BABY'S AWFUL ITCHING ECZEMA

Sores All Over Face and Body -Could Not Tell What She Looked Like - Unable to Sleep - Grew Worse Under Doctors.

CURED BY CUTICURA IN ONE MONTH

A grateful mother, in the following letter, tells of another of those marvelous cures by Cuticura: "When my baby was four months old her skin broke out with a humor. I took her to a doctor, who said it was eczema. He gave me medicine to give her, but she kept getting worse all the time. Her little face and body were so covered with sores and large scales you could not tell what she looked like. No child ever had a worse case. Her face was being eaten away, and even her finger nails fell off. Then it itched so she could not sleep, and for many weary nights we could get no rest. At last we got Cuticura Soap and Ointment, first bathing her in warm water with the Soap, and then spreading on the Oint-ment with soft cloths. I saw a change in a week. The sores began to heal, and she could sleep at night, and in one month she had not one sore on her face or body. Any mother having children with eczema or humors will find a friend in Cuticura Soap and Ointment. (signed) Mrs. Mary Sunders, 709 Spring St., Camden, N. J., Aug. 14, 1904."

The foregoing statement justifies the oft-repeated assertion that Cuti-cura Soap and Ointment afford instant relief, and permit sleep for baby and rest for tired mothers, and points to a speedy, permanent, and economical cure, when all else fails, in the most torturing, disfiguring, itching, burn-ing, bleeding, scaly, crusted, and pimply skin, and scalp humors.
