Reinforcing Vladivostok. TOKIO, April 13.-It is reported here that the Russians are continually reinforcing the garrison at Viadivostok and that the work of strengthening the fortress is progressing constantly. It is said that the plans of the Russians

contemplate a garrison numbering 100,000 men, with 500 guns. Many additional batteries, redoubts, barriers and pits are in course of construction and enormous stores of ammunition are being accumulated. The Russians, it is said, hope to equip the fortress so that it will be capable of withstanding a siege.

Cloman, Twenty-second Infantry, of the general staff, stationed in this city, for duty with the Russian army in Manchuria. Captain Cloman will act as aide to General

These officers will relieve Major M. M. Macomb of the artillery corps, Captain W. V. Judson of the corps of engineers and Colonel Vlary Havard of the medical department from further duty with the Russian army. Major Macomb is now with the Russian forces in Manchuria. Colonel Havard and Captain Judson are on their way to the United States, having left Tokio recently for San Francisco. The latter two officers were captured by the Japanese army on the retreat of the Russian forces from Mukden. Colonel Havard might easily have escaped with Major Macomb, but Captain Judson was prostrated by sickness at the time and Colonel Havard remained with him as an act of friendship to see that he was property treated.

PRINCE MIRSKY MAY LEAD Former Russian Minister Mentioned as

Head of Rescript Commission. NATURE OF PARLIAMENT IS IN DOUBT

No Plan of Action Decided Upon and People Grow Weary of Waiting for Official Action.

ST. PETERSBURG, April 13.-The report that former Minister of the Interior Prince Sviatopolk-Mirsky will return to public life as president of the rescript commission, aithough not officially confirmed, creates much zatisfaction, as his sympathy with the principle of popular representa-

tion is well known. Numberless stories are being printed abroad giving details of the character, composition and date of convocation of the oming parliament. The Associated Press can state that they are premature. Countless plans have been submitted, the favorite one being a parliament composed from two sources, an upper house of \$120 members, half of them to be nominated by the emperor and shaif to be elected by the nobility, and a lower house of 625 members elected by various classes in all parts of Russia, including the non-Russian provinces. But the commission has not decided even in principle the nature or composition of the parliamentary body. It is the delay which has destroyed popular constdence in the sincerity of the government and which led the attorneys' congress to undertake an active, united propaganda by all the liberal professions in behalf of con-

stitutionalism. The press has won a very considerable victory in the decision of the press commission to remove the censorship from foreign press telegrams. The regulations, however, will not go into effect until the revision of the press laws is complete. The special commission of the Academy of Science, which has been considering the

RIOTING IN THE STREETS RESUMED

Strike Sympathizers Form Blockades and Police Use Clubs Freely in Clearing Passage-Several Arrests Made.

CHICAGO, April 13.-Mayor Edward F Dunne today again endeavored to effect peace between the contending sides in the labor troubles in Chicago, but at the end of the day several conferences with the labor leaders and representatives of the employers left the situation unchanged. Mayor Dunne tonight, however, was more hopeful of peace as the result of his efforts and the peace negotiations will be concontroversy will agree to confer together and accept the intervention of the mayor. were willing to meet the employers, but that the latter declined the proposed conference, and Mayor Dunne was forced to meet the opposing elements separately.

More Rioting in Streets. While the peace negotiations were progress today Montgomery Ward & Co. ontinued to make delivertes with nonunion teamsters. The service was interrupted, however, by the strikers and their sympathizers, who blocked the streets making it almost impossible for the caravans, under the protection of platoons of police, to pass through the streets. In several instances the crowds became lemonstrative that it was necessary for the police to use their clubs and several men were hurt in their clashes with the bluemen. Nine nonunion men were seri ously hurt and it was necessary for the

police to make several arrests before the

crowd could be dispersed. Employers to Form Teaming Co. Should the efforts of Mayor Dunne to bring about an amicable settlement of the lifficulty fail, it is said tonight that the employers will form a comprehensive teamng company of their own in order to carry on their business should the strike spread. The new concern, it is asserted, will include most of the business firms who are threatened by a spread of the strike and will be for the purpose of presenting a solid and compact opposition to the union teamsters should they decide to extend the the audience with mingled sensations of sympathetic strike. It was said tonight that this new company would be in working order by tomorrow night.

MUSIC AND MUSICIANS

Paderewski, who by the verdict of those best informed was pronounced the greatest planist of his time, if not of all times, appeared at the Boyd last evening and was greeted very cordially and somewhat exectantly by an audience that about twothirds filled the house. The program was a liberal one, and of variety enough to satisfy those who really desired to acquire some understanding, from many points of view, of the character of the genius that won the highest and most genuine acclamations from the musical world. This was his second appearance in Omaha, the former having been several years ago. Since that time planists who have won high consideration both in America and in Europe have appeared in Omaha, and, position. The program called for the highest ability and included selections from the works The labor leaders declared today that they of composers to whom the world yields unwavering allegiance. If Paderewski falled to arouse the old-time enthusiasm, It was not the fault of the selections he made for this occasion. It may have been the weather, or the strain of his protracted tour, extending over such great stretches of country that affected the playing of this once supremely capable artist, or, and the words come with some reluctance, it may have been the fault of the artist himself, that the impression was left that the performance, wonderful as it was in its ccasional flashes of genius, was not of the character generally expected. Possibly the program was not happily arranged, for one's impressions were disturbed by apparent incongruitles of artistic effects as the various numbers were disposed of with some promptness and with not a little perfunctoriness. Whatever may have been the possibilities of the selections rendered, there was unmistakable evidence of coldless of treatment, of hardness, of lack of rhythm and of positive carelessness. But these depressing features were in turn dispelled by flashes of treatment which, while they emphasized the inequalities of the performances, were as charming as they were often unexpected.

The opening number was "Prelude and Fugue in A minor," by Bach-Liszt. This was followed by Beethoven's "Sonata" in F minor, op. 57, and "Nachstuck" in F major, op. 22, No. 4, and "Toccata," op. 7, by Schumann. These four numbers left pleasure and disappointment. In every number surprising virtuosity was shown, but in the first and second something more was expected than mere excellence of exc-There were touches that captured cution. the attention whether or no, so beautifully and tenderly were they interpreted. And this, in general, was true of the treatment of the remaining numbers. Probably expectations were fully gratified in his renimitable value in A-flat major, op. 42. But A nocturne by Paderewski himself was played with tenderness and was very beautiful, even if it was not very wonderful as a composition. The concluding number was "Rhapsodie Hongroise," No. 6, by Liszt, and was played probably more satisfactorily, as a whole, than any one of the more pretentious numbers on the program.

As a whole the reappearance of Paderew ski was a disappointment to those who had heard him in days gone by, when his magic fingers imparted the touch of genius to their work and left impressions that true music lovers would rather retain unbroken

Miners in Minnesota Say They Will Return to Work When Afforded Protection.

DULUTH, April 13.-Nine hundred men left their work at the Chisholm, Clark, Glen, Leonard and Monroe-Tener mines at the Chisholm mines shortly after noon today, telling Captain R. J. Mitchell and M. H. Godfrey, superintendent of the un-derground and open pit properties that they will return when assured they will protected. Three hundred striking miners from Hibbing visited the mines this morning. The men here are earning from \$2 to \$4.20 a day for eight and nine hours' work, and are not at all in sympathy with the strike movement.

Mr. Mitchell announced tonight that an effort will be made to resume operations tomorrow morning. Sheriff Bates has been called upon to protect the mines, and it is said the next move will be to call upon Governor Johnson to send out several companies of the state militia.

Position of the Employer.

It is explained that under the "international agreement" "any question" arising between the parties "shall be referred to the local conference committee," subject to appeal to the "National Board of Conference and Arbitration." The question is now in local conference. The Omaha Typothetae has also a contract with the printers' union terminating October 5, 1905. This union has voted to reduce the working time to eight hours a day, the present limit being nine hours. The National Typothetae has voted to resist any demand for shortening the hours of labor and both sides are now raising funds va riously stated at \$100,000 to \$500,000 to fight out the issue.

The Typothetae states its position as follows:

So far as the demands of the pressmen are concerned, they should be settled by con-ference and arbitration, but between the Typothetae and the Typographical union the difference of opinion is so great and the the difference of opinion is so great and the Issue so sharply drawn that a clash seems inevitable, involving all the large cities. Should the unions succeed in gaining their demands, the result must be a large increase in the cost of printing in Omaha, while a general strike means almost total stoppage of production. Many competing towns have no labor unions and no snop practices, and work ten hours for less wages.

To meet these conditions and keep work at home many contracts have been taken by Omaha employing printers at prices below cost of production.

by Omaha employing printers at prices below cost of production.

The constantly increasing wage scale, decreasing hours of labor and restrictive
shop practice are more and more burdensome, and Omaha employing printers feel
that the limit has been reached.

KINGDOM OF CLIFTON HILL Improvement Club Proposes to Have that District Marked on New Political Map.

Clifton Hill is going to put up the fight of its life for a widening of its political influence in the proposed redistricting of the city into twelve wards. This was decided on at a special meeting of the Clifion Hill Improvement club last evening. While the meeting was not very numerously attended, many of the men who carry weight with their neighbors in the district were present. The outcome of the discussion was the appointment of a committee composed of J. F. Burgess, S. J. Rothwell and J. N. Beach, whose duty it will be to represent Clifton Hill in the matter of redistricting.

"How many of the present councilmen are to be candidates for re-election?" someone naked.

"All of them," was the answer in chorus "There was some talk of Hoye running for sheriff," said one club member, "but since the extension of the term I suppose he will stick to the council.' "Yes," said another, "that \$1,500 salary

OMAHA ROD AND GUN CLUB New Name Adopted by Local Sportsmen for Their Protective Organization.

A constitution was adopted, a new name chosen and a board of directors elected by the disciples of Walton and Nimrod last night at the Merchants hotel. The title of the Omaha Rod and Gun club was selected as more euphonious and less cumbersome than the former of the Douglas County Fish and Game Protective association. The membership of the board of directors, consisting of the officers and six other men, is as follows: Dr. George L. Miller, F. L. Goodrich, Harry Townsend, W. W. Bingham, Henry Homan, Harry Crouch, George Shroeder, H. C. Magner. F. L. Goodrich was elected secretary and Harry Townsend treasurer, in accordance with the recommendations of a ommittee appointed at last week's ses-

The club decided to incorporate for a period of twenty-five years, the organization to date from April 1. Articles of incorporation were read and approved. Various members declared themselves much in earnest about securing grounds and erecting a clubhouse. A committee on grounds and buildings, which is provided for in the constitution, will be appointed. The club now has 150 members, a gain of o per cent in one week. The initiation fee has been placed at \$1 and the yearly dues at \$4. At Council Bluffs it was found necessary to make the initiation fee \$5 in order to limit the membership, so enthusiastic were the people over the club there. CHANGES IN ASSESSMENT LAW

Amendment Does Not Affect Local Work, but Goes Up to State Board.

Recent amendments to the law governing the assessment of property in Nebraska donot affect the work of the local assessors in any way. Changes, if any are made, will come later on, when the State Board of Equalization is in session.

Heretofore the state board could only raise or lower the figures of the local offidals on a uniform scale. Under the amendment adopted by the legislature at its recent session the state board can raise or lower the figures returned by classes. For instance, the item of horses, or of bank stocks, or of household furniture, can be poosted in any percentage which the state board may consider proper in order to secure a fair degree of uniformity in the different counties. This has been the ruled in a good many of the states for years, but it has only this year been made the law in Nebraska.

Explosion of Sewer Gas. Explosion of Sewer Gas.

ST. LOUIS, April 13.—Sewer gas that had accumulated in the conduit of the Union Electric Light and Power company, along Jefferson avenue, Case avenue and Garrison avenue, was ignited by some molten metal accidentally dropped into the conduit by workmen today and the explosion resulting damaged the streets for two miles, broke windows in dwellings and burned four workmen about their faces and hands.
