Base Ball Trip is Off. IOWA CITY, Ia., April 12.—(Special Telegram.)—The trip for the Iowa university base ball team during the Easter vacation, which begins today, in which they would meet the Universities of Kansas and St. Louis, has been declared off because it was

found impossible to arrange for a third game to meet the expenses of the trip. The trip had been proposed and partially ar-ranged for some time ago.

WITH THE BOWLERS.

Last night the Storz Blue Ribbons finished Last night the Storz Blue Ribbons finished their season by winning three games from the Armours. If this team can continue their work of the past two months they are likely to be found among the first division next season. The totals for games show consistent bowling by both teams, but the individual scores were far apart. Fritscher found a ball to suit him and piled up a 676 score; "Cap" Schneider was close, with 670; Frisble pounded down 630, and Tonneman 624.

MOHLER A VICE PRESIDENT

Union Pacific Director Adds to Titula Dignity of General Manager.

MADE EXECUTIVE OFFICER OF THE ROAD

Step Taken to Put Omaha Office in Position to Deal with Matters Heretofore Sent to New York.

The election of Mr. Mohler to the vice presidency of the Union Pacific has the effect of giving to Omaha a resident executive officer of that road, which this city has not had since the resignation of Horace G. Burt, more than a year ago. Since his appointment to the office of general manager, April 1, 1904, Mr. Mohler has had authority over only the maintenance and perating of the Union Pacific, while now e has executive authority over such maters as have heretofore been referred to the New York office. The office of vice president was premised to Mr. Mohler at the time he accepted the general managership, but until now matters of a legal nature made it impracticable to make the appointment. The step necessitates no change in the personnel of the official staff of the road, Mr. Mohler's new title will be that of vice president and general manager.

Motor on St. Paul Branch. The Union Pacific gasoline motor car No. 1, which was on public exhibition at the Union station Tuesday evening, will satisfaction. Ask them to show you the go to Grand Island next Monday morning for an indefinite service test between that station and St. Paul, a distance of twenty two miles. General Superintendent W. L. Park of the Union Pacific has made that announcement. The car will run between Grand Island and St. Paul until such time as the officials are fully satisfied as to the car's adaptability for suburban service. The motor car will then go to Portland, Ore., under its own power, and be on exhibition at the Lewis and Clark exposition.

Asked again what plans are on the tapis for the construction of more of these cars, Superintendent Park stated that nothing definite is known at this time.

Figuring Out Valuation. The office forces in the tax departments of the various railroad lines having general offices in this city are at present busy making out the annual reports of the valuations of the properties owned by these companies in the state. These reports are filed with the state auditor and are used by the State Board of Equalization in arriving at the valuation of the railroad properties. April 15 is the date set for the reports to be 463 in the hands of the state auditor. The rali-536 road officials are not inclined to give out any information concerning these reports until they are filed at Lincoln.

Opening of San Pedro Line. Announcement was made yesterday that through trains by way of the Union Pacific and the San Pedro road from the Missouri river to Los Angeles will begin May 1. Trains leave Salt Lake City at 8:30 p. m. and Los Angeles at 8 p. m., arriving at their destinations the second morning. The trains will carry two sleepers, one of which will be operated between Los Angeles and Chicago on the Overland limited trains.

Railway Notes and Personals.

Manager Bidwell of the Northwestern is in the west.

J. O. Phillippi, assistant general freight agent of the Missouri Pacific at Omaha, has gone to Kansas City. F. Montmorency, assistant general freight agent of the Burlington, has gone to Kansas City on business.

ers.

W. Seward Webb of New York City, president of the Rutland Railroad company passed through Omaha last evening in a special train. President Webb and party are returning from a pleasure trip through California. The train left immediately on arrival here over the Northwestern for Chicago. Attached to the Webb special is a private car occupied by Miss C. J. Flood and party, also returning from the Pacific coast, but traveling independent of the Webb party.

THE STOMACH IN WINTER

Hearty Food Puts Extra Strain on This Important Organ. Winter is a little more than half over, and the results of its hearty food are shown in the variable appetite, nausea, gnawing at the pit of the stomach, heartburn, sallow skin, furred tongue, headache, backache, and sleeplessness. The stomach has been overworked, the nervous system is unstrung, the blood is in bad condition

the digestive organs are tired out. It is at this season of the year that Mi-o-na, the only remedy known that gives strength to the stomach and digestive organs, is of special value.

Mi-o-na is not a hit-or-miss cure, but it is an unusual combination of remedies that makes it infallble in restoring health to the stomach and digestive system. It overcomes any acid condition that may be present in the stomach and intestines, soothes and heals the irritated mucous membrane, has a stimulating effect on the solar-plexus, and combines peculiar properties that strengthen the nerves of the stom ach and puts the whole digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, any disease germs in the stomach will be destroyed, and the digestive system will be so strengthened that it will extract from the food all the elements that make solid bone, firm muscle, and pure blood. It is a guaranteed cure for all diseases of the stomach, excepting cancer.

The guarantee on Mi-o-na is given by one of our best known drug firms, Sherman & McConell, who agree to refund the price, 50 cents, should Mi-o-na not give perfect guarantee they give with every package.

OUR LETTER BOX.

The Rockefeller Controversy. OMAHA, April 10 .- To the Editor of The Bee: I was much interested in the edltorial in The Bee yesterday regarding the question of Mr. John D. Rockefeller and his contributions to benevolent objects, and I think the position taken is the only sensible one.

The great amount of abuse which has been heaped upon Mr. Rockefeller and the Standard Oil company during the last few months is but another evidence of the way in which we American people do things. We always go from one extreme to another. Like the population of one of the cities to which Paul preached, they are first willing to worship him and the next they are ready to take up stones and kill him. Anyone who has given any particular thought to the equity of the case and has tried to look on both sides, will realize that there are evidently two sides to the question of the character and motive of Mr. Rockefeller and of the giant organization of which he is the head. However, it is well to remember that Mr. Rockefeller, personally, is not responsible for much that is done in the name of the Standard Oil company, as has been clearly shown in many instances. There is a spirit of fairness among Americans when they come to look at both sides of the question, which can be depended upon to do justice to all concerned.

The charges against Mr. Rockefeller have been intensified very much by the articles by Miss Tarbell and Mr. Lawson. Miss Tarbell wrote a thrilling history of Lincoln. Some of her rhetorical periods are exceedingly fine, but it is of no historical value, as is shown by the fact that it is reight agent of the Burlington, has gone to Kansas City on business.

T. C. Davison, chief rate clerk in the Union Pacific general passenger office, is eating his means in Chicago for a few days.

For the Henry W. Savage English Grand Opera company, which appears at Boyd's, the railiroads have made a round trip rate of fare and a third for points within 100 miles of Omaha.

The Northwestern has issued circulars announcing the itinerary of its good roads special train, now being run through Iowa. The train left Onawa last Monday and will close the trip at DeWitt, Ia., on April 28.

Local officials of the Anchor line, lake and rail route have received official advice that the first Anchor line westbound boat for the season left Erie, Pa., April 10, and is due at Chicago on the 14th or lith. These are the initial salings of this season's anchor line fleet, which now consists of fifteen steamers.

W. Seward Webb of New York City, never referred to now as a history. Just so with her history of the Standard Oil company. It is a thrilling narrative, but The value of Mr. Lawson's articles and charges is yet pendent upon his own statement of the case, and, however fair one means to be, one's own statement is always one-sided. The principal charge against Mr. Rockefeller is that, through rebate on freight shipments, he was able to get a very large advantage of his competitors, compelling them either to sell out to him, or to discontinue business. During the early 80s I had an intimate friend who was engaged in the lumber business. He had half a dozen mills or more scattered along the different lines of railroad. The giving of the rebate was universal at that time, and the size of the rebate was always proportioned to the amount of traffic to be disposed of. A man able to furnish 100 caroads a day would get very much better rates than the man who could furnish one carload a day. The result was that the small mill man was obliged to do one of two things; sell his productions to the large lumbermen, or go out of business. No one thought for a moment of accusing the great lumbermen of those years of anything unfair. It was purely a business transaction, but the difference between the one carload rate and the 100 carload rate was sufficient to make a man wealthy in a few years. In fact, we have exactly the same thing today.

The difference between carload rates and less than carload rates makes wholesale houses in Kansas City, St. Joseph, Omaha. Denver and other inferior cities possible. If the small merchant in the interior of Kansas could buy a thousand pounds and have it shipped as cheaply per hundred pounds as the wholesale man who shipped by the carload, it would put an end to wholesale and jobbing houses in the interior. It is exactly the same principle as that upon which Mr. Rockefeller built up his great company. He was able to furnish 150 carloads a day while his largest competitor could furnish less than fifty. The

result was that he was able to secure and to held rebates such as they could not get. Another charge against Mr. Rockefeller s that he buys for the least possible price. wonder how it is with other manufacturers? Do the promoters of our great shoe factories buy the raw material at the least possible price, consistent with quality, or are they generous enough to pay a larger price than they need to? I wonder how it is with the head of every family? Do they buy where they can buy the cheapest consistent with quality, or do they pay more than they need to? It seems to me that a few questions of this kind let in a whole flood of light upon the charges which are so loudly made against Mr. Rockefeller and the Standard Oil company,

The question of the selling price is quite another question. I remember very well myself, when but a child, when my father bought the first coal oil I ever saw. He paid 75 cents a gallon for it and it was an exceedingly poor quality at that. A very fine quality of coal oil can now be purchased from 10 to 15 cents a gallon. It does not meet the situation to say that competition has forced the price down to these figures, for with the large percentage of the business in refining in the hands of Mr. Rockefeller, if he chose to do so, he could arbitrarily put up the price of oil to ouble what it is at the present time. That he does not, is a tribute to his consideraion for the needs of others.

Rockefeller. The large capital which he other things. has been able to utilize in developing the best and cheapest methods for refining and marketing the production, makes it possible for him to do a profitable business at a

ower price. Personally, Mr. Rockefeller is one of the most genial men it has ever been my privioge to meet. His contributions for the ar'ous educational and missionary objects for the last twenty years, probably exceed those of any other man on earth, and it is

Fortunes in India Rubber

The Peru Para Rubber Company, incorporated under the laws of the District of Columbia, has acquired a grant of 375,000 acres of Rubber Forest Land, computed at a conservative estimate, represents 4,500,000 rubber bearing trees of the famous PARA RUBBER-now ready to be tapped.

This concession was granted by a special act of the Peruvian Legislature and ratified by the President of Peru and the Department of Public Works of that Republic.

The land has been thoroughly explored and inspected five different times by George M. von Hassel, the Government Engineer of Peru, who pronounces it the "PICK OF ALL PERU FOR ITS LOCATION AND ITS FINE RUBBER."

We have the land and trees. We want you to help us TAP THE RUBBER. We need the money to begin operations. We are selling a limited amount of stock at five dollars per share-par value \$10, fully paid up and non-assessable. This offer will remain open but a short time. The stock is really a gilt edge security, sure to produce large dividends.

India Rubber a Most Profitable Investment

Now is the time. Don't wait. All stock is alike. One share draws the same dividends as another-there is no preferred stock. The capitalization is very conservative. We expect the stock will be at par before ninety days.

INVEST NOW-and the profits accruing from your stock will pay you back 45 per cent of all your money the first working year.

It will pay you one hundred per cent or more the second working year on your

given where there could be no possibility or hope of return. His family life is such as to challenge the respect of every American. While he has had well nigh unlimited wealth, every one of his children have been taught some useful occupation. They are modest, kind and thoughtful.

These thoughts are written without the knowledge of anyone connected with Mr Rockefeller or the Standard Of company, purely and solely from a desire to see fair play. I am in no sense set for the defense of Mr. Rockefeller or his methods, but in the great amount of abuse which is being heaped upon him I think it is wise for us to look at both sides an dto think of some Every poor man's light to a tribute to the of the things which compel us to respect agacity as well as the generosity of Mr. him, whatever opinion we may have of N. B. RAIRDEN. 4106 Lafayette Avenue.

TWENTY-FIVE CENTS A BOTTLE.

We have been the means of restoring thousands of afflicted sufferers to complete and perfect health. Will you place your confidence in the care of honest, skiliful and successful specialists? Years of practical experience, thousands of dollars spent in researches and an immense practice have enabled us to evolve a special system of treatment that is a safe, certain and speedy cure for all private diseases and weaknesses of men. The change in thousands of cases is simply marvelous. Blighted lives, blasted hopes, weakened systems, debilitated and shrunken organs, and nervous wrecks have been quickly and safely cured by our method. We have evolved a system of treatment that is a powerful permanent and determined medicinal corrective where men's characteristic energies have become weakened or dissipated either through sexual excesses, indiscretions, abusive habits, or the results of neglected or improperly treated private diseases.

Our object is not so much to do the work that other doctors can do, but rather to cure obstinate diseases which have baffled the skill of others. The worst cases that we have been called upon to treat are those which have been improperly treated before coming to us. By our system of electricity and men after all others have fedled. All that deep knowledge, expert skill vast experience and scientific office equipment can accomplish are now being done for those who come to us for the help they need.

WE CURE QUICKLY, SAFELY AND THOROUGHLY

Stricture, Varicocele, Emissions, Nervo-Sexual Debility, Impotency, Blood Poison (Syphilis), Rectal, Kidney and Urinary Diseases,

1888 Farnam St., Bet, 18th and 14th Streets, Omaha, Nan.
