ARGUMENT IN BURNS CASE

Lawyers Will Commence the Talking Match This Morning.

LIKELY TO CONTINUE MOST OF WEEK

Attorneys in Case Unable to Agree on Instructions to Be Given by the Court, Each Submitting Several.

The forensic battle in the long drawn-out trial of the Portland mining suit, in which James Doyle seeks to recover over \$500,000 from James F. Burns, will open this morning. The jury, which was excused at the close of the testimony Thursday, will reconvene this morning at 10 o'clock, when Attorney Charles J. Hughes, jr., of Denver will fire off the first heavy artillery for the plaintiff. Former Governor C. S. Thomas of Colorado will make the opening argument for the defense, while John N. Baldwin and Congressman Smith, the local ounsel, will make the closing arguments for the plaintiff and defendant respectively. It is expected the case will go to the jury by the end of the week. At the former trial the case went to the jury on a Friday 275 cases, of which 122 are law, 76 equity, and the verdict giving Doyle nearly \$500,000 was reached on Saturday

During the interval that the jury was exused counsel for both sides held informal sessions with Judge Thornell for the purpose of trying to agree upon the instructions to be given the jury, but without avall.

Judge Thornell announced Saturday that he had decided to exclude from the jury the evidence relative to the Portland stock alleged to have been issued to James F and so testified to at the former trial by Frank G. Peck, secretary of the Portland company and brother-in-law of the defendant. At this trial counsel for the defense contended that the evidence on this particular matter was immaterial, as it had been admitted that Burns received the stock. Doyle's counsel contended that the evidence was material, as it tended to show the alleged peculiar manner in which Burns handled the Portland stock.

Counsel for the defense has submitted thirty-seven special interrogatories on which they desire to have the jury pass. Judge Thornell has them under consideration. Among the interrogatories submitted by counsel for Doyle the following two are deemed of most importance:

If you find a verdict for the plaintiff state how many shares of stock you allowed him respectively for the Bobtail No. 2 Tidal Wave and Devil's Own.

If you find that the defendant converted to his own use stock belonging to the plaintiff state at what date he converted it.

The date of the alleged conversion of stock has an important bearing on the amount that Doyle can recover, as the value of the stock fluctuated.

The present trial commenced Wednesday, March 8, and a mass of evidence has been introduced which the jury will be called upon to sift. The testimony covers about 3,000 typewritten pages. The evidence of the plaintiff filled 553 pages, while that of Burns fills 712 pages. Two court stenographers were employed and the evidence was extended each day. In addition to this mass the residence and the English and terry.

There will be no services Tuesday and Friday evenings at St. John's English Lutheran church, as announced. Wednesday evening Rev. M. L. Melick of Omaha will preach. The choir will meet this evening to rehearse the Easter and Paim Sunday music. The Ladies' Aid society will meet Thursday afternoon at the residence the English for the cripple Creek mining to rehearse the Easter and Paim Sunday music. SCHOOLS ARE TO REOPEN TODAY

Vaccination Question Not Yet Defi-

nitely Settled. The public schools of the city will reopen this morning after the spring vacation. It had been hoped that the vaccination controversy between the Board of Health and the Board of Education would have been determined by Judge Green before the reopening of the schools, but as it is Judge Green will not hand down his ruiling until this morning after the pupils have reassembled.

Health had the authority to issue the order cted it did regarding vaccination providing conditions warranted it. The questions upon which ie will hand down his decision today are whether the evidence shows that there is an epidemic or threatened epidemic of smallpox to warrant the issuance of the accination order and whether the court has a right to issue a mandatory injunction requiring the Board of Education to enforce the order of the Board of Health

ecessary to enforce this order.

If Judge Green holds that the existing enditions warrant the issuance of the order by the Board of Health there will of necessity arise the question of the method of vaccination. The Board of Health will insist that only vaccination by scarification or external vaccination be recognized and that those who have been treated by the internal method he debarred from the schools. This, it is expected, will result in another suit in the courts.

Settling Up Opening Day Affairs. The executive committee, consisting of H F. Knudsen, chairman; Charles Beno and C. Harer, which had charge of the Grand Spring Trade Opening and Market day Saturday, will meet this afternoon at the Commercial clubrooms. The chairmen of the several subcommittees are requested to attend so that the executive committee can clean up all outstanding bills.

The experiment of a market day was such success that the executive committee will call a mass meeting of retail merchants discussing the advisability of having such an event once a month during the spring. summer and fall. The committee will also insurance. suggest that the retail merchants form a isiness men's association.

Fortunes in India Rubber

The Peru Para Rubber Company, incorporated under the laws of the District of Columbia, has acquired a grant of 375,000 acres of Rubber Forest Land, computed at a conservative estimate, represents 4,500,000 rubber bearing trees of the famous PARA RUBBER—now ready to be tapped.

This concession was granted by a special act of the Peruvian Legislature and ratified by the President of Peru and the Department of Public Works of that Republic.

The land has been thoroughly explored and inspected five different times by George M. von Hassel, the Government Engineer of Peru, who pronounces it the "PICK OF ALL PERU FOR ITS LOCATION AND ITS FINE RUBBER."

We have the land and trees. We want you to help us TAP THE RUBBER. We need the money to begin operations. We are selling a limited amount of stock at five dollars per share—par value \$10, fully paid up and non-assessable. This offer will remain open but a short time. The stock is really a gilt edge security, sure to produce large dividends.

Both the loss of interest in the game and the clouds of dust that blew down the field to the grandstand caused a goodly number of the mourners to leave the stand with bowed heads from the sixth inning on to the end of the game. Had it not been for the wind and dust another reason might have been assigned for the many reddened eyes and exposed handkerchiefs seen at yesterday afternoon's service.

Freeze Scored Only Run. Freese and Bemis saved the Rangers from a shutout, Freese connecting with the ball in the eighth and sending it over to the rightfield fence and making third base. Bemis followed with a single in the same territory and Freese came in with the only run the Rangers made. For this kind act Freeze was forgiven by the fans for allowing the Zeepoos to steal four bases previously in the game.

It was in the fourth inning that the Chicago lads settled up with Mr. Phester and the Ranger bunch for fair. In the seventh inning Curis was found for three safe ones, which netted four runs, a wild pitch with Carney on third base bringing the manager in. A cold wind took the spirit out of the players to a certain extent, but some good work was done by the fielders on both teams. Score:

FIRE RECORD.

Hardware Store at Madison. MADISON, Neb., April 9.-(Special Telegram.)-What might have become the most disastrous fire in the history of the city broke out here today in the basement of the Hume-Robertson-Wycoff company's hardware store. It was discovered at 1:30 p. m. and the fire department worked about an hour before the flames were subdued. The fire coming up through a large register in the middle of the store spread to right and left and reached the ceiling, a skylight directly overhead acting as a flue. It was confined to the building in which it originated. The store of M. F. Thomas, general merchandise, was damaged considerably by smoke, as the buildings are separated by a wooden partition only. The loss on the Hume-Robertson-Wycoff company's stock from fire and water is variously estimated at from \$4,000 to \$8,000. The damage to the building is about \$500, and it is fully covered by insurance. A high wind was blowing from the northeast. The damaged building is located in the main business block of the city. The cause of the fire
