THE OMAHA DAILY BEE: TUESDAY, MAY 16, 1905.

# FIFTY-FIVE MILES OF PIPE LINE AND THE FIRST OF THE **RIVER STORAGE TANKS PURCHASED for IMMEDIATE SHIPMENT**

Title to the Fifty-seven Acre Kansas City Refinery Site Approved and Land Paid for—Right of Way Across Kansas Counties Being Pushed with Vim—Company Will Be Laying Pipe and Be at Work on Missouri River Storage Tanks in Less

Than Three Weeks.

## STOCK IN THE KANSAS INDEPENDENT REFINERIES WILL BE \$1.00 PER SHARE BEFORE SNOW FLIES---NOW SELLING FOR \$80.00 PER 1000 SHARES

KANSAS proposition fighting its way through to success on Kansas soil, backed by the Kansas press and public approval, with over one thousand Kansas stockholders and others joining every hour, while from all over the United States every mail brings in remittances from people who are proud of Kansas in her present struggle for justice' in the oil fields and are assisting with unlimited financial aid. Nebraska, Oklahoma and Missouri are especially interested.

ONE OF UNCLE SAM'S 3,000 BARREL TANKS. PHOTO MAY 5.

Here you see a true likeness of another | tance, for the stock will go to 15 cents per storage tank on the Uncle Sam refinery share in a few days. Now is the time to grounds. The Uncle Sam Company is doing buy, and when you do you pay no more things; you don't have to make any guesses than hundreds of other prudent investors. one day last week. Everybody is backing whether the refinery is going to be built; When a company builds big storage, owns the Uncle Sam refinery, and that means it is nearly completed. In addition to over its own oil production, builds its own pipe success. The company will be strong sixty-five men working on the other big lines, and owns its own steamboats, and enough to protect its interests. Don't tank and other parts of the refinery there then surrounds its consuming territory delay, but remit today before others secure are tweaty men crowding this tank to com- with thousands of stockholders and a sym- what you want. pletion. The Uncle Sam Company will be pathizing public, don't it look like it was the first to turn out refined oil in Kansas. hedging solid and building a fort within It is the leader; it is a pioneer and a win- a fort. The Uncle San: Company is on a ner. You secure ten thousand shares of safe basis, and the stock that you can stock in this great, growing enterprise secure now is sure to advance at least today for \$800.00. Don't delay the remit- ten-fold in the next six months.

UST as straight as a crow can fly this great enterprise will push its main pipe line right through the richest and most thickly populated counties of Kansas, making fuel stations every ten miles and laying down to the Kansas taxpayers fuel oil at living prices, thereby banding all Kansas together in a common cause and striking under the belt the robber freight rates and criminal rebates on nature's own fuel by owning and controlling its own pipe lines and occupying independent grounds.

EELING is running high all over the Sunflower state in favor of this great enterprise in its strides of rapid progress. Everybody is enthusiastic, Farmers and business men are offering to build lateral lines from the main pipe line to the county seat towns and making one great central distributing point in each county, while just where the main pipe line turns down the California ridge road for Kansas City a line will be run on into Topeka to furnish the loyal capital city and its manufacturers an abundance of oil at equitable prices.

Farmers Will Come for Twenty Miles and Haul Fuel Oil to Their Homes.

The Uncle Sam company will be able o sell large quantities of the fuel oil to the farmers llving within fifteen to twenty miles of the pipe line. Coal in the rural districts of Kansas runs from \$5 to \$7 per ton. Three barrels of oil are equal to one ton of coal. The management know that it is just a question of time until the farmer who owns land abutting the pipe line will buy all the stock offered. Another fact not to be lost sight of is that all Kansas roads are open to good work with oil, and the time s coming when a great deal of oll can be sold this way. This company will have the oil right at the door of the consumer, while others will have to ship it by rail or be to other great expense.

Remittances From Seventeen Different States Were Received in One Day Last Week,

By actual count remittances were reeived from seventeen different states in

When you buy stock in the Uncle Sam Company at of the most competent refinery men in the ment to build the pipe line to the navig-United States, Mr. Hunter comes from the able waters of the Missouri. It will be Pure Oil company of Philadelphia, and is remembered that the Pure Oil company well known in the Quaker city. For the in its fight for success in Pennsylvania. benefit of the vast number of stockholders commenced paying dividends when it comin Philadelphia and Pennsylvania you are pleted its pipe line to Philadelphia. That's requested to call on the Pure Oil company what you can expect when the Kansas City and find out for yourselves the kind of a pipe line is completed. The Uncle Sam man the Uncle Sam company has at its company is on a solid basis and the stock helm. Mr. Hunter watches the work. If a is selling rapidly all over the United States.

BCENE ON UNCLE SAM SWITCH

It takes time to secure railroad switches and to complete grades ready to ship in heavy machinery. But the Uncle Sam company is just simply getting there with both feet, growing stronger every hour. The above shows the railroad switch, which the company will be the entering wedge that will free has completed and paid for, into the refinery premises. This switch connects with the main line of the Santa Fe and this picture was secured just as three carloads of the heavy refinery machinery was pulled in. The Uncle Sam company has kept thingss on the jump from the word go, they have the machinery now nearly all on the grounds. It is just a matter of days until the plant will be turning gold into the treasury. Crude oil is low, refined oil is high and there is an unlimited friendly market right at our doors. Don't wait until the pipe line to Kansas City is completed and until refinery is completed and another built at Kansas City and then expect to secure this stock at even 50 cents per share. The stock in this company is going to a dollar a share just as sure fate and if you fail to help yourself, and this company, too, right now, by sending in your check or draft for what stock you can handle you will spite yourself more than any one else. If you cannot pay all cash buy on the liberal install ent offer made in another paragraph in this announcement. You can buy one thousand shares for \$\$0.00 cash, while chances are ten to one that in ten days it will cost you \$150.00 to secure the same stock. Money invested in this stock is safe and business men are buy-ing it because they realize it can and will so to par and better, or one dollar per share in the next six months, and is cer-tain to pay great dividends.

Tanks Purchased for Immediate Shipments.

The Uncle Sam company will build the pipe line to the Kansas City refinery as surely as daylight follows darkness. The management know just what it will cost. They have measured their resources and KNOW that they will be able to finish what they have begun in a great deal quicker time than first contemplated. You need not be surprised any pipe line was ever built. Kansans and sneaking outlit, Standard are great rustlers and the oil fields have Every loyal man in the state is doubly

been slipped up on and left without a market by the trickery of old Standard highwaymen. But Kansas will pull through all right; just watch her as she gets her second wind and toes it in for into the treasury at the rate of over the oil fields, and while it will not be able to handle all the production it will be a monument to Kansas pluck and get up and get there and others will follow. With storage tanks placed at right points in the district the whole field can

be greatly benefited. This pipe line will run north just as straight as a crow can fly from our Cherryvale Drum creek holdings and connections will be made every ten miles. As this great pipe line pushes its way through the richest farm lands of Kansas, it will put fuel oll at the doors of thousands of Kansas homes; it will lay lateral lines to every inland city within fifty miles that will afford a demand to justify the investment. It will band together, under one flag for a common cause, the Sunflower-State and prove a successful and FORMIDABLE FOE to Standard oppression and spoila-tion in the west. The line will be run north until it reaches the California ridge road, just south of Topeka, where after running one line into Topeka, the main line will be continued east across Shawnee, Douglas and Johnson counties. to a point directly south of the Knw river 57-acre site.' Now, just consider what this means. The company will be composed largely of Kansas men, fighting for justice in the oil fields on Kansas soil, furnishing nature's own fuel, at reasonable rates to the taxpayers of the

Now is the Time to Buy Your Stock

few more days the Uncle Sam Co. will sell Treasury Stock as follow 500 Shares ...... \$40.00 2,500 Shares ..... \$200.00 1,000 Shares ...... \$80.00 5,000 Shares ..... \$400.00 1,500 Shares ...... \$120.00 10,000 Shares ..... \$800.00 2,000 Shares ..... \$160.00 The stock is non-assessable and the par value is \$1.00 per share.

The time to invest in a company is when that company is selling its \$50 per 1,000 shares you pay no more than hundreds of other investors. The company is strong now and is hourly growing stronger. By September 1st you will see this stock up close to the dollar mark. Why not help yourself, and also help this company, by remitting today for at least 1,000 shares of stock !

#### INSTALLMENT OFFER GIVES EVERY MAN A CHANCE.

The Uncle Sam company would rather have ten men go together and take one thousand shares each than to have a few men take a large amount of stock.
