Omaha Team Making Fine Showing in Everything But Hitting.

CONCERTED PLAY IS ALMOST PERFECT

Defensive and Offensive Tactics of the Champions Much Enjoyed by Those Who Admire Snappy Base Ball.

If anybody isn't satisfied with the showing the Omaha team has made up to date let him take a peck at the files of a year ago and see where the Rourke family was at that time. That ought to answer any gets the runs out of nothing and turns to performances. The great trouble so far part of the opposition is winning for the has been weak hitting, and this will certainly be changed for the better very soon. It is not in the nature of things that a man like Thiel will be dragging along in his present notch for any great length of time. nor will Welch, Dolan and Carter be held down to their unusual low percentage of safeties. Schipke is showing better form, while Gonding and Thomas are hitting around what is to be expected of them. Martin has hardly been with the team long straightened out enough curves to warrant the belief that he will be a satisfactory batter before the season has very far progressed. The fielding of the team has been most satisfactory, while the general team work has been of the highest order, a fact that promises much for the course of the champions during the season. A fan who saw the opening game in Denver says he never saw nicer work than that of Omaha, and President O'Neill, after watching the team work at Colorado Springs, Denver, Des Moines and Omaha, says he thinks the general work of Omaha is extraordinarily high class. He praises the fielders and says the other teams all have their work before them in a game against Omaha.

Papa Bill is not at all downcast by the slump in hitting, for he has faith that the improvement will come. He knows that for the present things have been breaking long experience buoys him up and he looks for a better place in the standing table long before Omaha leaves home. He was a triffe downcast over the loss of the first game at home, but he realizes that the result was changed by a slight favor of fortune that might as well have leaned to-

O'Neill expresses himself as being thoroughly confident of the success of the Western league for the current season. Everywhere he has found the people taking an immense interest in the game, the support accorded each club being of the most satisfactory kind. The spirit of the club of Colorado Springs, who says he is after that can win, no matter what they cost. With this determination on the part of sion. This will keep the public interest be the construction of the club house. well up all the time, and is sure to make the season of 1965 the most satisfactory in the league's history.

Right here a word to Manager Mike Cantillon of Des Moines: The people along the circuit admire a scrappy ball player, an aggressive fighter, who plays the game from end to end, and is always on the alert; but they also know the difference between such a player and a rowdy, and rowdy ball doesn't win friends in the Western league. If he wants to hold his friends and secure their patronage he will have to put a stop to the tendency shown by some of his team while in Omaha. The kicking of Ganley and Hogriever sent many people away from the games who will not go back when Des Moines is in Omaha, because they were disgusted by the hoodlum tactics by these men. Hogriever is not a youngster, and his elevation to the position of captain ought to aid him in restraining his tongue On Wednesday he indulged in such continued profanity and vulgarity that he came very near being put off the grounds by the police in the interests of decency. Cantillon might as well understand right at the start that Omaha will not stand for such exhibitions. If he wants his team to draw patronage when here he must make his men curb their tongues, and behave classes of amateur sports, themselves like gentlemen during the game This does not mean that they are to tamely

tion they feel like raising must be do in a way that will not insult the people in the grandstand, who have paid their money to see a ball game, and on whose patronage base ball in Omana depends.

The lost art of base running has experienced something of a revival, especially around Omaha. The daring steals that used to be so much a part of the game much trouble for the opposing catchers and basemen. This is one of the most attractive features of the game, and the cool, skillful base running that has enabled Omaha to score the runs that have won the games for it this season has done more to make the exhibitions enjoyable than anything

else. Next to the quick, snappy fielding of the team as a whole, the careful work on bases, with the dash and ginger that complaint that may arise from the present account every miscue of mind or body on Champions not only the enthusiastic support of the fans, but the wholesome respect of the other fellows. Add to this the unerring throw of Gonding to first and second, which practically shuts off any effort of the visitors to duplicate the feats of the Omaha runners, and you have a combination that is most enjoyable. When that bunch gets to hitting even a little bit, it will be a call for help along the line. Incidentally, the error list that is being piled snough to establish himself, but he has up is but an evidence of the zeal of the players, for they are going after everything. "Take all the chances the game offers," is the general instruction from the president this year. Not only is every hit run out to the finish, but every time the other fellow hits the ball an Omaha fielder gets after it. And that's the sort of work that wins pennants and makes friends.

An association destined to do considerable good in its line is the American Motor City. Its principle object is to encourage the safe and proper use of automobilea. will protect everybody and oppose none. a little badly for his team, but the faith of The league is one of the largest national represented in forty-four states and 700 towns.

Negotiations are still under way for the St. Croix tennis dlub house, but the backward weather of this spring has held the ward Omaha as toward Des Molens, and members back from handing in their names was in nowise indicative of the strength as members and the finances are not in of the teams. He credits Omaha with hav- just the best possible condition for the ing the chance it had at the beginning of building of the proposed house. If all of the season and, without discounting the the men who have signified their intention strength of his opponents, he still feels of joining the club would come forward confident of winning in the end. And one with their names, there would then be who has watched the course of the team enough to go shead and build the house. can well understand this confidence, taking Plans are in the hands of the promotors into account the magnificent pitching staff for the construction of a house 24x46, with and splendid fielding organization of the wide verandas and well supplied with lockers and bath, plumbing and all complete for \$350. To arouse an interest in After a swing around the circle, President | the sport and to get the boys together to consider the plans, a smoker has been arranged for Tuesday night of this week.

Earl Farnsworth, the Nebraska University boy who was runner up for Sanderson in 1962, writes from California that he will be in Omaha with several Denver owners is well voiced by Tommy Burns tennis players for the Mid-West meet in August. Rain has kept the players off the pennant, and that if the players he the Field club courts during the past week as the rainy season goes by. The courts are all in splendid condition at the St.

> The Young Churchman's club, which was promotion of outdoor amusements among league, which augers well from the start. The churches represented in this club are the Church of the Good Shepherd, St. Mathias, St. Barnabas, Trinity cathedral. St. Paul's of Council Bluffs, St. Phillip the Deacon's and St. Martin's of South Omaha. Each church club has two base ball teams, one chosen from the young men and the other from the choir boys. It is planned to play six games each Saturday, each choir boy team playing another choir team and grounds are utilized each Saturday for games, one in Kountze place, another the old circus grounds at Twentieth and Paul streets, one in South Omaha and the other in Council Bluffs. The scheme of play is o carry out a regular schedule, each club playing with the other the same number of games and at the end of the season the winners will be supplied with suitable trophies and a dinner by the losing teams. Field day sports will be taken up by the club and a healthy interest aroused in all

The Racquet club will not close for the

on them, but it does mean that any object has in the winter, on account of the plunge bath, which is the pride of its members. While the weather is too hot in summer for the members to play racquet or squash ball, the cafe will be maintained for lunches and the water in the immense swimming pool will be kept at an even temperature. so that members can come at all hours and enjoy the blessings of a delightful week by Robert Lee Morrell, chairman of swim. This swimming pool at the club the cup commission. The car is a Merhouse is 25x40 feet and is supplied with are again in evidence, and Carter, Thiel filtered water, ranging from three to seven and other members of the team are making feet in depth. The immense filter put in last fall at an expense of \$550 is not quite satisfactory and four additional stone filters will soon be added to make the water perfectly clear. It is maintained at a temperature of 70 degrees all the time. The has been assured through the American women are granted the complete freedom of the club house in the forenoons, and hattan. The American entries thus far are they are negotiating for a swimming instructor, so that the pool will be in use a good share of the time. In the fall the Premier, Ford, Peerless, Christie, Winton,

> There promises to be great activity among Harvard goifing circles this spring. All but one of the members of last year's team which won the intercollegiate championship are back in college, and there is a wealth of new material. The university championship will be held over the course of the Oakley Golf club during the mouth and interclass matches will be played at the Brookline Country club on May 18 and 19. Although the Intercollegiate tournament does not occur until October a number of matches have been arranged for the team They are as follows: May 15, Brookline Country club at Brookline; May 17, Fall River Golf club at Fall River: May 30. Massachusetts State association at Myopia.

The Illinois Athletic club of Chicago is onsidering the proposition to hold the National Amateur Athletic union track and field championships there in July. Applileague with headquarters in New York cation has been made for a sanction and if it is granted the contests will be held in Lincoln park. The meet will be free to the It favors the holding of auto speed con- public and the expenses will be borne by tests under proper canditions, but is op- public subscriptions and the sale of reposed to all forms of racing on the public served seats. A prominent officer of the highways and to the dangerous speeding club says: "We are of the opinion that such of the motor vehicles on the roads and a meet would be an immense success. If streets. We would have the meet the last of July, to give us about bodies of its kind in the world and is ninety days to get ready for it. It will be a unique affair in that it is given in a public park and will awaken a new interest in athletic sports in Chicago."

Barney Oldfield, the champion, is to be the star at the opening meet of the Morris Park Racing club, to be held at the Brighton Beach track on May 20. Oldfield does not intend to take part in the open races. He will attack the one-mile record and probably other marks and will endeavor to lower the figures from 6:53 to 0:50 if possible. The champion is agreeable to match racing and is prepared to go against any one and place his championship title in question. There is a suspicion that little Joe Nelson has an eye on the championship and that Oldfield would have no difficulty in securing a match race for May 20, provided he would arrange for such a contest. The Lightning Bug holds the nile competitive record of the world, 0:41%, made straight away at Ormonde, while Oldfield holds the track record. If matched Oldfield and Nelson, both old-time cycling champions, will give a contest such as has never been seen, as both drive fast cars and both are daring in the extreme. The program for the opening meet at Morris has cannot win he is going to get players but they will be put in condition as soon park on May 20 consists of the Corinthian mile for all classes, the cars to be driven by owners and the drivers to owners, as each of the club owners, the race is sure | Croix grounds so that the only expense to | described by the racing board, the trophy to be a fight all the way and not a process | the members of the club this year would | being valued at \$100; a mile exhibition by Barney Oldfield, a two-mile middleweight race of cars of 881 to 1,432 pounds, with trophies of \$100 and \$40 in value; a threeorganized some time ago among the mile free-for-all with trophies of a value Episcopal churches of the city for the of \$100 and \$50 to the first and second, and next month and from that time on will be a three-mile contest for touring cars of the younger members of the churches, has thirty horse-power and less, each car to perfected the organization of a base ball carry three passengers and the cars to The trial races for the selection of a challine up with dead engines, starting with the pistol fire. In this contest the passengers will be unloaded at one mile and picked up at two miles. The closing event will be a five mile handicap race, all classes, with Barney Oldfield barred.

New Yorkers will see lots of automobile racing this summer. Arrangements have been made for twenty-five meets, ending October 28. There will be nine meetings the seniors playing the same way. Four at Morris Park, eight at Brighton Beach and eight at the Empire City track. Each track receives a holiday, Empire getting May 30, Morris Park taking July 4 and Labor day going to Brighton Beach. Following are the dates for which application has been made by the secretaries of the three tracks: May 20, Morris Park; May 30, Empire City; June 3, Brighton Beach; June 10, Morris Park; June 17, Empire City; June 24, Brighton Beach, July 4, Morris Park; July 8. Empire City; July 15, Morris Park; July 29, Empire City; July 29, Morris Park; August 5, Brighton Beach; August 12, Morris Park; August 19, Brighton Beach; September 9, Morris Park; September 16, submit to any abuse that may be visited summer, but will be utilized nearly as much Empire City; October 7, Brighton Beach;

October 14, Morris Park; October 21, Empire City; October 28, Brighton Beach.

Teams representing German, French, Italian and American manufacturers are now assured for the second running of the Vanderbilt cup race. The first entry from the land of the kalser was received this cedes of 120-horsepower, owned by Robert Graves of New York City and entered in the name of the Automobile Club of Germany. The Frenchmen are to send out five cars, selecting from the climinating trials for the international cup which are scheduled for July 5. The full team of five Fints agents, Hollander & Tangeman of Mana Franklin, two Pope-Toledon and a Locomobile. Among other entries are those of games of racquet and squash ball will be Royal and Thomas cars.

The attention of American lawn tennis

players is centered upon the preparations of

their team for the international matches for the Davis cup, which are to take place in England this summer. Holcombe Ward, the American champion in both singles and doubles, has been selected as captain of the players to be sent abroad by the National Lawn Tennis association. The international ommittee of the national association, which is composed of Dr. James Dwight, Robert D. Wrenn and Richard Stevens, was required under the international regulations to name the members of the team by May 1, and it cabled to England the names of Ward, Larned, Wright and W. J. Clothier, There is some question as to whether three or four men will be allowed to play and until this is settled it is not certain whether Wright or Clothier or both will go. The original deed of gift of the cup permitted four players to compete on each team, but an effort has recently been made by the English authorities to amend these conditions. The Americans still contend for the right to name four, while the continental players back up the demands of the English to limit the teams to three. In any case Ward and Larned will so to England this spring and it is likely that Wright will be left behind if only three go. However, the selection of the players for singles and doubles from the American team will be left to Ward, the captain, and his decision will not be announced before the time of the beginning of the play in July. It is more than likely that Larned and Ward will play in singles and Clothier in doubles with the freshest of the other two. The program calls for two matches in singles the first day, a match in doubles the second day and two more matches in singles the third day. Teams have been also entered in the international matches from Australia, France, Belgium and Austria, A preliminary series will be played this year to decide which of the five nations shall have the right to challenge the British holders of the world's championship. The draw took place some weeks ago in London and resulted very unfavorably for the Americans, since they will have to beat all f the best teams before they can meet the Englishmen. In the preliminary round the Americans meet the Belgians, then the winners play the French in the semi-finals, while the Australians are playing the Austrians. The winners of these two semifinals will come together in the final round for the right to challenge the British team. The United States Golf association has

presented to the Intercollegiate Golf association a perpetual challenge cup, to be inscribed each year with the name of the winning team in the intercollegiate tournament. This cup, in addition to the regular championship cup, will be awarded for the first time at the intercollegiate tournament next fall.

Six yachts are now being built, three in defense and three challengers, for the (N. Y.) Yacht club. This sextet of thirtyfooters are expected to enter the water sailed almost daily preparatory to the international races to be held in August lenging vacht will be sailed on July 2 under the auspices of the Royal Canadian Yacht club of Toronto.

Automobilists are to make a united effort to see if something cannot be done to relieve the condition of Sixteenth street between Izard and Nicholas. At present it is almost impassable for machines, and Councilman Dave O'Brien, who used to hustle for roads for the bicyclists and knows what a hindrance such a stretch is to comfortable riding, has promised his ald in at least having a temporary road of cinders, which will make the road passable Since the completion of the repaving of North Sixteenth street it is the most practicable road to the north, and to be stopped for one short block, as under present conditions, is aggravating, to say the least. The automobile, as well as the roadster, is doing good work in forcing the improvements on several streets of the city. West Dodge is almost useless as a drive for some time after a rain because of the gap from Fortleth to Fiftieth street, but an arrangement has been perfected as far as this is concerned whereby the street railway company is to move its tracks to the north side of the street and the park board will pave, so that there will be a pavement connection between the city pavements and the Dodge street macadam.

Since the remodeling of his machine Arthur Guiou has one of the most striking and up-to-date machines in the city. Mr. Guiou purchased a high priced machine last year and was satisfied with the running qualities, and as it had had a year's trial, he knew that it was no experiment So he conceived the idea of completely remodeling it with every new idea and new contrivance that the most modern machines contain. From the old style rear entrance it is changed to side entrance and the front is remodeled entirely. It is repainted and newly upholstered, until it looks as if it had just arrived from the

It is figured by local experts that the two seven-horse power Olds machines which are making the run from New York to Portland under the inspection of the Department of Agriculture of the national government will reach the city about

factory.

Hunters have called the auto into servce this spring for short trips to the neighboring marshes to hunt for the snipe and yellowleg. It is often easier to reach these favored localities with a machine than by going on a train and then driving with a

PREPARE FOR SUMMER

Assist nature in getting the system ready for the depressing Summer months.

The change of Nature from Winter and Spring to Summer is no greater than the change that takes place in our physical systems at this season, and few can undergo it without some manifestation of disorder. Some have no particular ailment but are just worn out and tired, with their energies so depleted that they are totally unfit for work or physical exertion

of any kind. The appetite is variable, they are peevish, hysterical and often unreasonable, the digestion is imperfect, the stomach deranged, and altogether they are mere drags in their every day life. To others the return of Summer means the return of disease, for warm weather is sure to force out the hidden poisons and seeds of disease which have accumulated in the blood during the Winter, and some old chronic trouble makes its appearance. Boils, Eczema, Tetter, Acne, scaly eruptions, rashes, pimples, etc., break out also at this time, and the heated season is made worse by the burning and itching of these skin tortures.

During the winter months we live a shut-in life as much as possible, breathing the impure air of closed rooms and heated offices; we indulge our appetites to the fullest, eating more of the heavier, richer foods and take a great deal less exercise.

As a result the blood grows thick and sluggish, the Liver, Kidneys, Bowels and other avenues of bodily waste become inactive and dull, failing to carry out the poisons which form in the system, and these are absorbed by the blood. Then when warm weather comes the blood is stirred to quicker action and begins to throw off these poisons, and they find lodgment in the system and produce disorders of various kinds.

The time to prepare for Summer is before any warning symptoms are felt or the seeds of disease have time to get too deeply rooted in the blood. The blood should be cleansed and every part of the system put in good working order, so we can start the trying summer season fully prepared to withstand the disorders and diseases it brings.

S. S. S., the recognized king of blood purifiers, is the remedy with which to prepare the system for summer. It not only builds up the constitution, but goes down into the blood and searches out all poisons that have accumulated during the Winter, as well as those that may be lurking there from old chronic troubles. It is a tonic and appetizer without an equal,

and in cases of debility, weakness, nervousness and that fagged out, run-down condition it is unexcelled. Every part of the system is toned up and rejuvenated by this great remedy. There is one feature of S. S. S. that is possessed by it alone; it is entirely vegetable, while other blood medicines on the market contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, or otherwise damage the system.

HER SYSTEM BROKEN DOWN.

debility, causing a thorough breaking down of my system, so that I was unable to attend to my household duties. I

had tried other medicines which did not relieve me. Seven

years ago my cousin, who had been benefited by S. S., told me about it. I tried it, and it has cured me. I have

always been able to attend to my duties ever since, in fact,

am able to work in the garden as well as in my house. I

Shipments of Country Milk

How the Erie Contributed to New York's Food Supply

UNTIL the Erie in 1842 originated the delivery of good country milk in New York, the city's supply had been mainly swill and adulterated milk. The new plan was so widely appreciated at its inception that long rows of men, women and children carrying jars or cans, daily awaited the arrival of the shipment.

THE Erie's milk shipments have increased from 600,000 quarts in 1842 to 112,454,040 quarts in 1904.
