Spinal Meningities.

NEW YORK, April 6.-Experiments carried out at the Gouverneur hospital in this city have resulted in the decision by the medical staff that there is no hope of eatablishing a cure for cerebro spinal meningitis by the use of diphtheria anti-toxin. After trials from January 20 to date it was found that a death rate of the same percentage prevailed as last year, when the anti-toxin was not used.

Meantime the epidemic continues its spread through all the territory within 250 miles. There were eighteen deaths Wednesday in Greater New York. Between Saturday noon and the same Wednesday there were forty-seven deaths in Manhattan against forty-six in the four days of the previous week. Since Saturday noon there have been seven deaths in the Bronx, against four in the entire week previous.

In Brooklyn the epidemic is on the de cline, temporarily at least. There have been only ten deaths there since Saturday.

We did not originate these charges. We say that Mr. Rockefeller and the Standard Oil company are charged with various indictments and are not yet cleared and are not being cleared of them. We do not feel that we have the moral right to stand in relations of honor with them. The printed story of the Standard Oil company gives specification after specification as to what the company has done, not only in the matter of rebates, but in levying tributes upon other concerns, in crushing out competition, in establishing a system of espionage to find out the private business of other concerns, etc. These documents are either positive proof of the iniquitous methods of the Standard Oil company or magnificent opportunities for suit of libel against the publisher.

It will take very much more than a general denial on the part of a weyer to answer the accumulated evidence given to the public by Henry D. Lloyd in his "Wealth vs. Commonwealth," and by other writers.

The delegates were entertained at the Bartonville asylum yesterday. they desired to protest against sustaining Japanese were dislodged from two positions such officers of the church as live in polyg-

Among the apostles sustained were Apostles Taylor and Cowley. In his testimony before the senate investigating committee at Washington, Senator Smoot stated that Russian front. an investigation was being made by the church into the charges that these two apostles had taken polygamous wives since the manifesto and that if the charges were proven he would not vote to sustain Taylor and Cowley. Sepator Smoot was not present today, nor were Apostles Taylor and Cowley.

President Smith in his address at the an ual conference of the Mormon church today referred to some recent criticisms of the policy of the church under his leadership. Speaking of his critics who are or have been within the church, the president said they were "The boils, carbuncles and other excrescences of the body of the organization." In such instances, he said. there was "but one thing to do-what the surgeon does when a patient is thus afflicted-cut them out and off."

If any member of the church were dissatisfied with the manner in which the tithings had been handled, let them complain, he said, and he would gladly meet them. If the church desired to call him to account it could be done without causing ioise and disturbance.

Speaking generally of the expenditures, he said the people of the church in the southwest had suffered heavily from floods and the church had helped them. Others had suffered from drouth, and they had been helped. The church had purchased a piece of land in Jackson county, Mo., for the erection of a temple as foretold by the prophet, Joseph Smith. Large sums had been expended in foreign lands, in-'uding Great Britain, Norway, Sweden and the islands of the South seas, where land has been bought and thurches established. More than half of the bonded indebtedness of the church had been paid off, President Smith said, and the church

would soon be free from debt. Hugh J. Cannon, just returned from hree years' a ission in Germany, told of he activities of the Mormon missionaries in Germany, Switzerland, Austria, Hungary, Roumania and Servia. He said misonaries soon would be sent over the Alps nto Italy. He spoke of the opposition to the Mormons in Germany, and said 100 issionaries had been banished from Prussia in one year.

ST. PETERSBURG, April 6. - At the German embassy the statement that it had advised the Foreign office that it regarded an early conclusion of peace as probable was denied. The embassy, it was pointed out, simply reported the prevailing talk about peace in St. Petersburg. The embassy now shares the opinion expressed in these dispatches that the efforts made in the direction of peace failed and that for the moment nothing is being done. The general feeling exists in diplomatic circles, however, that peace has been brought ap preciably nearer.
