

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

Ask Mrs. Pinkham's Advice—A Woman Best Understands A Woman's Ills.

TELLS OF TURKISH AFFAIR

"Red Book" Account of Instructions to Minister Leishman at Constantinople.

DELAY OF SULTAN CAUSED TROUBLE

Visit of Turkish Ruler to Harem Was What American Diplomat Refused to Accept as Excuse.

WASHINGTON, April 21.—Some of the difficulties encountered by the American minister at Constantinople in his efforts to gain an audience with the sultan last year to obtain settlement of American claims are set forth in the following official paraphrase, made public at the State department, of a cablegram received at the time from Minister Leishman:

"Mr. Leishman reports that in the absence of any further communication from the palace about the audience he attended Selamank this morning, and that the grand master of ceremonies informed him that on account of important visits in the harem his majesty could not receive him today. In view of the fact that the audience was demanded in the name of the president, and that he has been twice put off, it seems to him that the sultan beneath the dignity of the government of the United States to have him go again to the palace to seek an audience, unless positive assurance be given in advance that he will be received by the sultan. Requests for further instructions were made. Exasperated by the dilatoriness of the porte, Secretary Hay informed Mr. Leishman that the American fleet will arrive at Smyrna in a few days and instructs him to use his best endeavors to obtain a satisfactory answer from the Turkish government before its arrival, and if that government should continue to refuse or to neglect to grant the moderate and reasonable request of this government, to take an indefinite leave and depart from Turkey in one of the United States naval vessels, leaving the legation in charge of the secretary of legation."

Correspondence made public at the State department today shows that when Count Cassini, the Russian ambassador at Washington, some time ago transmitted the request of Captain Berlinky of the Lena, that he be allowed to celebrate the name day of his sovereign by hoisting the Russian flag, dressing his ship and firing the imperial salute, Secretary Hay was unable to grant permission to fire the salute, as the Lena was disarmed. The secretary readily approved the remainder of the program.

WESTERN MATTERS AT CAPITAL

Complete Rural Free Delivery Ordered for Winnebago County, Iowa.

(From a Staff Correspondent.)

WASHINGTON, April 21.—(Special Telegram.)—Rural free delivery route No. 3 has been ordered established May 15, at Palmyra, Otoe county, Neb., serving 356 people and seventy-one houses.

Complete county rural free delivery service has been ordered established May 1 in Winnebago county, Ia., making the total number of routes in the county, nineteen.

INDIAN SUPERINTENDENT FIRED

Official Who Hired Too Many Clerks Summarily Dismissed.

WASHINGTON, April 21.—Fred H. Wilson, acting superintendent, and seven clerks, were summarily dismissed from office by Secretary Hitchcock as the result of revelations made by an inspection of the office by Indian Inspector Nesler, who preferred charges of irregularities in the conduct of the office, including Wilson's accounts, in order to protect a number of employees who were not performing any service for the government. This Wilson was able to do from the fact that he was also disbursing agent for the warehouse.

There were fourteen persons on the payroll, while Inspector Nesler asserted that four or five were all that were necessary, of those on the roll it is asserted that several were rendering no service whatever. One of them was a barkeeper, who, it is charged, seldom visited the office. Wilson is said to have taken a somewhat prominent part in local politics in New York and claimed to have been connected with the republican national committee. He is said to have spent much of his time at Albany. Wilson's office pay is \$1,600 per annum and has been held by him since the removal of Superintendent Robinson some years ago. The clerks dismissed were among those whose services Inspector Nesler thought could be dispensed with without injury to the office. Wilson was given an opportunity to make reply to the charges but the secretary refused to accept an explanation insufficient to justify his retention. Special Indian Inspector McNichols has been placed temporarily in charge of the office.

DISCUSS JAPANESE IN HAWAII

McGuire Says Islands Are Stepping Stone to United States.

WASHINGTON, April 21.—John McGuire, a representative of the Trade and Labor council of Honolulu, Hawaii, was in conference today with Secretary Morrison of the American Federation of Labor, relative to the immigration of Japanese coolies to the Hawaiian islands. He told Mr. Morrison that the Japanese are coming in large numbers and that as a result of remaining a short time they continue their journey to the United States. The plan they pursue, according to Mr. McGuire's statement, is to have as many come to this country from Hawaii as land direct from Japan. By this means they keep now the number in the islands and also find opportunity to learn the English language and to get a little money ahead before reaching our shores. "They are making a stepping stone of Hawaii," said Mr. McGuire. They are unable to secure permits from their emperor to come direct to the United States, but they are getting here just the same. In Hawaii they are in all kinds of business except sugar planting and running others out."

Mr. Morrison assured his caller that the Federation is taking steps to check the immigration of the Japanese. He says that resolutions are being put through most of the labor unions and that other means which may promise to prove effective will be resorted to. It is intended to bring the matter before congress very earnestly at the next session.

GREAT DAMAGE IN WYOMING

Miles of Telegraph Wires Down and Work of Repair is Delayed.

CHEYENNE, Wyo., April 21.—The damage done by the storm of Wednesday night was enormous. For miles the telegraph wires are snapped off between every pole, and the time required to make repairs cannot be foretold, as the weather is still threatening. Hundreds of poles have been broken off short. The storm was especially severe in Southern Wyoming and Western Nebraska.

OUR LETTER BOX.

Some Plain Questions.

OMAHA, April 21.—To the Editor of The Bee: What actual benefit can accrue from a minister of the gospel taking a stroll through the burnt district of a city? Does such a visit result in the betterment of the poor creatures who are the objects of uncharity; or does it add to the dignity of one who is supposed to be an example of all youth? Must one, in order to warn others of the sinfulness of this vice, court a certain familiarity with it? If this is the case why will not the rule hold good throughout? Why should not a leader advise young men to go through this district in order to know its wickedness and thereby avoid it? We would not desire such a leadership for the young, but rather we would hold to the words of one of our old, "Let not thy feet incline to her paths. . . . Pass not nigh her house."

A Christian should go to this part of the city only when he answers some call of an unfortunate one, or he should, like the Salvation lassie, go under the proclaimed banner of Christ and in that case, there will be no danger whatever of his being accosted by even the lowest inmate.

There seems to be a fascination for some

preachers who come from rural parishes that draw them to this part of the city, not in their clerical capacity, but rather on a tour of inspection. In one instance the party thought to partly disguise himself by indulging in smoking, which would not be expected of a minister of the gospel, but in no case has actual good resulted from these tours of investigation.

The ministers who have accomplished real good by diverging into this particular field have gone, not in the garb of private citizens, but under police protection and with unmistakable evidence of their calling.

Christ ate with publicans and sinners, but when the woman taken in adultery was brought before Him, He cast down His eyes and wrote in the sand, withholding the glance that must rest upon her shame. Curiosity would have scanned her through and through. Curiosity is a trait wholly at variance with Christianity, and no man having gone through the burnt district merely to see it, is in a position to cast a star upon another man whom he may have seen while upon such a trip; while only a great familiarity with the district would enable him to designate a certain class of business men as habitués of such places. The Rev. Mr. Dutcher should elaborate upon his letter of explanation. A CHURCH MEMBER.

P. S.: Name not given for publication, since my position does not leave me free in the matter.

Of Interest to Omaha Jobbers.

BILLINGS, Mont., April 15.—To the Editor of The Bee: A condition in this section that should interest the wholesale and manufacturing interests of Omaha is the visit here of the Chicago Commercial club, of whom a large delegation passed through yesterday, making a stop here of twenty-four hours, during which they canvassed the city and its resources, and in the evening were entertained at a banquet. There is a deep plan underlying their tour, particularly as regards Montana, and it is by no means a junket. To make the story brief, it is understood here that the Chicago men are particularly interested in getting into this field early, so that when the big rush takes place they will be firmly entrenched and get a grip on the future business. The tenor of the speeches and private conversations indicated that it is their intention to maintain warehouses and sales agents here, using this as a distributing point. Several packing houses are already following this policy and they have demonstrated that it is profitable. Other lines of trade are expected to follow suit. The whole proposition, of course, upon the cheapening of freight rates by shipping here in carload lots. I write to you because Omaha is the logical jobbing point for the Burlington territory and this place is the terminal of the Burlington and has five railroad outlets, making it a natural distributing point for this section.

The recent completion of the big irrigation canal here will bring thousands of settlers here this summer and the opening of the Crow reservation will bring thou-

sands more. The town is growing at a rapid pace and is destined to become a big place for this country. I write to you because I know that The Bee can wake up the commercial organizations of Omaha to the situation and because I am interested in seeing Omaha get there in this territory. In case you will do so, put my name on your correspondents' list. Hoping that the suggestion may result in a visit by the Omaha Commercial club, I remain,

A. BUCHANAN.

Grocers' Right to Sell Drugs.

OMAHA, April 21.—To the Editor of The Bee: I note in today's paper that a number of grocers were arrested in South Omaha for selling domestic drugs, such as castor oil, patent medicines, etc. They made a mistake in pleading guilty, for the reason that they have a double right to handle the same.

First, there is no special skill required in the sale of these articles, domestic drugs, nonpoisons, patent medicines, etc., and in the state of Illinois where they have the most stringent pharmacy laws in the United States and a fund to draw for prosecutions, the supreme court in a case that was carried up, decided that they could go ahead and handle the same, as no special skill was required to sell the same, and any attorney in Omaha who has court records will cite this decision to a grocer who may call on him, the time and some of them all the time. If they get me on the "carpet" I will soon show them where they have been swallowing a camel and straining at a gnat.

A NORTH SIDE GROCER.

Memphis Women Kill Herself.

MEMPHIS, Tenn., April 21.—Miss Rose Hammill, aged 26 of Chicago, committed suicide by shooting herself in the home of her brother, James E. Hammill.

NEW BOARD REACTIONARY

Son of Von Plehve on Commission to Consider Peasants' Condition.

MANY CHANGES IN OFFICIALS REMOVED

One Report Indicates that Program of Progressives of Moscow May Be Accepted by the Government.

ST. PETERSBURG, April 21.—The personnel of the Goremyn commission appointed to discuss questions relating to peasant tenure of lands was announced today. It includes M. Stuchinsky, formerly chief adjutant of the Russian interior department, M. Von Plehve, son of the late interior minister, and other adherents of the former minister giving it a decided reactionary tone.

The position of M. Witte, president of the committee of ministers, grows more and more untenable. Interior Minister Boulgan has proposed to the council of empire that the question of higher education confided to the committee of ministers be transferred to a special commission and the Slovo again publishes a report that Witte will retire immediately, intimating that his successor will be Count Solsky, president of the economic department of the committee of ministers.

An interesting report is current that

M. Shipoff president of the Moscow zemstvo, will succeed M. Boulgan. Should this be true it might indicate that the government is prepared to accept the program proposed by the national progressive party at Moscow, of which Shipoff is the head.

Beatrice Wins Debate.

BEATRICE, Neb., April 21.—(Special Telegram.)—The high school intercollegiate debate between Lincoln and Beatrice was held here tonight. The judges rendered a unanimous decision in favor of Beatrice. The question was, "Resolved, That the action of congress abolishing the army cantons was unwise." Beatrice had the affirmative. The debaters were James Lawrence, Lawrence Weaver, Stanley Rinaker for Beatrice; Charles Bennett, Alton Meier and Benjamin Kess for Lincoln. The judges were H. E. Sackett, F. D. Killen, Beatrice, and Prof. H. W. Caldwell of the State university.

Flock of Sheep Smothered.

SCHUYLER, Neb., April 21.—(Special Telegram.)—During the storm here yesterday Adolph Dvorak lost all his sheep by smothering and chilling to death. These sheep had just been shorn, and the cold, driving rain caused them to pile up so as to smother those on the inside.

Holds Court on Holiday.

MANKOTA, Minn., April 21.—Notwithstanding this was a legal holiday in Minnesota Judge Gray proceeded with the trial of the Koch murder case, holding the trial was a work of necessity. The fifth juror was secured today.
