

From this Building comes a message to every woman who ever heard the word

"BUTTERICK"

Announcement of one of the most radical moves in the history of paper patterns. A year ago we moved into our new building—the largest, most perfectly equipped manufacturing and publishing plant in the whole world. It was built to lessen the cost of our products by placing us in command of every known improvement in modern processes of manufacture. The building is so big, it has taken us a year to get settled in it. Now we are ready to give you the first one of the money-savings which our huge plant have made possible.

AFTER TO-DAY ALL BUTTERICK Patterns Reduced to 10c., 15c. and 20c.

No need to tell the millions of users of Butterick Patterns the world over what this means for them. The same Butterick quality—bettered—the same Butterick guaranty of up-to-dateness in fashions—the same Butterick perfection of fit—at a lessened cost to all of us!

MEXICAN MEN AND METHODS

Observations of an Omaha Man During Year Under Dias.

GOVERNMENT STABLE AND EFFICACIOUS

W. H. Green Tells of Corporate Control and How Labor is Managed in the Land of the Cactus Flag.

W. H. Green, with the tan of eight months' sojourn in the Mexican tropics on his face, returned to Omaha yesterday to find the water pipes in his Leavenworth street home frozen; but even this rebuff did not entirely spoil his pleasure in a return to Omaha.

"Of course I am glad to get back," said Mr. Green. "But—those water pipes. Down in Mexico we had an unusually hard winter, they told me, and I don't believe we burned a cord of wood the entire time to keep warm and in the summer we had to sleep under blankets much of the time."

Mr. Green evidently fared very well in the southern republic, but Mrs. Green did not endure the climate very well and for this reason he was obliged to leave the plantation to which he was sent manager. Mr. Green while away has become personally interested in some property in Mexico and in southwestern Texas. He returned to Omaha at this time because his property needs attention, and he will remain here for a while, but may possibly return to the southwest.

Regarding the Mexican government Mr. Green said: "It's a funny government, but a good one. The better class admire the president very much. When he dies and the vice president comes in I do not believe there will be any break down in the government. The people, excepting a little trouble with the Indians, appreciate a regular government. There will be no revolutions."

Government and Corporations. "If you treat the government right you have all the protection which you want. If you do not you get in a hole and the government can't get out of it. The government inspects the books of corporations. Before you make a mark in them the government stamps every leaf and afterwards regularly checks them. If anything is found to be crooked the trouble begins. Our plantation when I went down was taxed \$4,000, payable in three installments of \$1,333 1/3 annually. I went to the governor and told him we wanted to obey the law, but that the plantation was not bringing in anything at present and the tax was too high. He reduced the payments to \$1,000. He did not have to refer the matter to anyone and there was no red tape."

"One thing about Mexico—people have to pay their debts. A man working for you cannot go away while he is in debt. If he wants to go away and can get someone to pay the debt, the other man takes him until the advance is paid. The Mexicans are usually in debt, they gamble and spend all their money. When I went there I bought \$4,000 worth of labor that way—look up their debts with other men. The Mexican is a good laborer and will do more and better than a southern negro. They get 50 cents a day in Mexican money, which is equal to 25 cents. The important change in being paid out to the last penny, but if you gave them too many they would return what was not due. We took down some negro workmen and also some shoes for them. When the Mexicans saw the negroes in shoes they wanted them, too, although they had no money to buy them."

Crops and Supplies. "The plantation is of 20,000 acres, 150 miles from Monterey and from Tampico on the Mexican Central. We could raise two crops a year of corn and two of beans, but only one of cane. We sent the first carload of beans for the market here in the month of shipment. When I was first there I saw them cutting hay with a hoe, but we left the plantation fitted out with modern machinery and right up to date. When we went down butter cost \$1 a pound, packing 90 cents and the flour 25 cents. When we left the plantation had its dairy and furnished its own supplies."

Partner of Tullis is Taken. Eddie Penn, who was also interested in the Green Goods Game, Under Arrest.

Deputy United States Marshal James Allan arrived in the city Thursday afternoon, having in custody Eddie Penn of Broken Bow, who was lodged in the Douglas county jail in default of \$1,000 bail. Penn's offense is using the United States mails for the purpose of carrying on a business of buying counterfeit money by mail and having the same shipped to him and his pal by express. Penn was the partner of Charles E. Tullis of Oconto, Custer county, who was arrested on a similar charge and bound over in a like manner to the grand jury at Oconto. Penn and Tullis are of the opinion that Tullis and Penn are not alone in the enterprise of trying to buy bad money with gold. At the examination before Commissioner Cleary at Grand Island on Wednesday it was developed that a pair of pretty sharp people, whose habitat is in the vicinity of Deadwood, S. D., are also interested in the enterprise.

WOMEN IN CLUB AND CHARITY.

The call has been issued this week for the sixth biennial convention of the Iowa Federation of Women's Clubs to be held at Waterloo May 10, 11 and 12. All sessions of the convention will be held at the opera house. The credentials committee will be in session Tuesday afternoon, May 9, from 2 to 5 o'clock at Hotel Logan; Tuesday evening from 7 to 10 o'clock at the Hotel Logan and Universalist church, and Wednesday morning at the opera house from 8 to 9 o'clock. Notice is given to clubs whose dues are unpaid that their delegates will not be given seats in the convention. All delegates and alternates expecting to attend the meeting are requested to bring with them the credentials of the club and the name of their club and stating whether they are ex-officio vice presidents or regular delegates, before May 1, so that the list may be printed. All delegates desiring entertainment must notify Mrs. J. E. Bragdon, 717 West Third avenue, in no case later than May 1. This is requested out of courtesy to the hostesses for the Waterloo women who will entertain the delegates only for lodging and breakfast. Any delegate who is to be the guest of a friend is requested to notify Mr. Bragdon May 1, giving her own name and the name of her club and the name and address of the friend with whom she expects to stay. Ample provision will be made for dinner and supper at 25 cents each, to be served in the churches near the convention hall. Arrangements have been made with the various hotels and several private boarding houses for rates, American plan, ranging from \$1 to \$2.50 per day, for the visiting women not entitled to entertainment. The transportation committee has secured a railroad rate of one and one-third fare, round trip, from any part of the state, provided 100 certificates are sold. Full fare must be paid going but upon presentation of the certificate the return is secured at one-third fare. Certificates are secured from the agent when the ticket is purchased, and must be presented and signed at Waterloo by Mrs. Matt Parrott, chairman of the transportation committee.

The program surpasses in point of interest any that have yet been provided for the Iowa state meeting. Mrs. Decker, president, and Mrs. John Sherman, of Chicago, corresponding secretary of the General Federation, will be present during the entire session and besides these Miss Jane Addams of Hull House, Chicago, Mrs. Davidson of Massachusetts, Mrs. Lydia Avery Conoley Ward of Chicago, and Mrs. Arthur Courtney Nevill of Wisconsin will be among the other women of national distinction who will be present. The program also includes a number of distinguished men, educators and specialists among the speakers. Thursday evening the delegates and visiting club women will be tendered a reception by the Ladies' Literary society of Waterloo.

A long series of amendments to the constitution and bylaws of the State Federation are proposed. Most of them are minor changes, intended to strengthen and broaden the scope of the federation or to expedite its work. One important change in dues is proposed. It is an amendment to section 2 of article V, and provides that the dues of each club with a membership of fifty or less shall be \$3, and that of clubs of more than fifty members shall be \$5. The dues of clubs of more than fifty members or of major fraction thereof, also that of the dues of each city federation shall be \$3, payable annually on or before November 1st. Another amendment would make the president of the state federation and the general federation secretary delegates to the general federation biennial convention, by virtue of their office.

Miss Abby McElroy, secretary of the Iowa Young Women's Christian association will address the gospel meeting of the Young Women's Christian association Sunday afternoon at 4:30 o'clock. Misses Florence and Susan DeGraff will sing. A basket ball tournament has been planned by the gymnasium committee to be held at Germania hall, April 14, at 8 p. m., between the First team of the local association and the First team of the University of Nebraska, and another between the Second team of the local association and the Bellevue college team.

The twelfth annual meeting of the association will be held Monday evening, April 10, at 8 o'clock, at the assembly room in altogether too small to accommodate the membership, the active members are requested to come early as they alone will be privileged to vote. Admission will be by membership card.

The conference announced for Saturday evening has been changed to Saturday afternoon at 4 o'clock to accommodate a majority of members. Active members are especially requested to attend this meeting as it will give opportunity to discuss the proposed change in organization basis that will be acted upon Monday evening at the meeting. Miss Taylor, general secretary of the American committee, or the national association, will be present and address the meeting.

The box shipped to C. E. Tullis at Oconto, Neb., which was presumed to contain \$600 in counterfeit money, made of zinc plates from the Treasury department and for which they were to pay \$150, was a closely soldered box of zinc, eight by four inches, securely wrapped with the conventional express paper, abundantly sealed and very sturdy in its general appearance. The value stamped on the box was \$100, C. O. D., and it came from Albert F. Norton, Orangeburg, N. Y., and was shipped by the American Express company from the Madison Avenue station, New York City. This box was received at Oconto in January last and has since that time been more or less under surveillance. The accidental discovery of the suspicious correspondence between Tullis and a woman friend was the means of exposing the counterfeiting enterprise. The woman friend, meanwhile had been transferred to the Pacific Express company in transit, and upon the refusal of that company to permit Tullis to open the box at Oconto its suspicious character was discovered and the United States authorities were finally called in.

The zinc box was so securely soldered that when its contents were examined it required a stout cold chisel to open it. A mass of sawdust and glue was solidly packed in the box, instead of a block of wood, as at first supposed. The box was turned over to the United States Secret Service department by the express company. Among the witnesses summoned to Grand Island in the examination before the commissioner were Post-office Inspector A. J. Moore and Captain John Webb of the Secret Service department of the government.

Men's New Hats \$2.50

Our Men's Hats at \$2.50 are no better than a \$2.50 hat should be.

The rub is, that other \$2.50 hats should be better.

Our line of \$2.50 hats reaches the limit of value and picture style at its best. There's something more than mere "hat selling" done here. The men that show you hats study your hat wants—and you get the block best suited to you—the proper height of crown and width of brim.

POWER TO CANCEL ANY TAXES

City Charter Presents Another Opportunity for a Conflict with Constitution.

Officers at the city hall who have a vague idea that the constitution has something to say about the impossibility of cancelling, remitting or commuting taxes are thinking over Section 187 of the new charter, which says: "The mayor and council, by ordinance, may make such compromise, settlement or adjustment of any action or litigation concerning the validity, legality or regularity of any tax or taxes levied for city purposes as they may deem just and equitable and the city treasurer shall conform thereto in his action respecting the collection of taxes under any tax list in his hands. These provisions shall apply to general municipal taxes and to special assessments as far as the same may be applicable."

Heretofore the mayor and council have let taxes strictly alone except in cases where errors were made by the tax commissioner by omission, double taxation or otherwise, and upon the advice of the legal department in settling special taxes the levies for which have been declared illegal by the courts.

Announcements of the Theater. Paul Gilmore's coming to the Boyd theater on Sunday afternoon for a short engagement will give Omaha people again a chance to see this rising young actor in a role he has made peculiarly his own, that of Lord Lumley in "The Mummy and the Hummingbird." The role is a very difficult one in many ways, but there is a charm about the manner of Mr. Gilmore that has added greatly to the value of the artistic creation he presents. In the strong scenes he easily dominates the situation, and especially in the closing act, where he confronts the man who sought to destroy his domestic peace, does he achieve a triumph. His treatment of the situation here marks him a true artist. Mr. Gilmore's engagement includes a matinee on Sunday, and Sunday and Monday evenings.

The success of the local musical season, which has so far been one of the most notable in Omaha's annals, is to be enhanced by the appearance here of Paderewski, the great pianist, for a recital on the evening of Thursday, April 13. Manager Burgess of the Boyd made the arrangement with the manager of the virtuoso, feeling sure that in doing so he would be giving the people a most pleasant treat. Seats for the recital do not go on sale until Monday morning but the advance orders indicate that the Omaha society will take advantage of the occasion and make it a success.

Piwitt with his mysterious face is showing Orpheumites a novelty that creates a great deal of talk. Piwitt makes up as a clown and counterpointing his own physiognomy he has an immense head that responds to his conversation with expressions that are as amusing as they are curious. Nothing like this act has ever been seen here before and the result is everyone is anxious to know how it is manipulated so cleverly. The bill as a whole has made an excellent impression and large audiences are attending.

CONCERTS DRAWING TO A CLOSE. Wagnerfest Concert Dance and Two Sacred Concerts Sunday. The season of concerts by Innes and his band at the Auditorium is drawing to a close. The attendance is increasing right along and it looks now as though the old-time Omaha favorite would play to very good houses to the close of the engagement on next Sunday night. The Parsifal program given last night was highly enjoyed by the audience as evinced by hearty applause. This afternoon Mr. Innes will present a symphony program and tonight a very fine selection of Wagnerian music, most captivating to the public and the musical student as well. The one event that will interest the young people most in the entire season of concerts will occur on Saturday night, when Innes will give one of his popular concert dances. These occasions were hugely enjoyed last year when the Innes band dedicated the Auditorium and there is no doubt that an immense audience will attend next Saturday night, as the weather is still cool enough to make dancing very enjoyable. All who purchase 50-cent tickets will be entitled to both the concert and the dance that follows.

Mr. Cassimir Rehtsborn, for several years cloak and suit manager for the Ville de Paris, Los Angeles, Cal., has just entered on his duties as assistant to D. J. O'Nahoe, cloak and suit buyer for the Bennett company. Mr. Rehtsborn intends to bring his wife and son to Omaha in a few days and thus label himself a full-fledged Omahan.

PROBATION OFFICERS POST UP

Mr. Bernstein and Assistants Go to Kearney to Look Over Industrial School.

Chief Probation Officer Bernstein and Assistants Mrs. Towle and D. M. Haverly left Thursday evening for Kearney. They took with them the three boys committed to the industrial school at Kearney by Judge Day on Wednesday. The probation officers also desired to look through the institution at Kearney and see for themselves just the lines on which it runs. As no method of paying the expenses of such a trip by any person other than the sheriff or his deputies is provided, "Moggy" had to go out and hustle transportation for himself and assistants. The county board agreed to stand for the hotel bills and incidentals.

Forgy Not Insane. Samuel A. Forgy, an old resident of Union Precinct, who was committed to the county jail in March on an insanity charge, was released from custody Thursday afternoon by order of the insanity board. It being clearly evident to the board that he was not insane, and in its opinion he should be given his liberty. When Forgy was taken into custody by the sheriff in March, he had on his person \$10 in cash. On his release yesterday he promptly deposited the money in bank. Mr. Forgy does not propose to take any more chances upon being arrested for insanity upon the simple fact that he has some money about his person. He will make his home with his father on a farm near Irvington.

HYOMEI The Guaranteed Cure for Catarrh. Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply. Hyomei is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all catarrhal poison. Just Breathe it—Cures Coughs and Colds. Thousands of testimonials have been given as to the astonishing cures of catarrh, catarrhal colds, coughs, bronchial troubles, etc., made by this remedy. Probably the strongest evidence that can be offered as to the powers of Hyomei to cure catarrh is the fact that the proprietors agree to refund the money if you say Hyomei has not cured you. The complete Hyomei outfit costs but \$1.00, consisting of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomei can be obtained for 50 cents. D. D. Graft, editor of the Nicholasville, Ky., News, writes: "Every since was a young man I have been troubled with catarrh, and in later years the disease became unbearable. Hyomei has helped me so much that I wish to publicly speak of its merits, so that others afflicted as I have been may likewise benefit."
