NEW YORK DEFEATS BOSTON

Last Year's National Champions Easily Win Opening Game of Season.

KW YORK, April 14.-In the presence a record breaking attendance, the turnsiles showing that over 40,000 persons had visited the grounds, the National league champions easily defeated the visiting Boston team by a score of 10 to 1. Prior to the game the two teams par-

ticipated in a parade through the city, and when they returned to the grounds they were greeted with tumuluous cheers. Many floral pieces were presented to Manager McGraw and the individual members of the New York team, all of whom took part in the hoisting of the championship pehnant.

The game was rather one-sided, as Mc-Ginnity had perfect control, while Wilhelm and Young were hit pretty freely. Donlin got the credit of making the first home run of the local season and the star fielding play of the game was a one-handed eatch of a low drive from Tenny's bat by Dahlen. The score:

getting the bail in the net because the other side made fouls. Miss Pilisbury and Miss Everett were quick and certain players and covered ground especially well.

At the start it looked dreary for the university, as Miss Baker put the bail through the net twice in just about fifteen seconds after play began. Then the Lincoln lassies woke up and from that time on permitted no foolishness. It was not long before Miss Jansa, aided by the other members of her team, evened up the score and the half ended 9 to 6 in favor of Nebraska. The score and half, though not so close, was fiercely contested, Miss Everett replacing Miss Woodsmail. The speed and agility of the schoolgiris, coupled with the sureness of Miss Jansa, was too much for Miss Baker, however, and she could not win the game all by herself. She tried as hard as possible, but it was no use. This was the lineup: from Last Year's Champions.

PHILADELPHIA. April 14—The American league season opened here today with a victory for the home club, Boston being defeated 3 to 2. Owing to the crowd, which overflowed into the field, a ground rule was necessary. The usual flag raising function was participated in by both teams and the first ball was thrown by Mayor Weaver. Young and Bender were the opposing pitchers and the latter, up to the last inning, was invincible. Boston bad not scored a run and had made but two hits when in the ninth Bender weakened. He allowed two doubles and gave four bases on balls, forcing in a run. With three men on bases he struck the last man out and saved the game. Attendance, 5,221. Score:

WASHINGTON, April 14.—New York and Washington opened the American league base ball scason here today. The local team lost principally because of Chesbro's pitching. The visiting team's 'spit' ball artist had Washington completely at his mercy, especially when hits meant runs. Good News Still Predominates All Branches

LARGE DEMANDS FOR WEARING APPAREL

Weekly Review of Trade will say:

Good news still predominates in trade and industry. Easter business is of large volume, dry goods, clothing, footwear and all lines of wearing apparel reporting an unusually good demand, and shipping demands are taxed to their capacity in many cases. The country as a whole is experiencing more settled weather, which is reflected in a better retail distribution of merchandise. Jobbing trade in goods for fall delivery is broadening and there is more inclination to prepare for the future. Manufacturers report less idle machinery, the iron and steel industry leading with an unprecedented output of pig fron, yet consumption is also above all records, for there is no accumulation at the furnaces. Textile mills are also well engaged as a rule, and forwardings of footwear from Boston make favorable comparisons with every year except 1809. A few labor controversies are threatened, but none are of sufficient magnitude to materially check progress, even if expected settlements are not attained, for the number of hands involved is comparatively small. Reports are somewhat conflicting as to mercantile collections, but improvement should follow the liberal distribution of funds in starting agricultural work, treasury shipments of small change to the interior largely exceeding the amount in transit a year ago. Weekly Review of Trade will say:

Railway Traffic Heavy. Car blockades are few, owing to the favorable weather, although traffic is heavy, as shown by the heavy railway earnings for the first week of April, 10.8 per cent larger than last year. Prices of commodities declined 2.7 per cent during March, according to Dun's index number, a logical concomitant of the advancing season. Eggs, dairy and garden products, grain and coal made the most notable declines. Foreign commerce at this port is keeping pace with the improvement in domestic trade, imports for the last week exceeding the same week last year by \$6,656,755 and exports gaining \$3,185,-498.

Many steel mills are several weeks behind with deliveries and in some cases contracts are not taken where shipment is desired before July 1. Pressure is especially noteworthy in all lines of rallway supplies, particularly light rails.

Failures this week numbered 214 in the United States, against 225 last year, and 20 in Canada, compared with 16 a year ago.

Reports from the Cities. Reports from the Cities.

Dispatches to Dun's indicate that trade is progressing along satisfactory lines, building operations are expanding in a seasonable manner and the outlook is decidedly encouraging. Boston reports the Easter distribution equal to previous years and a fair movement of staples. Manufacturers of hostery, dress goods and carpets at Philadelphia are well employed and wholesale dry goods houses are busy. Pittsburg reports building permits exceeding previous records, steel mills busy and merchandise demand broadening, but labor troubles hamper window glass output. NEW YORK, April 14.—Bradstreet's tomorrow will say:

Spring trade at wholesale has apparently passed its zerfith, but orders, especially at the west, are unurually good. Iron consumption is unprecedented, winter wheat promises are excellent and the acreage in other ceerals will be large. Building and building material are active, export trade displays signs of improvement, railroad earnings show 10 per cent gain for March and an increase of 5 per cent for the quarter and bank clearings show continued heavy increases on last year. Retall trade is good in sections, but has been retarded by cold weather or heavy rains at other points. Meat, fish and poultry prices are conspicuous exceptions to the otherwise easing tendency of food products. In meats, lessened receipts and higher prices for cattle and Lenten influence are the causes assigned for this. Cereals, which have been affected by good growing weather and excellent crop reports, have hardened on cold and dry weather reports. Structural iron and steel have been active, part of this being due to the building demand, and the leading interest is said to be negotiating for some foreign structural material for import. High premiums for prompt delivery of structural material, plates and bars are being paid. Foundry iron has eased in most markets. Anthracite coal is very active as the result of the 50-cent reduction in price, and the collieries have a month's output sold ahead. Soft coal is rather easy, despite the fact that production in the west is smaller. The opening of lake navigation is expected to improve the movement of coal to the northwest.

When in training he drank nothing but a marvelously strength-ening liquid food "of amber color made from the fermented juice of barley." If he lived and trained GUND'S Peerless would gladden his heart because it is so exceedingly invigorating, wholesome and delicious. It not only quenches the thirst but is a perfect

Dliquid food that builds up muscle, bone and brawn. Every bottle is

fully aged and ripened in a brewery with the largest storage capacity in the world, in proportion to its sales. Its name implies "a beer without a peer" which exactly describes it. TRY IT AND SEE.

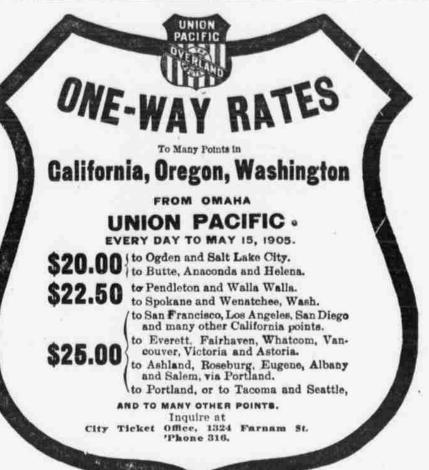

The John Gund Brewing Company, La Crosse, Wis. W. C. HEYDEN, MANAGER, OMAHA BRANCH, 205 South 13th Street, Omaha. Neb.

In selecting a whiskey three qualifications should be consideredthe age, the purity and the flavor.

Underoof Rye

Possesses these qualifications in a greater degree than any other whiskey
