Twelve Large Firms Affected. The declaration made last night by the

members of the Employers' association that they would promptly discharge any teamsters who refused to deliver goods, or call for them, at the establishment of Montgomery Ward & Co., brought out the teamsters in many downtown mercantile houses during the day, and the number, it is said, will be increased largely by tomorrow morning. Strikes have been de clared tonight against twelve leading firms and 1,330 teamsters have gone out. In addition to these firms, the teamsters employed by a number of smaller firms were called out late in the evening. The business agents of the Teamsters' union declared tonight that by tomorrow they will call on ple to a large extent the entire transportation business in Chicago. The strike this morning was opened promptly at the wholesale and retail stores of Marshal Field & Co., and Carson, Pirie, Scott & Co., when drivers who refused to deliver goods to Montgomery Ward & Co., were at once discharged. All of the union George Crocker and Edwin Hawley, who men quit and both firms were badly crippled during the day, and retail out-of-town | Southern Railway company, are said to be deliveries were not attempted by either.

cession visits were made to the barns of other express companies and all of their union men quit at once.

Throughout the day officials of the Teamsters' union were active in scattering warnings where they had no ground, according to their rules, for the calling of a strike One of the first places where they called was the office of the Parmelee company. This company has a contract with all the railroads entering Chicago for the transportation of all baggage between depots and downtown hotels and employs many drivers. They were warned that if they made any deliveries to or from any of the boycotted stores their men would be called on to strike at once. Similar warnings were given to baggage and parcel delivery firms and to coal dealers. It is the intention of the Teamsters union to shut off as far as possible all supplies of coal from the establishments where strikes have been

Detectives Guard Wagons,

In order to protect their wagons and drivers from assault while passing through the streets the Employers' association has secured the services of a large number of guards and these men have shown a decided disposition to retaliate vigorously when any attack is made upon them by strike sympathizers. This afternoon a wagon containing twenty-two colored nonunion teamsters was passing the corner of Des Plaines and Harrison streets when it was attacked by a crowd of strike sympathizers who ran out of a saloon. Several bricks were thrown and one of the negroes was struck, where upon he drew a revolver and fired into the crowd, hitting nobody. The mob broke and

Kozloff's appointment as governor general of Moscow upon the eve of the anticipated troubles at Easter and on May day, although accompanied by a rescript in which Emperor Nicholas speaks of the 'great interior reforms' contemplated by im, leaves no doubt of his purpose first to restore tranquility with a firm hand. Kozloff distinguished himself during the nihilist conspiracies twenty-five years ago by hunting down conspirators which resulted in an attempt upon his life. The public generally interprets his summons from retirement at the age of 68 as being an andication that CHICAGO, April 27.—With 3,100 teamsters the harsh measures of repression then on strike tonight, with constant accessanctioned are to be revived. TSINGTAU SAYS SQUADRONS HAVE MET Report that Nebogatoff and Rojestvensky Have Joined Forces is

Not Believed at the

Russian Capital,

TOKIO, April 27,-4 p. m .- The movements of the squadron commanded by Rear Admiral Rejestvensky and the intentions of the Russian commander continue to be the subject of general interest and speculation. The last Japanese reports are conflicting and confusing. They do not indicate definitely the purposes of Rojestvensky, but it miral to await a junction with the division ommanded by Admiral Nebogatoff, which increases the probability of his intention to give Admiral Togo a decisive battle. It is besumed that Rojestvensky will bring all the ships and guns possible into action if he intends to fight decisively, or that he will detach and abandon his slow, cumbersome and useless ships if he intends to run the gauntlet to Vladivostok. It is believed

NEW YORK, April 27,-George J. Gould that the location and date of the engagement will depend entirely on Rojestvensky, The Japanese defensive plans are concealed with absolute secrecy. The proclamations issued are viewed calmly by the confident of success owing to the superiority in number and strength of the armored Mr. Gould said: "I have put in my resig- cruisers of Japan, which it is believed will counterbalance the Russian superjority in

The prespective junction of the Fifth Rusa competing line. I do not think that sian division with the other divisions of the which Japan is placed owing to the shortage of battleships, apparently cause no apprehension here. The Japanese rely on their superiority in mobility, personnel and morale and on the condition of their warships to bring them victory. Extending the comparison beyond the first line of battle it is argued that Japan possesses a proponderating and valuable advantage in lighter cruisers, torpedo boat destroyers, torpedo boats and submarine boats.

The proclamation of martial law in the island of Formosa, which is strongly and extensively defended, is the only public announcement of the defense steps taken by

Russians Leave French Waters KAMRANH BAY, Via Saigon, Cochin China April 27 .- The only ships remaining in Kamranh bay are four German transports. All the rest of the transports and the Russian hospital ship Orel and other vessels left behind by Admiral Rojestvensky left the bay yesterday morning. This fleet is now assembled outside the

The French cruiser Descartes having on board Admiral de Jonquieres, the French commander in these waters, returned to Nhatrang, near Kamranh bay, after steam-

bay and forms an extended line, stretching

from Cape Varela to the head of the Kam-

ing around the Russian squadron and subsequently returned to Salgon. The two freight laden steamers cantured by Admiral Rojestvensky were under the German flag. It is presumed that they are suspected of having contraband of war

on board. Say Squadrons Have Met. TSINGTAU, Shantun Peninsula, China, April 27.-A private telegram received here says that Admiral Rojestvensky's fleet has

sined Nebogatoff's detachment. Nebogatoff Expected in May. ST. PETERSBURG, April 27.-(1:15 p. m.) -According to the calculations of the naval staff, Vice Admiral Nebogatoff, who left Jibutil, French Somalliand, March 25, 1f. he has been making 200 knots per day, should reach Singapore tomorrow and could not unite his division with Admiral Rojestvensky's in Tonquin bay until May 5. The general opinion is that their juncture is assured on the theory that Admiral Togo would not dare to risk salling south to neet Nebogatoff, since by so doing he

would leave the way to Viadivostok open o Rojestvensky. Linevitch Reports Success. ST. PETERSBURG, April 27.-General Linevitch, in a telegram to the emperor, inted April 26, reported a three hours' fight April 23, near Tsintslatoun, the Russian

cavalry forcing the Japanese to retreat. NOVOE VREMYA LIKES SPEECH

Bussian Newspaper Comments Upon Address of John Hays Hammond. ST. PETERSBURG, April 27 .- The Novoe remya calls attention to the statements of John Hays Hammond before the Amerlean Academy of Political and Social Science at Philadelphia April 8 as being the utterances of a friend of President Poosevelt and as constituting a note of warning to Japanophiles in America and England,

both politically and industrially. During the course of his remarks Mr. Hammond, among other things, said that Japan's strategic position commercially, by reason of the suzerainty it will establish over Corea, would render it the most formidable competitor of the United States

a the far east, and added: America's interests in this respect will undoubtedly run counter to those of Japan. Japan is the only nation, as I view it which can scriously compete with us for commercial supremacy in that part of the world. The contest will undoubtedly be a bitter one, not only because of our con-flicting commercial interests, but aggra-vated by those racial antipathies even now vated by those racial antipathies even now agitating our Pacific coast states.

If Japan secures a war indemnity from Russia a large portion of this undoubtedly will be expended on increasing its fleet.

The war involve, then, that we and Great Eritain also must maintain formidable forces, with strong Pacific bases, and that the most int must relations must thar electronic the diplomacy of the two reconstructions.
