

SHUT OUT BY SIOUX CITY

Champions Drop a Game to Leaders in Pitchers' Battle.

ONLY WABBLE GOES HARD IN RESULT

One Little Miscreant Comes Just in Time to Give the Visitors Enough Runs to Win the Game.

Pa's horse show must have been taken out of town by Perry Chamberlain, for the Omaha's surely were not blessed with a lot of luck in the game with Sioux City Saturday, when the latter won by the score of 2 to 0. It was the second shut-out game of the season, and went against the Champions. The only wabble made by the Champions was by Dolan in the seventh inning, and this, coupled with a base on balls, followed by a little single through McCloskey, secured two runs for the Sioux, who Detroit mowed down five of the Omaha tribe. Schipke did the feature work, and it was in the shape of a one-handed stop of Noblit's hard drive down the third base line in the fifth inning. The ball started as if it was going on a long journey, but little Schipke made a lunge for it and, although he lost his balance, he recovered in time to catch the runner at first.

Omaha had thirty-three men face the pitcher to twenty-nine for Sioux City, while the Champions had nine men left on bases to four for the Sioux, and still could not win.

How the Runs Were Made.

A description of Sioux City's half of the seventh is the description of all the runs that were made in the game, and the rest were nearly all one-two-three. Weed was given his base on balls by the umpire, and Collins bunted to McCloskey, who whirled and threw to Dolan at second in time to catch Collins and possible to make a double play, but Dolan dropped the ball, and none were out instead of two as all were flailing upon Noblit's out from Martin to Thomas advanced both runners a base, and Newton's hard drive by McCloskey scored both Starnagle and Haverward struck out. The Sioux's made two singles in the third, but a neat double ended the inning and blasted their hope of scoring.

A splendid crowd was on hand to watch the performance between the present leaders in the pennant race and the Champions, and the exhibition was well worth the money, but it is far more satisfactory to one of these big crowds and to Pa himself to have the home team win. Who can you do when a little pitcher from Rulo, Neb., works for an Iowa bunch and won't allow the boys from his own state to hit the ball?

Today will be pitted against each other two pitchers, neither of whom has lost a game this year, and it will be a battle royal. Sanders has been groomed by Pa for this special occasion and Caldwell missed his turn to be brought out before the thousands who are sure to be present this afternoon. Attendance, 3,000.

SPLENDID RECORD BEING MADE IN THE FIELD BY THE CHAMPIONS.

The Champions have not yet reached their batting average, but the fact that they have been a feature of the team's work since the opening of the season continues to characterize them. At the bat, some improvement is noted for the week, and the team is showing doing the poorest have picked up quite a little. Carter, Welch, Thiel and Schipke each having the ball in the last week, the team gets to hitting in anything like form, the change in the race will be noticed by everybody. The last week, the fielding that put Omaha to the bat, but this season the defensive work of the Champions has been first class. The last week has been quite remarkable for this feature, the game having all been sharp and clean, the leading of the home team having been 100, while that of the visitors was 50. This is first fair base ball at any time of the season, and is very good this early in the year. The batting of the home team was 100, while that of the visitors was 50. This is first fair base ball at any time of the season, and is very good this early in the year. The batting of the home team was 100, while that of the visitors was 50.

Oldsmobile Standard 7 H. P. Runabout. This is the kind of an Oldsmobile that is racing across the continent.

is demonstrating its Serviceability

In a way that has proven that it has no equal. It is adapted to country riding as well as for the city—a fact that is shown conclusively by the wonderful records of the two Oldsmobile Runabouts now racing from New York to Portland, Oregon, where they expect to arrive for the Good Roads Convention in June.

They have averaged 150 miles a day—sometimes through a foot of mud, clay and water, and almost impossible road conditions.

The Standard 7 H. P. Runabout is the acme of reliability—it is the sort of a machine that cannot be exceeded for general use.

The 20 H. P. Two Cylinder Touring Car is a marvel as a hill climber and touring car and accomplishes feats that \$3000 cars cannot surpass.

Get our new handsome catalogue just out, and have our nearest agent demonstrate an Oldsmobile to your satisfaction. The same amount of money cannot buy as good a car.
