The other officers elected for the ensuing year are: Walter W. Smith of Kansas City, Mo., vice president; Etta M. Hitchcock of St. Louis, secretary; Will J. Mather of Lamoni, treasurer, and S. A. Burgess of St. Louis, Librarian.

Navoo Wants Meeting.
A notable incident at the afternoon's session was the reading of a petition signed by 345 citizens of Navoo, Ill., asking for there. Navoo to hold its next session at the residence of the Rev. J. H. Smith, all students of American history, the place made famous by the so-called "Mormon war," which reached a climax in 1844, when Joseph and Hyrum Smith were incarcerated in the jail at the county seat, and murdered. The citizens of Navoo in this petition extend to the society a very cordial invitation to come to their city and hold out promises of good treatment and hearty welcome. The mayor of Navoo sent the petition to the president of one of the Latter Day Saint auxiliaries. The General Sunday School association of the Latter Day Saints begins its sessions today and will continue till Thursday, when the general conference of the church will begin.

Errors by the Americans Account for Their Defeat.
ST. LOUIS, Ia., April 4.—(Special)—The St. Louis National League team won its first game in the American National League championship series today by a score of 19 to 8. Nichols was effective until the last inning, when the Americans solved his delivery and posed four runs over the plate. Errors by the Americans, Morgan and Suggs; Nationals, Nichols and Zearfoss. Attendance, 6,500.

WITH THE BOWLERS.
Last evening the Omahids won a straight series from the Stock Yards team, and in total pins came within nineteen pins of the Stock Yards record game. The Omahids have been badly handicapped in losing Potter. Confidence plays a large part in tennis and Potter was one of the mainstays. His substitute rolled a good game, but it never helps to have a strange man in the lineup. The shoemen were out to win and could not stop them. They carried off all the 60 scores. Sprague getting 68, Sheldon 66, and Alderman Tracy surprised himself. The score:

Player	1st	2d	3d	Total
Chandler	21	25	18	64
Tracy	21	25	18	64
Sheldon	21	25	18	64
Sprague	21	25	18	64
Totals	108	98	105	3,111

Ames Needs Bank Brown.
IOWA CITY, Ia., April 4.—(Special)—The Ames Agricultural college has stated that the reason they insist on playing professional football is because if they win the silver bat conferred for by the Iowa State college league. As the State university will not meet them under any but western conference rules, their action will result in the disruption of the league.

MILWAUKEE IS GOING WEST
Building Across Missouri at Chamberlain. Late Indicates Ultimate Plan.

F. A. Nash, general western agent for the Milwaukee road, has received official advice from headquarters setting forth the plans for the Milwaukee extension from Chamberlain, S. D., westward through Lyman county, South Dakota. While the advice received by Mr. Nash does not indicate such a fact, it is, nevertheless, believed that this extension is the beginning of the much-talked-of Chamberlain-Pacific coast project that has been going the rounds for some time and which recently was given some confirmation. Lyman county is described as one of the most fertile in South Dakota, being watered by the Missouri, White and Bad rivers and Medicine creek. The soil is a black loam, with a yellow clay subsoil. That section is noted for its rich grasses and the corn raised is of an excellent quality. Dr. W. J. McCann of South Omaha took a colony of settlers to Lyman county last year, and quite a number of Omaha people own lands in that county. The Milwaukee will begin construction work before cherries are ripe again.

Fatal Wreck in Ohio.
PITTSBURG, April 4.—An accommodation train on the Cleveland & Pittsburgh railroad was wrecked near Toronto, O., today. Two employees were killed. No passengers were hurt.

DIED.
POWERS—Patrick, aged 72 years. Funeral Thursday morning, April 6, 8:30 a. m., from family residence, 323 South Fifteenth street, to St. Patrick's church, interment, Holy Sepulcher cemetery. Mr. Powers has lived in this county forty years and was one of the wealthiest farmers in this section. His death will be regretted by the old settlers of Douglas county.

THOMAS W. LAWSON

is a peerless writer of Frenziad Finance. JOHN GUND is the matchless brewer of peerless beer. Both are Specialists—each in his own line. GUND can do one thing supremely well—Lawson another.

GUND'S Peerless BEER

is celebrated for its exceeding—purity a marvelously wholesome brew of fine malt and best hops. It quenches the thirst, rejoices the heart, and is very invigorating. The delightfully snappy taste and delicious fragrance that always characterize it, comes, not only from the excellence of its ingredients but also from perfect maturing and scientific brewing.

Y. M. C. A. REAL ESTATE DEALS

Association Now Holds Option on New Site for Building.

SALE OF TURNER LOT IS INVOLVED IN IT

Plan Looks Good, but Still Upset Price is Fixed in Order to Protect Association Against Real Loss in Transaction.

The Young Men's Christian association has an option on the Warren Smith property at the southwest corner of Seventeenth and Harney streets. The terms of this arrangement are that the association will take the corner opposite the Boyd theater if it can sell its Sixteenth and Howard street property. The terms at which this new property is to be held are private, but the corner sixty-six feet of it some months ago was offered at \$33,000. The association lots at Howard street are 132 feet square and all of the sketches and plans made by the architect and the building committee have contemplated the use of the entire square, so that it is probable the board of directors, if the change is made to Seventeenth street, would buy an equal frontage there.

"If the Young Men's Christian association can sell out its property at Sixteenth and Howard streets at a fair profit," said F. D. Wead, "and get the southwest corner of Seventeenth and Harney for not more than \$50,000, I should consider the chance a wise move."

S. P. Bostwick holds the same opinion. "I think the association would be making a wise step in going to some cheaper lot at the western edge of the retail section if it can sell its Sixteenth street lots, so as to get out for what it cost or for a fair profit. Seventeenth and Harney streets would be a good location, but I believe they might get other lots that are not as expensive and are as good as a location. That would give them a large sum of money to build, feed or debt."

Price of the Turner Site.
The difference in opinion as to whether the association did a wise thing in going to South Sixteenth street and whether it is doing a wise thing now to sell its lots, continues. While it has been said off and on that the association has had several offers for the property at a nice profit, now it is asserted no definite offers have been received. The board of directors believes that the present developments and those contemplated for this street have raised the value of the property so that

SPORTS OF A DAY.

EAGLES' CARNIVAL A BIG SUCCESS

Large Crowd Watches the Different Events at Washington Hall.

In the premier event of a successful athletic carnival held last evening at Washington hall, under the auspices of the Eagles' club, Artie Simms of Akron, O., was defeated by Clarence English of this city in the second round of what might have been a fifteen-round boxing contest. Simms apparently had more than he could manage in English. Simms opened the first round on the offensive and closed on the defensive. English had decidedly the better of it in the second round. The event was a clean-cut boxing affair in which the local man showed unquestioned superiority over his antagonist from the Buckeye state. Washington hall was well filled at 8 o'clock when Sheriff Power entered and informed the committee that Governor Mickey had ordered the English-Simms boxing match called off as he (the governor) had been informed by Omaha people that a prize fight was to take place. The matter was explained in the right light to the sheriff, who promptly went to a long-distance telephone and called up the governor. When Governor Mickey understood that only an athletic carnival was to take place he readily withdrew his objections. Several lively preliminary events preceded the English-Simms match. In a catch-as-catch-can wrestling bout between Peter Loch and Tom Mitchell, Loch got two falls, both hammer-lock holds, in six and five minutes, respectively.

"Major" Boy Tom Campbell went four lively rounds in a friendly boxing match, in which Campbell got the 4-1-1. Two youngsters, Trummer and Buckie, by name, tired each other out in four rounds of the defensive art.

BOYKES WIN A LONG CONTEST

Takes Fifteen Innings to Defeat the University Boys.

LINCOLN, Neb., April 4.—It took the Omaha Westerns nine tense and trying innings to win from the University of Nebraska this afternoon. Four of "Pat" Boykes' regulars were absent from Omaha's lineup, youngsters taking their places, and as a result the professional and a narrow escape from a beating. The collegians outbatted their opponents and showed some heart, but for some loose fielding at critical moments. Morse, the Corn Huskers' star twirler, stayed on the slab the entire ball, only made efficient use of the spit ball, only

MISS DUTTON BEAT MRS. WEST, SEVEN UP AND FIVE TO PLAY.

ST. LOUIS NATIONAL TEAM WINS

Errors by the Americans Account for Their Defeat.

ST. LOUIS, Ia., April 4.—(Special)—The St. Louis National League team won its first game in the American National League championship series today by a score of 19 to 8. Nichols was effective until the last inning, when the Americans solved his delivery and posed four runs over the plate. Errors by the Americans, Morgan and Suggs; Nationals, Nichols and Zearfoss. A HOPELESS FIGHT

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again. S. S. S. while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of \$1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of any kind. Treatise with instructions for home treatment and any advice without charge.
