HOT STUFF FROM MR. BERGE He Will Launch a New Weekly Paper to Give Vent to His Yearning for Reform

(From a Staff Correspondent.) LINCOLN, April 8 - (Special.) - George W. Berge, who made the race for governor last year as the fusion candidate, is going to publish a weekly paper called "The Tribune," beginning April 27. It is to be a red-hot anti-railroad organ. Here is what Mr. Berge has to say about his venture

and the paper's policy:

I have been working on this project ever since the close of my campaign hast fall.

Everywhere in our city and county governments, in our state governments, in our state governments, in our legislatures, there is corruption that smells to begin in the country of the heaven. I am going to expose it and

insist that good faith and economy shall be practiced.

This state has become a government by railroads and about the only part the people have in it is to be roubed by extortionate freight rates and taxes. The Tribune will try to help bring the state government back to the people again and help free the state from corrupt corporation influences. The railroads must be whipped out of politics.

Our public officials play politics too much. Too many of them are not square with the people in their official conduct. I say a railroad pass is a badge of dishonor, and the free pass system is a cological bribe. I

railroad pass is a badge of dishonor, and the free pass system is a cologisal bribe. I will show how public officials and members of the legislature sell their votes and influence for the consideration of a free pass on the railroads. We cannot get treight rates down and railroad regulation is impossible as long as the free-pass bribing system remains. As we look at it now, if an official appropriates money belonging to the public we send him to the penilentiary as an embezzler, if, however, an official appropriates to his own use the power and influence given him by his constituents we let it pass. I say an embezzler of public confidence and power is found must be indicted, as any federal petrayal of the public by public officials through the free pass and other corporation influences.

At no time in the history of the state

cents. I propose to show the learned betrayal of the public by public officials
through the free pass and other corporation influences.

At no time in the history of the state
have the people been betrayed so much
as in recent years. Our revolutionary forefathers fought to get the taxing power
into their own hands. The colonies were
willing to pay taxes. Great Britain wanted
taxes from the colonies. There was no
dispute about that. The point of difference was as to who should exercise the
taxing power. That is what the revolutionary war was fought for. Two years
ago the legislature stole from the people
the taxing power in this state and placed
it in the hands of five men at the state
house, called the State Board of Equalization and Assessment. I am going to tell
the people how that was done and why
it was done.

Our city governments bring the blush

it was done.

Our city governments bring the blush of shame to our faces. I will have something to say each week upon this subject. I believe in municipal ownership and the subject will be fully discussed. Perhaps never in the history of the country was there greater need for the people to arouse themselves than now. The sky really looks very dark, sometimes. There is, however, one glimmer of light. It comes from such men like President Roosevelt, Mr. Bryan, ex-Governor Larrabee, Governor LaFollette, and men like these. The Tribune's whole influence will be dedicated to help these men and men like them in the great struggle now on between the corporations and the people.

Members of Norfolk Company Have Been Careless with Property. NORFOLK, Neb., April 8 - (Special.) - Indictments by a federal grand jury on the

charge of appropriating government property is the serious situation with which a large number of men in Norfolk are just now threatened and, according to Adjutant General Culver, a situation which they cannot escape. The trouble has arisen from the deplorable condition in which the property of company L, Second regiment, Nebraska National Guard, was found by General Daggett, representing the federal government on an inspection tour. So widely scattered are the guns, tents and other belongings of the company that Adjutant General Gulver was at once callel to account and an order immediately followed from his office ordering the company

Detectives have been sent to Norfolk to search out the missing property and every person in whose possession a single article is found must, according to the general, be indicted, as no one has a right to hold any federal property of this class. It is feared that more serious trouble may follow for officers directly accountable for

The West Point company has been also ordered mustered out. General Daggett and Adjutant General Culver were in Norfolk again tonight to list what property has already been accounted for.

KEARNEY, Neb., April 8 .- (Special Telegram.)-Charles B. Fessenden of Anselmo, 'uster county, swore to a complaint this morning in county court charging his wife. Fannie C. Fessenden, with adultery with George Webb. The woman's examination was held this afternoon and she stated to County Attorney Squires that she would plead guilty to the charge against her rather than to go back to her husband. Webb has a statutory charge against him in Anselmo of six years standing relative to this woman, who at that time was only 16 years of age. She seems to be completely infatuated with Webb. No complaint has been lodged against him as yet.

Arbor Day Proclamation. Governor Mickey today issued the fol-

lowing Arbor day proclamation:

Nebraska has profited much by the institution and observance of Arbor day. The prodigal planting of trees by the pioneers and by those who came after them has not only changed the aspect of the plains as inherited from nature, but has wrought an important change in climatic conditions as well. Many parts of the state now present the appearance of a well wooded country, while other portions are responding to the inspiration of example and are making rapid strides in the same good cause. Through a wise enactment of the legislature a day has been permanently set apart for the purpose of conserving the interests of forcestry and perpetuating the precept and example of the early tree planters. wing Arbor day proclamation; of forestry and perpetuating the precept and example of the early tree planters. In harmony with the statute referred to L John H. Mickey, governor of the state of Nebraska, do hereby designate Saturday. April 22, 1985, as Arbor day, and do earnestly enjoin its proper observance upon all citizens of the commonwealth. Let the day be given over to the setting of trees, plants and chrubs, to the end that private and public grounds may have intelligent ornamentation and that present as well as future generations may receive the benefit of our toil.
