Wool Market,

Wool Market. BOSTON. April 7.-WOOL-The Com-mercial Bulletin will say tomorrow of the wool market: The market retains the bet-ter feeling of last week and in fact seems to have developed even a stronger senti-ment. Interest has become a little sharper, with more inquiry, principally in foreign wools, but also in the new territories. Last year's territory receipts are weekly grow-ing less and only poor grades now remain. Prices are well maintained and strongly in favor of holders. Foreign wool is being held for full prices, as the dealers feel confident of future value. The improved feeling in the European market has become more ac-centuated during the past week. The ship-ments of wool from Boston to date from December 29, 1994, according to the same authority, are 69,109,633 pounds, against 64, 748,647 pounds at the same time hast year. The receipts to date are 71,184,448 pounds, against 51,011,153 for the same period last year.

against 5.001.183 for the same period last year. LONDON, April 7.-WOOL-A sale of 73.-779 Cape of Good Hope and Natai sheep-skins was held here today. All grades were in active demand and prices were un-changed at %d dearer. Lambs skins and coarse wooled were mainly higher. ST.
