NEW YORK, April 7.-R. G. Dun & Co.'s weekly review of trade tomorrow will say:
Recent gains in the volume of business are fairly maintained, but further implove ment is somewhat retarded by unfavorable weather in some sections. Buyers are still tonal apping orders, and most fail lines that have been opened are meeting with an encouraging reception despite occasional fequests for extensions. Collections advance as the season advance: and agricultural pros-pects are better than normal. There is little friction between capital and labor, most new wage scales being arranged or the old basis, and in some cases advances are granted, while the number of unem-ployed is steadily decreasing. Freight traffic is very heavy, some congestion oc-urring, and railway earnings in Mark year. Foreign commerce at this port is very heavy, exports for the last week exceeding the same week in 1904 by \$1,500.70, while imports increased \$1,575.226.
A general increase of wages at the plants of the greatest iron and steel produce is another tangible evidence of the im-provement in that industry. Make Things Interesting for Chicago Until Eighth Inping. LAND HARD ON COMPANION AT WINDUP Miner Brown and Briggs of the Big

RANGERS START OFF WELL

League Team Unwilling to Let the Westerners Connect with the Ball to Any Extent.

LINCOLN, April 7.-(Special Telegram.)-"Pa Rourke's Rangers made matters fairly nteresting for the Zeepoos, the second division of the Chicago Nationals, on the campus of Nebraska university this afternoon. At least they did so for several innings, but in the later stages of the contest the higher priced artists from the big league pulled away from the Western league champions and cantered home easy winners. The final score stood 6 to 2. The inability of the Rangers to consecu tively connect with the twisters served up by Briggs and Brown, who were on the slab for Chicago, was the chief factor in Omaha's defeat.

Omaha began the run-getting in the third inning. Bewer scooted to second on Barry's miscue and registered at the plate on Gonding's single. The Rangers could not score again until the eighth. An error gave Theil a life, a sacrifice advanced him to second and Welch's corking single tallied the score. Bad base running by Chicago and sharp play by Omaha cut off the chances of the Zeepoos to score until the fifth inning. At this juncture a double by McChesney and a single by Williants netted two scores, the Rangers being kind enough to contribute two erors. Mitchell's hit in the sixth and Theil's muff of a fly. after a hard run, resulted in Chicago's hird score.

The Zeepoos clinched the game in the eighth by opening up on Companion for the only semblance of a batting rally during the entire game. "Miner" Brown, the former Omaha pitcher, landed on the first corner on a fielder's choice. Schulte then thumped the ball clear to the center field fence and both runners sprinted home. 7.3 Barry followed with a double, scoring on Hoffman's pretty drive to center for a base. The game was snappy only in spots and was scarcely up to the standard set by the Omahas and the Nebraska Cornhuskers in their recent series of three games on the University campus, which losed yesterday. The Rourkites and the Zeepoos left tonight for Omaha, where they will play tomorrow and Sunday. The score: CHICAGO. R. H. PO. A. E Schulte, lf.... Barry, 3b.... Hoffman, ss... Mitchell, 1b... Incorporated in the District of Columbia, has acquired a grant aggregating 375,000 acres of rubber forest land, which, computed at a conservative estimate, represents 4,500,000 rubber bearing trees of the famous PARA RUBBER ready to be tapped.

This concession was granted by special act of the Peruvian Legislature and ratified by the President of Peru and the Department of Public Works of that republic, to Dr. A. De Clairmont, on condition that he and his associates, or assigns, construct at their expense two public roadways of 50 kilometers, or about 21 miles each. Competent engineers estimate that the construction of these roads will cost about \$350,000.

The land was specially located by George M. Von Hessel, the government engineer of Peru who pronounces it "THE PICK OF ALL PERU" for its location and its fine rubber. The concession has been assigned to and purchased by the PERU PARA RUBBER COMPANY, which was incorporated in January, 1905, in Washington under the general incorporation law enacted by congress for the District of Columbia.

India Rubber a Most Profitable Investment

In order to raise the money necessary for making good the conditions of its concession and enter upon the active harvest of its rubber crop, the company has decided to place a limited amount of its stock on the market.

We have the land and the trees. We want you to help us TAP THE RUBBER. We need money to begin operations. And for that reason we are selling a small block of stock. three shares for \$10, the par value of one. THIS OFFER WILL REMAIN OPEN ONLY FOR A SHORT TIME.

All stock is alike-one share draws the same dividend as another-there is no preferred stock.

INVEST NOW-and the profits accruing from your stock will pay you back 45 per cent of all your money the first working year, which is an earning of 15 per cent on each of your three shares, which you can now buy for the price of one.

It will pay you 100 per cent or more the second working year on your actual investment. Money may be remitted by Chicago or New York draft, or by check on Omaha banks. payable to the Peru-Para Rubber Company.

is another tangible evidence of the improvement in that industry. New orders are coming forward constantly and it is probable that the tonnage of advance business on the books now surpasses all previous high water marks, although there is some discussion regarding the low prices at which some of this business was accepted last fall. Railway equipment of all kinds continues to find ready market and there is seasonable activity in structural steel, while machine shops in all parts of the country are working at full capacity. Increased activity is noted in the hide market, improvement is also seen in leather. New England footwear factories are receiving a fair volue of fall contracts from western and southern fobbers, but duplicate spring orders are scarce. Little that is new has developed in the future, although such scarcity exists in many lines that not only are premiums paid for prompt delivery, but poorer quality and short lengths are often accepted without questioning. More export business has are peared and it is evident that domestic buyers of this class of goods will be compelled to resort to much substitution. Commercial failures this week in the United States are 212, against 244 last week, 335 the proceding week and 235 the correst of the prevent as twenty, against thirty-three last week, sixteen the preceding week and twenty-nine last year.

Money continues easy at most points. Col-lections show improving tendencies, though many cities report them only fair. Gross railway earnings for March indicate a gain of 9 per cent over a year ago. Relatively the best reports come from the great west, the buoyancy of advices from which is in marked contrast with the same period a year ago. Rourke's Men Will Meet the Selee

Zeapoos Saturday and Sunday. Two interesting games of base ball are promised at Vinton street park on Saturday and Sunday afternoons, when the second section of the Chicago National team will be lined up with the Rangers. Several things conspire to make these games of greater interest than the ones with the Chicago American team. The Omaha team has had a week's good practice since Gomiskey's White Sox were here, and besides, nterest in the forthcoming games is acentuated when it is known that Mordecal Brown, who has an enviable reputation

with the local fans, will be here with the Colts and will be seen in the box Sunday afternoon, and probably in part of Saturday's game. The name of Mordecal Brown s one to conjure with on an Omaha base ball diamond. Already the fans are talking about him and are expressing their intentions of going out Sunday afternoon and watch Mordecal toss 'em over. Briggs, one of the three pitchers with the Chicago Naionals coming here, won nineteen of the thirty-four games he pitched with the

Colts last season and is the only pitcher in the National league who made a perfect fielding record in the thirty-four games he was in. Both Hoffman and McChesney, who will be here, are no strangers to Omaha fans. Both games will be called at 3:30 p. m. The Rangers and Colts will return from Lincoln this evening. The teams:
