PECK TALKS ABOUT RATES

General Counsel of Milwaukee Road Appears Before Senate Committee.

GOVERNMENT SHOULD ONLY SUPERVISE

speaker says that it Would Be Impossible for Any Commission to Make Freight Rates for Railroads.

WASHINGTON, April 28.-James C. Lincoln, general freight agent of the Missouri Pacific railroad, continued his statement before the senate committee on interstate commerce today. He said there was a more satisfactory condition under the Kansas than under the Arkansus Railroad commission. The maximum rates fixed by the state commission in Missouri were fair and reasonable. At times, he said, the Missouri Pacific charged a less rate than fixed by the commission. Chairman Elkins asked a number of questions relative to the advance made on live stock rates which, he said, were the cause of the greatest complaint. Mr. Lincoln replied that the rates owing to competition were very low before the advances were made. He thought the rates too low now.

Replying to questions about private car lines, Mr. Lincoin explained that the American Refrigerator and Transit company, in which the Missouri Pacific was a stockholder, operated on that line. This company had more than 4,000 cars. The railroad makes rates on commodities carried in the private cars. The private car company made the charges for refrigeration. Owing to the interest of the Missouri Pacific in the American Refrigerator Transit

were wise—to endeavor by ingistation to eliminate the activities which lie at the basis of commerce, trade and traffic and to substitute in their place the rigid control and regulation of a paternal government. That is the Chinese method, and I trust never will be the American method. Men will always strive for their own advantage and out of this strife ail progress mas come. That commerce, carried on without any governmental regulation or control, would best serve the public, i do not believe, and yet it does not follow that it would be subjected to the interference of a body of men who in the nature of things cannot grasp its needs and its requirements and the needs and requirements of the public.

A railway company can cut a rate made by a commission as easily as it can cut a rate made by a commission as easily as it can cut a rate made by itself. Making a rate is one things—cutting a rate is another, and they have no possible relation to each other. Speaking for my own company—and in a sense for many other companies—I have only to say that they will welcome any legistation, criminal or remedia, which in any degree can make the payment of robates more difficult and increase the certainty of detection and of punishment. But if it is supposed that the payment of the relates can be suppressed by giving to the committee the power to lix rates, I suggest that such a result is absolutely impossible. The rate-making power on any railway is the power of commercial life and death. It is, under the constitution, clearly a property right—subject, of course, to the regulating power of the state which created it and as to interstate business—of the United States. All property rights in this country are protected by the federal constitution and the term 'liberty' means not simply the physical privilege of being out of jail, but the right freely to carry on one's business, using and enjoying one's faculties and ilbertles, according to the law of the land. Placing all of these in the hands of a commission does not apply wor

Eastern boot and shoe manufacturers are still very busy, and some will have little time for the taking of inventories before coming work on fall goods. Textile industries continue to make progress. Prices of cotton goods in the primary markets have not been depressed by the weakness of the raw material, the situation exhibiting more inherent strength than for many seasons. Woolen goods are quiet; quotations are readily maintained, particularly as the raw wool has begun to move without any depressing effect. Failures this week numbered 204 in the United States against 202 last year, and 15 in Canada compared with 16 a year ago.

Backus Lets Up on Constable. Backus Lets Up on Constable.

Albert G. Backus, a cigarmaker, sued out a writ of mandamus to make more trouble for Constable "Shorty" Hensel, but it seems likely the suit will not be pushed. Hensel had seized a half bale of binder tobacco on an attachment sued out by H. Hosenstock & Co. and Backus claimed it was exempt. He also alleged that Hensel had refused to have an appraisal made and wanted him ordered to have this done. Now the parties say Backus concluded Hensel has had enough trouble lately and has gone to Portland to see the show.

Hunting Iowa History.

Hon. Charles Aldrich, curator of the Iowa State Historical society, was a guest in Omaha Wednesday and Thursday, accompanied by several other Iowa people who are interested in its early history. At the home of Mrs. Mary E. Briggs, 2809 Bristol street, they found a great many old and valuable newspaper files and other documents which they pored over with much satisfaction. These things came to Mrs. Briggs through the father of her husband, who was the first governor of Iowa.

Let Common Sense Decide

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure periect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES. Millions of American Homes welcome LION COFFEE daily, There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."
