S. & H. Green Trading Stamp embodies the most attractive principles of every form of trade inducement known. Its chief advantages are effectiveness,

WE CONFORM TO THE LAW

The giving of "S. & H." Green Trading Stamps has been sanctioned by the legislature and approved by the governor. These stamps have a recognized value and the public knows it. The recent act of the legislature requires that a cash valuation be printed on the face of trading stamps We have done this for some time past. The courts in all instances have con demned and decided unconstitutionsl legie lative attempts to prohibit or interfere with the use of trading stamps. In a re-cent decision Justice Nash of the supreme court of the state of New York, on March 5, 1905, goes even further and decides that the act of the legislature requiring the printing of a cash valuation on the face of a stamp is unconstitutional. He says in conclusion, after citing the Dycker and Gillison and other cases-

"It is a settled law that it is not in the power of the legislature to suppress the issuing of the sale of trading stamps. The courts hold that the laws laid down in cases quoted furnishes a rule so plain that there can be no reason for discussion. In passing on coupons having a redemption value in cash printed on their face the court holds that this cannot benefit either the consumer or the dealer."

Owing to our constantly increasing business here, we have found it necessary to place exceptionally large orders with our factories cast this spring. These goods are due at a very early date, when we will have the largest and most complete stock of premiums for you to select from ever displayed.

LOCAL BRANCH, 210 North Sixteenth Street.

The Sperry & Hutchinson Company exhausts its resources and exerts its ingenuity to make its stamps desirable. There are few towns of importance in the United States in which "S. & H. Green Trading

Stamps" is not now a household word. Those having any doubt as to the popularity of our stamps will readily be convinced by a little fair investigation.

The merchants who are prejudiced against them either have never used "S. & H." Green Trading Stamps or have not handled the system to the best advantage. Upon one point we desire to be emphatic. There is absolutely nothing irregular about Green Trading Stamps, any more than there is

They will be formally elected in the course of a few weeks. dated February 17, reads: Mr. Tower reports that he conveyed the emperor the profound appreciation of Mr. Tower reports that he conveyed to the emperor the profound appreciation of the president of his initiative and co-opera-tion in the matter of Chinese neutrality and that the emperor was exceedingly gratified and expressed most friendly sen-timents toward the president.

It is significant that in the acknowledgment of the acceptances by the other pow ers of the program suggested by Scoretary Hay in his note of February 5 only in the case of Germany did the president send a personal message of appreciation to the sovereign.

Germany's initiative was kept secret was because of the German emperor's belief that the suggestion about Chinese neutrality would be the more certain of success it emanating from Washington, particularis in view of Secretary Hay's previous activities in the same direction after the Boxer troubles of 1900. Accordingly his suggestion was conveyed to the president through Speck you Sternberg, the German ambassador; Secretary Hay returned at once from the south and after a conference with the president and the German ambassador undertook the far-reaching displomatic move to which is due the fact that China's neutrality has thus far been for the most part respected by Russia and Japan.

At the present moment the further disclosures in the new volume of foreign relations regarding the attitude of the several powers toward the Hay proposal of last February are significant.
