Great Men Dead and Great Men Living

Will talk to you through The Columbia Graphophone. Think of listening to the voice of a celebrated man who is long dead and buried, to hear him as though he were right in the room with you, to almost see his gestures, to listen to him delivering some great oration. IT'S A FACT, YOU CAN. Then think of listening to the voice of someone who possibly at that moment is thousands of miles from you. THINK OF SUCH A WONDERFUL THING.

Yet it is all true if you possess a Columbia Graphophone

It is the greatest achievement of the day. Once you own one, you will become more and more attached to it the longer you have it. Something new every night. Something laughable. Something novel always awaits you for your evening's entertainment. No end of good thiags to be had out of a COLUMBIA GRAPHOPHONE. An hour spent with one of these entertainers refreshes you, quiets you, makes you feel as though you had attended the best amusement in the land-and rejuvenates in every way possible.

Under the Special Arrangement with the COLUMBIA GRAPHOPHONE CO. at 1621 Farnam St., we are enabled to offer

A \$12.50 Columbia Disc Graphophone

Grateful Mother Tells of His CURE BY CUTICURA FOR 75c. "When our baby boy was three months old, he had the milk crust very badly on his head, so that all the hair came out, and it itched so bad he would scratch until the blood ran. I got a cake of Cuticura Scap and a box of Cuticura Ointment. I applied the cuticura and put a thin cap on his head, and before I had used half of the box it was entirely cured, his hair commenced to grow out nicely again, and he has had no return of the trouble. NEW YORK, June 2Bradistreet's tomor- row will say: Trade reports crop conditions and to a lesser degree collections display an im- proved appearance, the result of rather bet- ter weather conditions. Clearing skies and more seasonable weather have made for better retail trade improved re-order busi- ness with the jobberr in seasonable goods, and last, but not lenst, have cleared the orop situation and allowed some measure of ascertainment of the camage done by excessive rains, high water or low tem- peratures in widely separated areas. Weather and crop irregularities color irade reports, but it is to be noted that the nothwestern cities return very optimistic reports, the central west is cheerful and some southern points report trade better than anticipated earlier. Effects on trade of the backward spring at the east are being repaired. Industry is still active, though the iron and steel trades are rather uptieter, with crude materials easier, though scrap is in rather better tone. Building is active the country over and except at Chi- cago labor troubles are not seriously ham- gering. All kinds of building material, in- ciding lumber, brick cement, glass, paints, oils and hardware are actively called for. Collections show little change. Except in the direction of improvement in certain western centers money is still easy. The textile trade still shows irregularity in different lines.
