Stops School Strikes.

At a meeting of the Board of Education held this evening warrants were sworn out for eight boys who have been leaders, in the recent strikes at the schools in sympathy with the strike of the teamsters. It was announced by the superintendent of compulsory education that he had definite information to the effect that the majority of the strikes at the schools had been instituted by hoodiums who had told

the pupils that it was their duty to refuse to attend the schools, because the schools were buying coal from the wrong firms, The threat of arrest of parents whose children did not attend school had the effect of settling three strikes today and a normal attendance is expected tomorrow.
