Omaha Business Men Talk About How to Build Up a City.

SERMONS IN SENTENCES ON THE TOPIC

Sentiment All One Way and Enthusiasm for the Idea Such as to indicate Unanimity of Purpose.

Something like 150 of the business men of the city met at the Commercial club rooms last night at a "home patronage" dinner given by the Omaha News.

The spirit of enthusiasm was rampant as one after another the speakers gave their ideas on how to make Omaha a city of 200,000 people by 1910.

No committees were named, as the home industry ground is covered by the manufacturers' committee of the Commercial club. This committee is planning for an exhibit of home products in the Auditorium in connection with the Ak-Sar-Bon festival this fall.

E. A. Benson presided at the banquet. Besides telling an infinite number of stories, he made some good suggestions on the greater and better Omaha question.

Some of the Sentiments.

Gurdon W. Wattles said: "We believe in and preach the opportunities of Omaha, but how many of us always make application of our theories? I've thought sometimes that what Omaha needs most is a revival, a regeneration of feeling such as might be called the religion of Omaha."

Euclid Martin said: "Thousands are ordering goods by mail from Chicago. They seem to want to go where the markets are, but do they realize that the way to make good markets in Omaha is to patronize home industry?"

Louis V. Guye promised the support of the labor organizations to any movement for the upbuilding of a greater and better Omaha.

How to Boost the Town.

Isaac W. Carpenter said: "If the business interests of this community all unite for a bigger and better Omaha and we pull together as we can pull, we will get what we are after. When you see a good thing, push it along. Let us all push together. Let us quit going to Chicago and New York for things we can buy in this town."

"Nearly every man I meet when I go to Kansas City tells me that his town is the best city on earth. That is the way we ought to boost Omaha," said T. F. Sturges.

Gilbert M. Hitchcock: "We ought not to allow any man or corporation to threaten with impunity the business interests of this city. If the owner of one of the railroads in Omaha proposes to build another line which will injure the business of the city, I am ready to go to war and I think all of us ought to go to war."

Told in a Sentence.

C. R. Sherman: "The Vatican at Rome cleaned with Gibson's soap, yet the hood house near Mr. Gibson's home in this city is scrubbed with sapolio."

Rome Miller: "If we are to get capital interested in Omaha, we must have it outfit to look upon. Strangers do not go into the bank to see how large an account Jones or Brown or Smith has, but by note first of all the outside evidences of prosperity."

L. Mohler: "The Union Pacific in this city employs 2,702 men and expends annually about \$3,000,000."

J. Gibson: "It is possible for the newspapers of this city to bring factories galore. They will bring the factories at make out city one of 200,000 inhabitants if they will use their influence with the public for the consumption of home products."

The new addition was

OMAHA VIEW IMPROVERS BUY

Lights, Boulevards, Brick Yards and Street Paving Are Under Discussion.

The Omaha View Improvement club met Friday night with a fair attendance and talked over miscellaneous business matters pertaining to the district. The promise of four or five new lights under the recent apportionment of lights for the Omaha View territory is very pleasing to the club and the members are beginning to think that things are slowly coming their way. The club has taken the initiative in the project of the federation of all the Sixth ward improvement clubs, and a committee visited the Monmouth Park club in that interest last night. The matter of grading Corby street, and the early possibility of that street as well as Lake street being paved makes the club feel good.

Very Bad Cough Cured by Chamberlain's Cough Remedy.

For three months Mr. Gail Woodworth of Stevens Point, Wis. was troubled with a very bad cough. He doctored continually, but got no permanent relief until he used Chamberlain's Cough Remedy, which effected a cure. A great many others have had a like experience. Most cough medicines are merely palliating—that is, they give only temporary relief—while Chamberlain's Cough Remedy cures the disease that causes the coughing and effects a permanent cure. No one can afford to neglect a cough, for a persistent cough is the first symptom of consumption, the most fatal of all diseases.

Stoeker Pleads Guilty.

HOSPE WANTS TO KNOW How Do You Buy a Piano?

Do You Consider Its Ancestry—Its Family History?

When in need of a physician or lawyer, the first thought is as to their ability. The charge for their services is at least a secondary consideration, isn't that so?

Buying a piano should be done in much the same spirit, looking to the services the piano figures, one price to dering, for it may be the last you will buy during a lifetime and you want it to remain a piano of merit for another generation at least. The reason why

Kimball Pianos retain their good tone quality longer than other makes is because they are peculiarly made. They have distinctive tonal devices, patented and, of course, used exclusively in the Kimball. Then, too, the best pianos and piano makers in America admit that the action of the Kimball piano will wear longer and cost less for repairs when it is very old than any action on the market.

Prices Are Reasonable The prices we will quote you on Kimball, Hallett & Davis, Kranich, Bach, Hoppe, and other pianos we carry, will meet your most hearty approval, because they are "right prices." All pianos in our store are marked in plain figures, one price to all, and that the lowest to be found anywhere consistent with good music and wearing qualities.

THE HORPE PAYMENT PLAN MAKES PIANO BUYING EASIER. See our immense list of bargains in used pianos.
