**Blindling Train Prices.**  
OMAHA, April 26.—To the Editor of The Bee: Herewith find clipping on state binder twins institutions, taken from the Farm Implement News of Chicago, which I believe would interest your readers. The governor never did a better thing than when he vetoed that bill. J. W.

**HORRIBLE! HORRIBLE!**  
North Dakota is not in the prison twin trust, but don't congratulate the farmers of the state upon this fact.

For sad to relate, North Dakota's price for prison twins is 1 1/2 cents more than the trust's price.

And the trust demands 1/4 cent more than is required to build a big gain for the trust plants.

At least the Kansas warden says so.

Now if you are disposed to do a little sum in fractions you will find that North Dakota has the nerve to charge its farmers 1 1/2 cents more than it is justified in asking, according to the aforesaid warden. Think what that will mean to the farmers of North Dakota.

The plant will produce millions of pounds!

Two million, anyhow.

Don't you see that if the Kansas warden and our arithmetic are right the tribute "suggested" will be \$3,000?

Whether are we drifting?

**LAND FOR RIVERVIEW PARK**

Commissioners May Buy Tract Now in Hands of J. H. Dumont.

**HOW TO MAKE HANSCOM PARK POPULAR**

Caterer Baldwin Suggests Music, and the Matter Rests After Some Debate as to Summer Refreshments.

A proposition to purchase a tract of land of something like forty acres between Riverview park and the river was considered by the park board at the regular monthly meeting yesterday. J. H. Dumont, who owns the property, submitted a price of \$90 a lot, which would be about \$20 an acre, and \$5 for lots under water, to secure the riparian rights. It was estimated that the purchase price would be from \$10,000 to \$15,000, according to Mr. Dumont's figures, it not being definitely known how much land there is in the tract. Commissioners Cornish and Lininger spoke in favor of the extension, saying that it is the only possible way to give the park a frontage on the river and thus prevent factories and nuisances from being set on the space. The Burlington tracks run between the park and the section which is under consideration. The matter was placed in the hands of the committee on the designation of property to consult with south-side residents and the South Omaha Park board. Commissioner Lininger criticizes a scheme of connecting Riverview with South Omaha, with Riverview by water, and he wants to see if this can't be arranged somehow.

**Hanscom Park's Popularity.**

The commissioners discussed ways and means to popularize Hanscom park during the summer, but reached no conclusions. Commissioner Gordon favored dancing in the pavilion, but this was frowned upon by other members. W. S. Baldwin, who has had the refreshment concessions for several years, said the only unobjectionable attraction he knew of is good music, adding that good music is very expensive. Mr. Baldwin said he had half of \$30 to turn over to the board as half of the net profits of last year's business. The street railway company refused to contribute to the cost of music in the park and he had no proposition to make regarding the privileges, although he announced he would like to continue to see what he could sell. Commissioner Gordon said another man was willing to make an offer and it was decided to advertise for bids.

**West Siders Want Help.**

A committee of west side citizens, headed by County Attorney Slabaugh, E. A. Benson, and J. W. Robbins, are working to get the macadamizing of Dodge street, from Forty-first west to Dundee, which they have long said needs the improvement very much. They were told that money appropriated by the county to pay for the work is available and that just as soon as the street railway company is ready to either shove its tracks to one side or to agree to pave between the rails, the board would proceed to have a sixteen-foot strip of macadam laid and compressed by its young, proud road roller.

Messrs. Benson and Robbins reported that they had worn out several pairs of shoes trying to get the street railway people to do something with a wholly minus result. President Lininger finally appointed a joint committee composed of Commissioners Craig, Gordon, McWhorter, Robbins and Benson, to talk business to the street railway company on the strength of a very firm resolution worded by Commissioner Cornish, and to invite consultation on May 8, when a special meeting of the board will be held.

**Wet Park at Cut Off.**

Joe Redman appeared and made a few passes concerning the necessity of a "wet park" around the western shores of Cut Off lake. Mr. Redman declared that "dry parks" are no longer liked by the people. He found several commissioners agreeing with him and Mr. Cornish proposed the filling in of the south end of the lake near Locust street, dirt dredged from the lake further north and the creation of a park on the western shore, taking in just enough of the bluff tract to permit a viewpoint. Commissioner Craig said the engineering department is working on such a plan now. As it was connected with the route of the park boulevard he could not report on the latter just yet.

At the request of W. L. Gilmore and S. Aron Lewis, a barbed wire fence around part of Elmwood park was ordered taken down and a "humane" fence substituted. It was decided to allow lodges and fraternal orders holding picnics at Riverview park to dance in the pavilion, provided good order was maintained.

**Salvation Army Concert.**

A grand musical and literary entertainment will be given at the Salvation Army hall, corner Seventeenth and Davenport streets, tonight at 8 o'clock, under the

**TWENTY-FIVE YEARS OF WORK**

Sisters of St. Francis Celebrate Silver Jubilee with Due Ceremony.

**HOSPITAL A MONUMENT TO THE ORDER**

St. Joseph's Quarter of a Century of Growth and Success Commemorated by Special Mass at the Chapel.

Twenty-five years ago today four sisters of the Franciscan order came to Omaha and took charge of St. Joseph's hospital, then located at Twelfth and Mason streets. In commemoration of the silver jubilee and growth of the institution solemn high mass was celebrated yesterday in the chapel of the hospital. The service was a beautiful one and well attended. Special music was rendered by a select choir under the direction of John A. Schenck.

Rev. Theobald Kalamaja of Columbus, Neb., preached the sermon.

Father Kalamaja gave a brief review of the history of St. Joseph's hospital.

The priests in charge of the jubilee service were: Rt. Rev. Richard Scamnell, presiding officer; Rev. Adolph Roeker of the Franciscan Order of Monks, celebrant; Rev. James Ahern of South Omaha, deacon; Rev. John Frank Vranek, subdeacon; Rev. P. A. McGovern, master of ceremonies; Rev. J. T. Smith, assistant priest; Very Rev. Joseph Ruesha of West Point and Rev. N. Bronsegeest, deacons of honor, and Rev. Theobald Kalamaja, speaker.

Pacini's mass was sung by the choir. During the mass Gustav Lehman sang "Et Inscarnatus Est," and in the offertory she sang "O Salutaris." Mrs. Bethge sang "Agnus Dei." The other soloists were N. A. Kent and H. V. Burley.

Count J. A. Creighton attended the service.

**SOUTHWEST IMPROVERS WORK**

Twenty-fourth Street Paving Goes On Appear and Other Things Are Adjusted.

The progress of the movement for the paving of Twenty-fourth street, from Leavenworth to Vinton, was the principal object of discussion at the meeting last night of the Southwest Improvement club. Lively discussion of the difficulties to be met and suggestions for overcoming them marked the session.

Chairman Schamel of the committee on petitions reported that signatures had been obtained which represented 1,300 feet of property abutting the street to be paved. A number of citizens had promised their signatures, and he would get them in the next few days. He thought there were only a few men who would hold out long against the proposed improvements. Two citizens were reported as having made the statement that they would not sign without perfect assurance that the street would have a car line. Members of the committee will endeavor to make their minds easy on this subject.

Referring to the need of water hydrants in the district, Councilman Dyball said it had come to a question of going into the courts if the water company is to be compelled to extend the mains. The company will not make these extensions, as it does not see where the money for them is coming from. In the same connection a committee composed of Messrs. Haller, Green and Dyball, was appointed to investigate current water rates in other cities and make a report to the club. The idea for this is that the club ought to put itself on record as favoring a reduction if it can prove existing rates too high.

Mr. Dyball reported that he had fixed the location of a number of the new arc lights allotted to the district. The chair appointed Messrs. Peterson, Palmer and Bennis to make recommendations for the location of the remainder.

Complaint was made that the street commissioner has not cleaned up certain streets as he had promised to do. Mr. Dyball was requested to see if he could influence that official.

**NO PROFESSIONALS NEED APPLY**

Charities Endorsement Committee Takes Firm Stand on Employment of Solicitors.

The Charities Indorsement committee held a short business session yesterday with Members Burket, Hesse, Slabaugh, Lewis and Sunderland and Secretary Morris in attendance.

A decided stand was taken by the committee against the employment of professional solicitors by charitable institutions. There was before the committee an application for the indorsement of an institution which employs two professional solicitors from Chicago, paying them a commission of 20 per cent on their collections. Indorsement was refused and

**Attractive Oxfords**

for Men and Women.

Goodyear welt oxfords, blutcher and lace style

**\$2.50**

**Nebraska Clothing Co**

FARNAM & 15TH

a motion was passed not to allow indorsement to any charity employing professionals with a commission of more than 15 per cent.

Indorsement was given to the Volunteers of America and the Associated Charities.

**DENVER PAVES WITH STONE**

Tears Up Asphalt to Put Down Belgian Block Because of Wear.

Thomas A. Fry got a few ideas about paving during his visit to Denver. He is telling his friends and any other persons who should ask him, that while in the Colorado capital he saw asphalt pavement as good or better than any asphalt on the downtown streets except the new sixteenth surface, ripped up to make way for Belgian block paving.

"On Eighteenth street," says Mr. Fry, "they tore up this asphalt that was not nearly as worn out as much of ours to replace it with stone. They say it costs so much to keep it up and it is so unsatisfactory that they find it cheaper to get rid of it at once than to keep it in condition. Eighteenth is the street along which most of the heavy trucking is done. They don't believe in asphalt for the business streets, and I think we make a mistake in putting it down here. A well laid stone pavement is much better and it does not wear out."

Mr. Fry found the Denver people were laying disintegrated granite on the less important residence streets and making a splendid macadam. They get the rock by blasting and as it comes in rough chunks, it forms a very lasting surface when rolled down into the sort of ground on which Denver is built. Mr. Fry is of the opinion such paving would be of no use in Omaha with its rich and bottomless loam.

The city is preparing for a revolution in the lighting system, according to Mr. Fry. Henry Rustin is there and the city is to be re-lighted with incandescents, doing away with the arc light. He found the papers full of the subject of Denver's prospect for future brilliancy.

**Bible Class' Monthly Meeting.**

Prof. E. B. Cook's adult Bible class held its regular monthly meeting at the residence of H. L. Helrick, 2315 Capitol avenue, last Tuesday evening. After a business session, during which \$25 was voted to be raised for furnishing the class room in the new church, a musical program was enjoyed; Miss Tebbins, pianist; Miss Alice Carry and Miss Madeline Schwager sang several beautiful solos.

Miss Tebbins and Mr. Weisel sang a duet, Mr. Stevenson accompanying. President Arthur Tebbins has invented an indoor base ball game which was played. The Atlantics won the game over the Pacific, score, 4 to 14. Ice cream and cake were furnished in abundance.

**ROBERT LEE DUNN'S LECTURE**

Famous War Photographer Before the Omaha Press Club Members.

Robert Lee Dunn, the well known photographer and war correspondent, who was "first in Korea," having succeeded in getting a front seat at the opening of the hostilities in the present Russo-Japanese war, from which he was eventually ousted by the mikado's army, lectured last night to the Omaha Press club members at the club rooms. He told of his experiences at the front, and recounted many interesting anecdotes of his life in Korea. His lecture was illustrated from lantern slides made by himself, showing many of the best photographs he made of scenes of actual warfare. Mr. Dunn is a decidedly interesting speaker, and his talk was not only entertaining, but contained much of practical information. It was listened to by practically the entire membership of the club. This evening Mr. Dunn will lecture before the members of the Commercial club at the rooms in the Board of Trade building.

**TWELVE YEARS TO VON HALLER**

Judge Day Inclines to Mercy on the Recommendation of Jury that Convicted.

George Von Haller, was sentenced by Judge Day to serve twelve years in the penitentiary as punishment for killing Station Agent Rees of the Belt Line in the summer of 1904. The jury found Von Haller guilty of murder in the second degree and recommended the minimum sentence, or ten years. Later jurymen said they were not aware that good conduct would shorten the term three years and they desired ten years incarceration. As Von Haller has been in jail a year the twelve year sentence will give him about nine more years behind prison bars. The sentence was pronounced after Judge Day had overruled a motion for a new trial. The case may be taken to the supreme court.

**"You see, it's just this way: About every so often he gets cross and sulky, and you can't please him with anything. I stand it as long as I can; then I say, 'Ezekiel, sit right down, take two of these Ayer's Pills, and go to bed.' You just ought to see him the next day, he is so changed, so resigned and submissive like. He will go around, hours at a time, and not say a word. Maybe 'twill be a whole month before he will have another spell. I tell you, Ayer's Pills are doing more for the relief of suffering wives than all the Carnegies and Rockefellers put together."**

J. C. AYER CO., Lowell, Mass.
