# The Wonderful Efficiency of Pe-ru-na Teasponful Doses Cures the Most Stubborn Cases of Catarrh Sixty Drops Before Each Meal

R. HARTMAN has always insisted upon it that the best way to take Peruna is in teaspoonful doses. In most cases of chronic disease, a teaspoonful of Peruna before each meal and at bed time is amply sufficient to insure a cure. This is has stood the test of time, for these ailments. especially true of all woman and people who have been much weakened by disease.

## Excessive Doses of Pe-ru-na.

WHILE excessive doses of Peruna are not likely to do any especial harm in the system, yet to take Peruna in larger doses than prescribed, entirely misses the benefit which Peruna is intended to produce.

The small doses, oft repeated, secure the best results from taking Peruna.

Owing to the purity of the composition of Peruna and its perfect freedom from narcotics or any harmful drugs, a large interest becomes more intenso and the dose of Peruna will do no especial injury, but it is equally true that no one will receive lasting benefit from its use in this way.

### The Marvelous Success of Pe-ru-na.
