THE OPPORTUNITY OF TODAY The opportunity for the man with little means is probably better today in the prairie states of the Southwest than ever before in the history of the nation. To be sure, there is not the vast open choice of land for the homesteads that existed in the 70s. The lands then taken up under Government laws are now prosperous farms and ranches. There is need of more land to develop the country. In the Southwest, Indian Territory, Oklahoma and Texas, are vast areas of unimproved land, and the Government is now offering it for sale at a price which is very cheap. Practically the same thing is true of the towns. Few lines of business are adequately represented. There are openings of all sorts for wideawake men. Are you one? If you are interested, tell us what you want, how much you have to invest, and we will gladly furnish information. Write for a copy of our paper, "The Coming Country." It is free.
