TIP O'NEIL ON WAY TO COLORADO

President of Western League Goes to See Opening of the Senson.

See Opening of the Season.

"Tip" O'Neil, president of the Western league of base ball clubs, came to town last evening and left this morning for Colorado Springs, where tomorrow afternoon he will witness the opening of the schedule season in which game the Omaha and Colorado Springs teams will line up. With President O'Neil was Umpire Burns, who will officiate at the opening game at Sloux City tomorrow. Umpire Mace will regulate things at Colorado Springs Wednesday, while Umpire Carruthers will be high man at the opening series at Denver. ver, Mr. O'Neil came direct from Chicago

Mr. O'Neil came direct from Chicago here, and while he is averse to commiting himself at this stage of the game, he believes the season will be a good one for the Western league.

"Judging by the enthusiasm already manifested at Chicago and in the east in general at the games already played, and taking as a further criterion the general prosperity of the Western league territory, it is but fair to predict that good things are in store for our league, but, as I have already said, I am not in the horoscope business and I believe in just sawing wood right along and counting the sticks at sundown," said President O'Neil. "There must have been at least 100,000 people at buse ball games in Chicago on Sunday, At one of the big league parks there were between 15,000 and 2,000 and at the other 20,000, and from 3,000 to 5,000 at a number of the smaller club grounds.

"I see that Mike Cantillon over at Des Moines has received a petition from over 400 women asking that they be allowed to the grand stand at the regular bleacher rate of admission."

"That is something new in base ball, is it not?" was asked of Mr. O'Neil.
"Can a frog swim?" queried the genial base ball executive in response to the hase ball executive in response to the first question.

"Do you think Cantillen can withstand such an attack as the one you mentioned?" was the next query put into the question box.

"Well, I believe Mike will talk it over with his wife, anyway," responded Mr. O'Neil.

IMPROVEMENT LEAGUE COMMITTEE'S WORK

Grading of Lots Under Way, the Place to Be Opened Within a Month.

The scheme for a public playground that as been the dream of Omaha's philanthropically inclined for years is at last beginning to take tangible form. Present indications are that by the close of the spring school term there will be in operation such an institution, well equipped and open for the use of such children as are or other circumstance the implements of play and entertainment that are the natural desire and legitimate rights of all normal children, and these under wholepromised through the efforts of the playground committee of the Civic Improvement league, under the chairmanship of Twentieth and Harney streets has been secured and negotiations are pending for the use of the corner directly east, which

## MEN! STOP,

Many a bright and promising career has been blighted by injurious habits of folly before the age of knowledge and understanding and many have been cut short by the unfortunate contracting of some poisonous special disease which, through neglect or improper treatment has completely undermined and shattered the physical strength and mental facuities. No greater mistake can be made than to consider lightly the first evidence of the introduction of any private disease into your system or to neglect the first symptoms of weakened mind and approach of nervous debility, caused by improper or unnatural habits, excesses, dissipation, etc.

Such indifference and neglect of the first symptoms is responsible for thousands of human wrecks, fallures in life and business, domestic discord, and unhappy married life, divorce, insanity, suicide, etc. Men! Why take such desperate chances? The manifestations of the first symptoms of any disease of weakness should be a warning for you to take prompt steps to safeguard your future life and happiness, You should carefully avoid all uncertain, experimental, dangerous or half-way treatment, for upon the first treatment depends whether you will be promptly restored to health again, with all taint of the polsonous disease removed from your system, or

chether you will be promptly restored to ealth again, with all taint of the poisonous disease removed from your system, or whether your disease will be allowed to beonic and subject you to future re of the disease, with the various

resulting complications, etc.

If we could but see and treat all men when the first symptoms show themselves there would soon he little need for so-called specialists in chronic diseases, and there would be few men seeking a rejuvenating of their physical, mental and sexual powers, and there would be none marked with the indelible stamp of constitutional Syphilis; and the sufferers from

Varicocele, Gleet, Stricture, Kidney and Bladder diseases would be reduced to a minimum. But as long as MEN continue to disregard the golden adage. "A stitch in time saves nine," and continue to neglect themselves or to exercise indifference in securing the right treatment at the outset, just so long will there be multitudes of chronic sufferers.

MINISTERS DEFEND DUTCHER Resolution Adopted at Session of the Omaha Ministerial Union Without Dissent.

The Omaha Ministerial union, at a special session yesterday morning, adopted the following resolutions without dissent: lowing facts:
1. On April 17 Rev. S. D. Dutcher, in a discussion at the Ministerial union, made certain remarks concerning the social evil

in this city.

2. The Omaha Bee that afternoon reported him as having reflected upon the character of commercial travelers as a blass. This report was entirely erroneous.

others attacking Mr. Dutcher in a most violent and shameless way. In view of these facts, the Omaha Ministerial union deems it proper to say that by the unanimous testimony of all who were present at the meeting Dr. Dutcher made no reference whatever, direct or indirect, to commercial travelers. The utterance upon which the erroneous report seems to have been based was to the effect the houses of ill fame in this city are known to have persons engaged in soliciting business for them. We suggest the importance of verifying the accuracy of a reported utterance before subjecting its reguted author to attack. others attacking Mr. Dutcher in a most
