

THE OMAHA SUNDAY BEE

E. ROSEWATER, EDITOR. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily Bee (without Sunday), one year, \$4.00...

ANARCHY MUST BE OVERTHROWN.

It will soon be up to the supreme court to determine the constitutionality of the biennial election bill, recently passed by the legislature and signed by the governor.

SECULAR SHOTS AT THE PULPIT.

Chicago Record-Herald: A Buffalo bishop advises young preachers to beware of women. Can it be possible that he doesn't consider the old preachers worth saving?

INTERESTS IN THE PACIFIC.

This country cannot afford to yield any of its power or influence in the Pacific. The position now universally accorded to it must be maintained and it is not to be doubted that it will be.

DOMESTIC PLEASANTRIES.

"I thought he said he'd never speak to you again." "So he did, but he saw I had a cold and he couldn't resist the temptation to tell me of a cure for it."—Philadelphia Ledger.

STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, ss: George B. Tschuck, secretary of The Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of the Daily, Morning, Evening and Sunday Bee printed during the month of March, 1905, was as follows:

The burning issue that confronts the people of Nebraska is whether their lawmakers and executive and judicial officers, who have taken an oath to support the constitution, are to be bound by that oath and that constitution, or whether they may set either or both aside at pleasure.

While the British Parliament is wrestling again with the deceased wife's sister bill, the fact has been generally overlooked that the late Nebraska legislature enacted a law, without making any noise about it, prohibiting the marriage of first cousins in this state.

Our State university debaters have settled it that the second section of the fourteenth amendment, relating to the curtailment of congressional representation as a penalty upon any state that abridges the suffrage on account of "race, color or previous condition," should be repealed.

"You refuse me?" "I do." "Why, yes—don't you hope?" "And why do you allow me that?" "Because this is a free country."—Philadelphia Press.

At last accounts Secretary Taft's perch on the lid was still holding it down. There is one thing about the snow in Colorado—the bears will have a hard time covering their tracks.

Back in 1884 the state supreme court, in the case of State against Hedlund, which involved the extension of the terms of county judges, declared that "the legislature possesses no power to change the year in which such elections are to be held, nor to shorten the term of office."

What Japanese Progress Means. If the Japanese advance means anything, it means that Asia is for the Asiatics and that the peoples of the civilized nations will have to do their robbing at home in future.

When things have gone against you and you've felt a trifle wild. Have you hidden from your fellows your discomfiture and smiles? Not a real, honest smile, of course, but just a pleasant look—

"Does your wife ever bother you about Easter bonnets?" "No, she doesn't," answered Mr. Meekton. "When she wants one she simply gets it and has the bill sent in."—Washington Star.

The thick-headed grizzly that prefers to fall into some commonplace bear trap to being shot by a president deserves to come to a humiliating end.

Those who seek to uphold the biennial election law depend mainly upon the case of Wilson against Clarke, 43 Kansas 565. It should be borne in mind, however, that the Kansas constitution, unlike ours, contains no provision for the commencement of the terms of judicial officers.

It is announced that all British torpedo boats will be kept in readiness for war from this time on. The mistress of the seas must feel that it will soon be necessary to "preserve the peace" of the world.

With the notorious subservience of the late legislature to corporate influences, it does not stand to reason that such a measure would have been enacted by so large a majority had it not been approved by the political managers of the corporations.

The Texas legislative committee is evidently of the opinion that its failure to secure evidence against the "Beef trust" is due not so much to lack of evidence as the ability of the trust to "cut and cover."

It is rather remarkable that with all the facilities for obtaining news from every part of the world, and with the extraordinary vigilance and enterprise of newspaper correspondents, there should be so little information of an authentic character in regard to the whereabouts of the hostile fleets that are moving about somewhere in Asiatic waters.

The suggestion is now made in New York that the elevated railroads be all put underground. This is not a new idea. The rapid transit problem in Boston was solved some years ago by burying the elevated where it passes through the business district.

The construction of the "Cape to Cairo" railroad is giving African correspondents an opportunity to fill the place made vacant by the development of western America. How it must satisfy the soul of Henry M. Stanley to think that he did his part toward making it possible for space writers to emulate his Omaha feats.
