Severely Stabbed by Woman.

Information reached the police hast evening that a man had been severely stabbed and cut Saturday night in a room at the corner of Sixteenth and Davenport streets. Investigation showed that Robert Mitchell of 3011 Davenport street, severely cut, was in a bed at the first named place. He was being attended by a colored woman named Elia Monroe. Mitchell had a cut about seven inches long, beginning at the point of his chin and extending in a diagonal direction along the neck. He had stab wounds in the left breast and left side. He is in no danger, but is under police surveillance until the case is disposed of. The injured man had been attended by Dr. Hutton. Severely Stabbed by Woman

We have heard a great deal in the public press of late of severe criticism of Mr. Rand and his conduct of the trial. You can't prosecute a criminal without telling what you believe to be the truth. In the second trial before me the defendant went on the stand, and it was quite obvious that she was telling falsehoods from beginning to end. The very air seemed charged with the fact that she was lying. Yet she was a woman. She was young. It was natural that the public should sympathize with her. People seemed to know that she was not telling the truth and the great public of New York said: "Why shouldn't she lie? Let her lie. Let her get the benefit of her lies."

But today in the light of the last disagreement I feel sure that most people believe that the pistol that killed Caesar Young was held by Nan Patterson, was discharged by her, was bought by J. Morgan Smith, in an attempt to get money from Caesar Young for the support of the combined family. I don't frean to say that she took the pistol from the reticule and shot him in the side, but I do believe that she had the pistol and showed it to Caesar Young. An argument followed and he took hold of the weapon. In the conversation and consequent struggle the pistol went off and the man was killed.

I believe, moreover, that had she told the story on the witness stand as it really happened, in other words, had she told the story on the witness stand as it really happened, in other words, had she told the truth that the second jury would have acquitted her.
