

GRAIN AND PRODUCE MARKET

Longs Unload Wheat Because Faith in Crop Damage Falls. CORN AND OATS ARE CONSIDERABLY OFF

Reports of Big Losses to Wheat in Southwest Primarily Responsible for Stampede of the Market.

OMAHA, May 19, 1905. Less belief was placed today in crop damage reports which helped to bull the market yesterday, and there was a big unloading of wheat by the longs. Prices fell 2 cents at the close. May wheat at 56 1/2c, July at 57c split and September at 57c. Traders have recovered entirely from yesterday's panic. The market opened with a decline below the closing figures of the day before. Corn and oats were also off. Corn finished with May at 53c, July at 54c, and September at 54c. Oats closed at 37c, July at 38c, and September at 38c. The market was generally lower, with wheat showing a marked decline. Receipts showed a marked increase, while weather in the southwest by grain experts at a grain dealers' convention at St. Louis, Mo., was primarily responsible for the market yesterday by the longs. Today receipts from the southwest and central Missouri are reported to be in the opinion expressed at the convention. It was reported from St. Louis that wheat was in Oklahoma yesterday and saw prospects for about two-thirds of a crop. In southern Kansas the same condition prevails. C. C. Christopher of Kansas City holds a different view and says that wheat cannot be raised in the situation in the southwest. He says the prospect in Oklahoma is for a 100,000 bushel crop, in Kansas 200,000 more.

NEW YORK STOCKS AND BONDS

Market is Subjected to Further Liquidation and Sells Off Rapidly. HEAVY SELLING OF AMERICANS ABROAD

In Some Cases Low Level is Below That of Violent Decline of Last Week in April.

NEW YORK, May 19.—The stock market was subjected to considerable further liquidation today, but it showed evidence of relief for the moment.
