THE CHANGE OF LIFE INTELLIGENT WOMEN PREPARE

Dangers and Pain of This Critical Period Avoided by Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's greatest change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age.

FAIRMOUNT PARK OPENING

The announcement of a concert by Covall's Manawa band at Fairmount park attracted an immense crowd to that popular resort yesterday afternoon.

The concert all through was a most enjoyable one and the playing of the march "King Bee," composed by Arthur Smith of this city and dedicated by him to Covall's band, was enthusiastically received.

The motor company had evidently not anticipated the big crowd. It was called upon to handle and the service on the Fairmount park line was entirely inadequate.

The beautiful afternoon also attracted quite a few visitors to Lake Manawa and a number of rowboats were to be seen on the lake. Quite a few anglers availed themselves of the car service to the lake yesterday and spent the day fishing.

The grounds at Lake Manawa are in splendid condition and rarely has the place looked prettier or more inviting than it did yesterday.

FIRE LOOKS LIKE INCENDIARY

The cottage at 19 South Seventeenth street was badly damaged by fire at 2 o'clock Sunday morning. The blaze was fortunately discovered at its early stage by Oscar Henderson, a motorist who was returning home after taking in the "night owl" car.

The cottage was formerly the home of the late William Haskins, who was drowned at Lake Manawa, and it formed the principal part of his estate, over which there is now a controversy by members of the family claiming to be the heirs.

Mr. Moleychaska had remodelled the house and had just insured it, so that his loss will be fully covered. Chief Nicholson gave it as his opinion yesterday that the fire was of incendiary origin and the authorities will investigate.

PUSHING WORK ON CAPITOL

Every Effort Being Made to Have it Completed by First of January.

STONE FOR HISTORICAL BUILDING ON HAND

Right of County Treasurer to Maintain Tax Collector at Place Other Than County Seat Being Tested.

(From a Staff Correspondent.) DES MOINES, May 21.—(Special.)—The Capitol commission is making a big effort to get the work of the improvements at the state house completed well within the time allowed by the act of the legislature.

The commission has till January 1 next, at the rate the work is progressing, made some little apprehension and an effort is being made to crowd the work forward.

The members of the commission and Artist Garney of New York were at the capitol most of last week attending to details. An endless array of small things were cleared away, including the adoption of the inscriptions which will adorn the walls with the decorations.

It has been decided to treat the limestone columns on the first floor with sandstone to clean them, but nothing will be done with them beyond that. The treatment of the walls with the decorations is designed to be completed in the summer.

Stone for Historical Building. Stone is again on hand for the historical building and the work of carrying up the walls will progress rapidly for the next few weeks.

NEGOTIATING NEW TREATY

Ambassador Meyer Confronted with Serious Difficulties.

RESULT IMPORTANT TO AMERICAN TRADE

Contravention of Russian Sugar an Obstacle Difficult to Overcome, but Both Governments Hopeful.

ST. PETERSBURG, May 21.—The desirability of securing the revocation of the imposition by Russia of the maximum duty on American products levied in retaliation for the levying of a countervailing duty by the United States on Russian sugars, which Ambassador Meyer is trying to adjust, is assuming additional importance owing to the fact that the new Russo-German tariff, which goes into effect at the end of the month, will form the basis for a most favored nation clause. That treaty reduces the duty on machinery and other articles in which American exporters to Russia are especially interested, and the new general or maximum tariff, with corresponding increases, goes into effect simultaneously.
