July Wheat Scores Advance at Close of Session.

on moderate realizing. The close was %27 Md higher on wheat and %27%d higher on wheat and %27%d higher on cora.

Settlements on 1,500,000 bushels of May corn were made Wednesday afternoon and Thursday at Chicago by the leading corn shorts, Bartlett-Fragier, at 65,500c. Foreigners have suffered the most, as they always stay out to the last. There are some in the trade who assert that the May deal is practically over, but the built interests do not admit it. It is said that there is little probability of the Chicago builts having to take more than 1,500,000 bushels in the sext four business days.

Today's Inter Ocean says: "Some of the best money makers in the trade took profits on long July wheat yesterday. They figured that despite the bad crop reports the trade is due to shift from the May to the July basis within a few days, and the change is likely to have a depressing effect on market values for a time at least. Heavy buying of July wheat in Chicago and selling at Kansas City was on yesterday. At one time the difference was Higo. The same paper says regarding corn. "Monday will be practically the last day on which the elevator interests can buy corn for drying to make contract grades. They will have to get corn that can be run to their elevators on short notice. Tuesday will be a holiday and all corn will have to be in store by moon Wednesday. Some of the corn offered the inspection department the last few days has been turned down. This will make more trouble for the elevator men and prevent their turning out as much corn as they anticipated. There are 85,000 bushels of corn to arrive here on a fast freight from Omaha that is expected to grade No. 2 and has been sold for May delivery. The country is consigning corn, as it is the only way it can be handled."

Decline of Several Points Gives Evidence of the Unsettled Condition of the Railway

Situation.

NEW YORK, May 28—A brisk half hour's business after the opening today was all that saved the stock market from the lowest record of saics in nearly a year, at the transactions concentrated into the dame was among the property of the pressure there applied brought such small lish, and was almost hour the market. The pressure then applied brought such small lish, and the way of dislocating stock of inducing any following that the dissensed is so of the deep country that the pressure then applied brought such small brokers thereupon left with the intention of not returning on Monday for the year day's subsiness preceding the Memorial day brokers thereupon left with the intention of not returning on Monday for the year day's subsiness preceding the Memorial day of the years of the pressure of a period of practical ideness to extend into Yednessay the sommoient conditions which developed. The sommoient conditions were of a superior which were pointed to a sustaint which were pointed to as conformed as imported the sommoient conditions. The United States Steel stocks and the sommoient conditions of this report. The solid stocks are some sommoient conditions of the source of the continued unsettle ment of the structure profess and to w

part of the financial institutions all over the country.

Weather reports from the region of the grain crops were more favorable, but some conditions. Currency movements indicate a slight gain in cash by the banks, but the week's loan changes are likely to prove large. The extreme case of the money market, however, precludes any great attention to the bank statement. The spental weakness of corn products was due to fears over the dividend on the preferred stock. Conditions were stagnant and the market was idle during the afternoon, but the tone at the closing was strong.

4.10% Bonds were very firm. Total saies, par value, \$1,680,000. United States bonds were all unchanged on call.

LONDON. May M.—Money was in good demand in the market today, partly in connection with calls for over \$5.00,000. Supplies were plentiful. Discounts were firm. On the Stock exchange trading was mostly normal and featureiess, stocks having a drooping tendency. Consols were easier. Americans opened flat, owing to the reaction in Wall street, and recovered to a fraction above parity in the forenoon, owing to the fair support prompted by a better feeling among the members of the Hill-Hariem parties. Atchison, Topeka & Sania Fe led the improvement on bear covering. Later there was some yeaction, then prices remained fairly steady for a while, became very unsettled, rallied durbances. St.22: certificates no bid. Shipments, 72.29 bbls.; average, 22.324 bbls. Lima shipments, 74.147 bbls.; average, 55.517 bbls. Lima runs, 63.572 bbls.; average, 55.517 bbls.

There was only a light supply of cows and heifers on sale today and as buyers evidently wanted a few cattle the demand was about equal to the supply and the market does not show the decline that prevails on steer stuff. There was a fair demand for cows and heifers and buyers picked up the stuff in good season, although sellers were forced to make some concessions and the market was generally steady to a shade lower than yesterday. These conditions have prevailed all the week and cows do not show as much decline as beef steers.

The market on veal calves, stags and bulls is quotably unchanged.

As has been the case all the week the supply of stockers and feeders was very light today, there being hardly any fresh receipts. Prices ruled generally steady with yesterday's market.

cline of about a nickel, but this fact had no effect on the market here and trading at this point was stronger. The hogs ar-rived early and buyers were out in good season. The demand was fully equal to the supply and trading from the start was

the supply and trading from the start was active. Prices on the opening ruled generally 2½c higher than yesterday, with the bulk of the hogs selling from \$5.174g6.25. The popular price today was \$5.174g6.25 tops reaching \$5.25. The market was a little uneven, a weak spot showing in some places. The hogs were cleaned up in good time, with the market easing off a tribe at the close. Representative sales: AV. Sh. .387 120 .219 160 .228 160 63.

a sheep reported here today, with three cars of a sheep reported here today, with three cars of the same through. Buyers were out in good season direct to a packer and four cars bilied through. Buyers were out in good season and there was some life to the trading. The demand was fairly good, but buyers were bearish and compelled selers to make some concessions. The market generally ruled steady to a dime lower, the decline being felt equally by sheep and lambs. The receipts today were about half lambs and half sheep, the stuff being of medium quality. Lambs have been on the down grade all week and are, for the week, 50g tower than last week. Sheep have held up better than lambs this week and the market on these kinds is in better shape than on the lambs. The decline on the sheep for the week is about logific. Today a bunch of shorn wethers brought \$4.10, which is a nickel lower than Wednesday.

Quotations for clipped stock: Good to choice lambs, \$8.00g7.25; good to choice cyearlings, \$4.75g5.00; fair to good wethers, \$4

nore of a decline than does the stuff for ceders.

There was only a light supply of cows and Cattle Steady—Hogs Five Cents Lower
