

HOLMES GETS DELEGATION

Clark Following Goes to Him When Unable to Land His Own Man.

FORTY-FOUR BALLOTS TO REACH RESULT

Ex-Attorney General Front Seeks a Judicial Position Under Panama Commission in Canal Zone.

(From a Staff Correspondent.)

LINCOLN, May 11.—(Special Telegram.)—Judge E. P. Holmes of Lincoln captured the Lancaster delegation to the republican congressional convention in the county convention held here today. He won out on the forty-fourth ballot, after a session of balloting lasting from 2.30 until 10 o'clock.

Clark made his bid possible by changing his home precinct, over which he had such a flight yesterday, from Clark to Holmes. At the time of the change of the Clark votes Holmes had 16, which, with the 19 given him by Clark, made 35 more than enough.

The Burlington machine, which backed Clark first, with Holmes as second choice, made every effort to land Clark, but it was too much divided to deliver the goods. It then began to fight with Holmes in an effort to frighten Front into coming to Clark, but this failed. Holmes' stock was near the winning point several times, but Front stood pat. The machine then went back to Clark, but it was evident Clark could not be made. Tom Munger was taken up and Clark dropped, but after a few ballots, in which Munger gained from 10 to 165 votes, the Clark men went to Holme again, and this time in earnest, finally landing him.

Owing to the solid backing each candidate had there could be no combinations made. The Burlington machine made a number of efforts to adjourn the convention for an hour or two, but the motion on roll call was voted down each time. The vote before the nomination stood: Clark, 90; Front, 128; Holmes, 203; Munger, 64; McCosken, 11; Warner, 14.

The convention was called to order by County Chairman Roberts and Senator Burckett was selected chairman. The balloting began without any formalities and set up until the finish.

No Jurisdiction Over Hullhorst.

Dr. Carl Y. A. Hullhorst of the Presbyterian church, who was recommended by a committee which investigated him to the Nebraska City Presbyterian assembly as one to be censured or tried for heresy for the publication of certain of his views, was let down easy by the presbytery. That body this evening decided that Dr. Hullhorst was not subject to the laws of the presbytery, inasmuch as he had long ago ceased to preach correctly. It adopted resolutions inviting him to come back to the old faith and tenets and expressing disagreement with his views. For some time Dr. Hullhorst has been writing letters for

publication regarding religious doctrines to which the church has taken exception.

Former Attorney General Front is a candidate for a position as judge in the canal zone. General Front has received the signatures of the supreme judges and others to his petition and has been making a still fight for the place for some time.

the detective's check and finding judgment at his feet. He readily gained his composure and proceeded with his explanation of what was done after Luce lay prostrated with two bullets piercing his head.

On cross-examination the prisoner showed signs of nervous prostration and would repeatedly leave the witness stand to illustrate incidents in spite of protests by his counsel. In this manner he showed the jury his position while firing the two bullets that entered the body of David O. Luce and was much out of harmony with the director of the bullet marks on the door where they found judgment after passing through the body. Witness further denied every material allegation testified to by the different witnesses for the prosecution in which they distributed damaging contents of his interviews last.

The defense has examined about half of its witnesses and hopes to be able to get in all its evidence some time tomorrow.
