Total The

. Foreign Financial, LONDON, May 6-Supplies of money were fairly plentiful in the market today and the demand was lighter. Discounts were firm. On the Stock exchange the tone was rather more cheerful, due partly to the recovery of Americans, but trading was inactive, owing to it being the eve of the settlement. Consols dropped on week-end realizations. Americans opened firm in re-sponse to New York, reacted to rather be-low parity, became generally neglected and closed quietly steady. Continentals were supported. Japanese were a shade easier; imperial Japanese government 6s of 1994 were quoted at 1015. TARIS, May 6.-Prices on the Bourse were favorable advices from New York, Ruestan imperial 4s were quoted at 88 and Ruestan bonds of 1964 at 510. BERLIN, May 6.-On the Bourse today domestic shares opened higher in conse-quence of the receipt of telegrams from Paris saying Foreign Minister Delcasse had resigned. Iron shares went up 2 per cent, Business, however, fell off toward the close. Foreign Financial, Illinois Central. Chicago Gt. Western Total receipts..... 6 88 2 1 The disposition of the day's receipts was as follows, each buyer purchasing the num-ber of head indicated: Cattle, Hogs, Sheep.

198 Other buyers..... 396

From the Goldfield Sun, April 30.

at 75 Cents

A telegram from Salt Lake City announces that the first shipment of twenty-eight tons of ore from the Montgomery-Shoshone Mines Co., whose property is located on the north half of Montgomery Mountain in Bullfrog, netted \$500 per ton from the smelters. The ore was taken across the 42 feet of vein uncovered in the Shoshone tunnel during the first month's development work, without sorting or sampling.

"The Shoshone ledge traverses the property of the Montgomery Mountain Mining Co." -E. A. MONTGOMERY, three-quarters owner of the Montgomery-Shoshone mine.

"It is only of a little development work before the Montgomery end of the mountain, which is the south half, will prove as great a bonanza as the Shoshone end."-MAJOR W. A. STANTON, mining engineer, formerly on the staff of the late John Mackay at Virginia City.

"The Montgomery property is on the strike of the Shoshone ledge. The outcroppings on Montgomery Mountain indicate that the same ledge runs through both properties."-MALCOMB MACDONALD, consulting engineer of the Montana Tonopah Mining Co.

"The ore body which carries the high values in the Shoshone unquestionably exists in the Montgomery property. The ledge is well, clearly and distinctly defined from one end of the mountain to the other, a distance of a mile."-J. D. CAMPBELL, mining engineer, in charge of Charles M. Schwab's and John McKane's Goldfield and Tonopah properties.

"I have prospected the ground of the Montgomery Mountain Mining Co. half a dozen

Treasury Statement.

WASHINGTON, May S.-Today's state-ment of the treasury balances in the gen-ral fund, exclusive of the \$150,060,000 gold reserve in the division of redemption, shows: Available crash balance, \$122,921,941; gold, \$61,533,399.

Metal Market.

Metal Market. NEW YORK, May 6.-METALS-All the metal markets were quiet, with prices nominally unchanged. Tin is quoted at \$29,756720.00 for spot: lake and electrolytic copper, \$15,00216.25; casting, \$14.75075.00. Spot lead, \$4.6063.60. Spetter still appears steady at \$5.65625.75. An easy tone is re-ported in the iron market, although demand seems to be showing some improvement at the recent decline. access to be showing some improvement at the recent decline. ST. LOUIS, May 6. - METALS - Lead. 568. steady, \$4.50; spelter, lower, \$5.50. Oils and Rosin. 74.

times. It is second only to the Shoshone itself, and the Shoshone is the greatest gold mine I ever saw, in a mining experience of thirty years."-J. F. MITCHELL, mining engineer, formerly consulting engineer of the famous Yankee Girl mine of Colorado, and of the Ute and Ulay mines of Colorado and other great gold mines.

Greatest Gold Mine Prospect in the World

The Montgomery Mountain Mining Co.'s property consists of seven claims, situated on the south half of Montmery Mountain, in the Bullfrog district, and adjoining the Shoshone group of claims owned by the Montgomery-Shoshone Mines Co.

Stock in the Montgomery Shoshone Mines Co., of the par value of \$1.00 is selling at \$3.00 per share in Goldfield, although the company is only a month old, and development has only been in progress for two months.

Development work on the Shoshone group consists of a tunnel driven into the side of the mountain for a distance of 110 feet, a raise to the surface of 47 feet, and a winze 10 feet deep. There are also two drifts on the vein which has been exposed for a distance of 42 feet inside the tunnel, and the wall of the vein has not yet been reached. The tunnel, the drifts, the raise and the winze are all in high grade ore.

Eminent mining engineers and practical mining men all agree that the same ledge that runs through the Shoshone runs through the Montgomery.

Vigorous Development Work

Development work on a large and extensive scale has already been commenced on the property of the Montnery Mountain Mining Co. A tunnel, the site of which was located by Chas. M. Schwab's famous mining engineer, J. D. Campbell, is being driven into the side of the mountain with all possible speed, working night and day, with every indication that the Shoshone ledge will be encountered at from 50 to 100 feet.

A tunnel is also being driven in the same manner about 100 feet west, with the same object in view. In addition, the company is beginning a tunnel on its Black Bull claim, lying on the southeast side of the moun-

tain, with the intention of tapping an enormous quartz ledge. 18 feet wide, which seems to cut the Montgomery ledge almost diagonally. This ledge has not even been prospected by the Shoshone people, because they have had no time to do so, but they are also now driving, with the same purpose in view. From every appearance and indication this vein will equally as good as the Shoshone on the same ground. The first 28 tons of ore taken out of the Shoshone tunnel across the ledge, for a distance of 42 feet, without sort-

ing or sampling, has netted the Montgomery-Shoshone Mines Co. \$500 per ton from the smelters at Salt Lake City. The Montgomery-Shoshone ledge can be traced on the surface by any person, from one end of Montgomery Moun-

tain to the other, a distance of nearly 5,000 feet, the croppings are so clear, distinct and well defined. It can easily be seen that it is practically one continuous vein running in a northeasterly and southwesterly direction through the entire mountain. It seems only a matter of a few months or less for development work to demonstrate that the Mont-gomery Mountain Mining Co.'s ore bodies are just as rich and just as big as those of its neighbor, the Montgomeryshoshone Mines Co. Man has divided these properties, not nature. The tracing of this ledge is not a theoretical problem, but a simple certainty that is conceded by all who look at the property.

Dividends in Sight

Neither the company nor its agents are attempting to artificially "boost" or stimulate the price of shares. They are satisfied that they have a mine, and unlike many others, it will not take years to demonstrate it, because the moment the ledge is cut, then shipping begins, and the property being out of debt and money in the treasury, it is not improbable that the company will begin paying dividends within six months. The company is mining as economically and as practically as is possible, getting the best possible opinions, not only from one individual, but from the best min-

and as practically as is possible, getting the best possible opinions, not only from one individual, but from the best mini-ing talent in the west, and the work in every way will be done in a systematic and minerilke manner. The only salaried officer of the company is the secretary. The title to the property has been examined and passed upon by Vermilyea, Edmonds & Stanley, the leading min-ing lawyers of Nevada. The property has been paid for in full. The ground is not bonded, but is owned absolutely by the company. The company has, since acquiring the property, had the ground thoroughly prospected by the best in-formed prospectors of the Builfrog region, and on numerous and many places on the surface rock has been found which pans very high gold values. At the present time one of the company's prospectors is "Al" James, who discovered the ore on the Montgomery-Shoshone mine before the owners knew what a marvelous property they owned. He vouches for the fact that the Montgomery has the identical ledge, and it is on his advice, to gether with that of Sol Camp, who recently resigned as superintendent of the famous January mine of Goldfield, to become superintendent of this property, that the company is developing in the manner hereinbefore mentioned.

The Stock Offering

The D. H. Peery Co., bankers and brokers of Goldfield, of which D. H. Peery is president, is the fiscal agent of the Montgomery Mountain Mining Co., of which D. H. Peery is also president. 180,000 shares of the stock of the par value of B.00, are offered to the public at 75 cents per share, and you have an opportunity to purchase a small block of it. The capitalization of the company is \$1,250,000. divided into 1.250,000 shares. These are fully paid up and non-assessable. There are \$00,000 shares in the treasury. D. H. Peery has interested himself in several other great Builtrog properties, and the D. H. Peery Co. will handle all of these. It is believed that by permitting the general public to partake of the Montgomery Mountain Mining Co. s offering, a large clientele will be gotten together for Mr. Peery's other splendid properties in Builfrog, and it will be more profitable in the end to do business with many investors than a few. An offer of \$50,000 cash was made for all the stock in the Montgomery Mountain Mining Co., it will be necessary for you to telegraph your reservation, and follow up the same with a remittance in full at the rate of 75 cents per share for whatever number of shares you order.

If you wish any stock in the Montgomery Mountain Mining Co., it will be necessary for you to telegraph your reservation, and follow up the same with a remittance in full at the rate of 5 cents per share for whatever number of shares you order.
 The following is the directorate:
 President and treasurer, D. H. PEEHY, banker and broker, formerly president of the Salt Lake Stock & Mining Exchange, and member of San Francisco Stock & Exchange Board, Vice-president, HON. JOHN SPARKS, Governor of Nevada; C. K. McCORMICK, of McCormick & Co., bankers, Salt Lake City director; D. E. BURLEY, General Pussent en Agent, Oregon Short Line, Sait Lake City director; and E. E. EDMONDS, of the firm of Vermilyes, Edmonds & Same Value, your investment should quadruple at least.
 Mori a bid for shares in the Montgomery has the same value, your investment should quadruple at least.
