There will be some delay in the letting of a contract for the grading of Sixtenth street from a point 290 feet north of Missouri avenue to I street on account of a change in the city charter. Formerly when an improvement petition was presented to the council the mayor named the appraisers to go over the ground and estimate the damage, if any. This was done n the Sixteenth street case, but the report handed to the council Monday night was returned to the appraisers, E. R. Leigh, B. E. Wilcox and Jospeh Murphy, for correction City Attorney Lembert holds that inder the present charter the appraisers must first meet and set a date for making the appraisement. This date must be ten days after the first meeting of the appraisers. All property owners interested must be notified by the city clerk of the must be notified by the city clerk of the date when the appraisers will meet to go over the ground. In this case the appraisers mentioned will set a date for meeting the property owners and then, according Omaha and South Omaha Business to Mr. Lambert, the records will be clear and in conformance with the new charter.

Fudge and Dance.

An entertainment was given Monday by the Elaine High School society at the home of Miss Brandeis at Twenty-fourth and Farnam streets. It had been originally planned to give what was termed "A rudge party," but this eventually became an informal dancing party, with fudge and punch as refreshments. The purpose of this entertainment was to raise an additional sum of about 50 to that of \$100 already in the possession of the society. This sum at the close of the school year, will defray the cost of a memorial which the society will denate to the school to adorn its wills. The subject of the memorial will be a fac simile set of Charles Abbey's painting or Sir Galahad's search for the "Holy Grail". These paintings illustrate very closely Tennyson's "Holy Grail" and will be very valuable to the school for an instructive as well as decorative point of view. The original pictures of Mr. Abbey adorn the Boston public library.

Plan Now for Colorado

When nature got through with her upheaval in Colorado, she left a conglomerate mass of mountains containing some of the rarest spots in the world-Pike's Peak, Garden of the Gods, Royal Gorge, the Black Canon, Marshall Pass, Estes Park, etc.

Colorado is a mile higher than tide water. Every cubic foot of her atmosphere is charged with vitalizing ozone. A complete change of atmosphere and living are the first necessities of a vacation. Colorado's crisp mountain air, cool nights, vivifying waters and outdoor life thoroughly restore a depleted system.

Colorado's mountain chains, with 130 snow capped peaks each over 14,000 feet high, form a panorama of nature's scenic masterpieces. Her canons and gorges reveal abysmal depths. While the mountain climber risks his life on the Alps for a view of sunrise, thousands of tourists may easily reach the summits of Pike's Peak or Marshall Pass and from them look out over regions of indescribable wildness for a radius of a hundred miles, while watching the eastern sun paint the wierd topography in countless hues.

Remarkably low and favorable vacation rates to Colorado all summer.
