 & SONS

**REDFICK DENIES THE WRIT**

District Judge Refuses to Release Mrs. Algeo on Habeas Corpus Plea Just Now.

Judge Redfick denied the writ of habeas corpus asked for by Attorney John O. Yeiser on behalf of Mrs. Lillian Algeo at the conclusion of the hearing of argument Saturday morning. This was the practical effect of the judge's pronouncement, but he allowed Mr. Yeiser further time to present authorities.

The court held not well taken the argument of Mr. Yeiser that the title of the most recent act relating to punishment for blackmail was too narrow to cover the provisions of the act itself, and therefore was deceitful as to the purpose of the act.

While the argument was proceeding I. J. Dunn, formerly attorney for the Algeos, entered Judge Redfick's court room. Mrs. Algeo looked at Dunn and then significantly smiled at Jailer Roach, who had brought her into court. Dunn ignored his former client.

**DEAD MAN BLAMED FOR DEATH**

Benjamin Floren's Carelessness Held Responsible for Accident on the Burlington Railroad.

The coroner's inquest over the body of Benjamin Floren, the Burlington employe, who died from the effects of his injuries in being struck by a train in South Omaha, returned a verdict Saturday afternoon that it was the result of his own carelessness and the railroad company is exonerated from any blame in the matter.

**BOULEVARD TO CUT OFF LAKE**

Beginning of Plan for This Improvement Comes Up Through Park Board.

**TO CONDEMN AND BUY THE PROPERTY**

New Driveway to Run East from Kountze Park at Twentieth and Pinkney to the Top of Bluff.

The Park board decided upon two important matters at a special meeting held Saturday morning. One is to condemn and buy all the property between the southeast boundary of Riverview park and the Missouri river, amounting, it is supposed, to about 300 lots, owned by J. H. Dumont. The other is for the construction of a new boulevard to run east from Kountze park at Twentieth and Pinkney streets to the top of the bluff tract, then south along the bluff to Locust street, the future acquisition of a beach on Cut Off lake or part of the lake being in view.

The Riverview park proposition was ordered submitted and recommended to the council, which has jurisdiction, and the Bluff Tract boulevard idea was placed in the hands of the committee on the designation of ground, which will make a detailed investigation of available property, grades and exact lines and report back as early as possible. It is said that nearly all of the proposed boulevard will run through vacant acre property. It is the beginning of a plan for a boulevard to and park at Cut Off lake, which Commissioner Cornish has urged for years.

**Reasons for Addition.**

The reason why an addition to Riverview park is deemed desirable is set out at length in a report made to the board by Commissioners Gonden, Mills and Craig, the committee on the designation of grounds, which is as follows:

The committee on designation of grounds, to whom was referred the communication of J. H. Dumont, trustee, dated April 25, 1905, offering to sell to the city as a part of the system of parks, parkways and boulevards, the lots in Riverview Park addition to said city, which lie between the lands and right-of-way of the Omaha & Southwestern Railway company and the top of the bank of the Missouri river, for 200 each, subject to the taxes for 1905, and certain lots in the river for the nominal price of \$5 each, subject to all unpaid taxes, big land and its beauty, is the view it commands. To a person standing in the park it appears as if the bluff on the east by the bluff on the Iowa side, on the south by Child's Point, and the west and north by the bluffs upon which the beholder stands, and to contain within its borders Lake Manawa, the Missouri river and the beautiful fields and woods along its banks.

If the lands lying between the park and the Missouri river were always to remain as they now are there would never be any prospect of acquiring more lands in this vicinity. It is unreasonable to suppose, however, that the owners of the bottom lands will allow them always to lie idle and unproductive. The natural use to which they should be put in order to make them profitable is sites for manufacturing enterprises or as a railroad yard. Should smoky factories be constructed between the park and the river the beauty of the park would be gone forever. To protect the park the people would be required to buy and build on the fact that the increased cost thereof may be by it rendered especially beneficial.

Second—Your committee further reports that the only feasible way of acquiring back land by condemnation proceedings, in which the value of the land could be ascertained by appraisers and the cost thereof paid by property owners especially benefited.

Your committee therefore recommends that that portion of Riverview Park addition to the city of Omaha lying east back south of the lands owned by the Omaha & Southwestern Railway company, being the right-of-way of said railway company, and the lands acquired and used as yards by said railway company, and between said lands and the Missouri river, and also that portion of Riverview addition to the city of Omaha, Neb., lying east of the right-of-way of the Omaha & Southwestern Railway company, and the Missouri river, be declared necessary as addition to the system of parks, parkways and boulevards of the city of Omaha.

All of the present officers and committees of the board were re-elected and considerable minor and routine business disposed of.

**Building Permits.**

The city has issued permits to E. F. Morrison for a \$1,500 frame dwelling at Twenty-seventh and Franklin streets, F. Simon,

**REFORMER GETS IN TROUBLE**

Temperance Advocate is Arrested, but Released Upon Explaining His Case.

**FOUND BY OFFICERS ON A BEER KEG**

**Story is He Was Endeavoring to Convince Two Convivial Fellows of the Error of Their Way.**

Incidental to his work of sociological and municipal investigation in Omaha Friday evening Virgil Hinshaw, a temperance reformer, fell into the hands of Detectives McCarthy and Murphy, whom Hinshaw mistook for confidence men. Hinshaw was at one time at Tenth street and Capitol Avenue trying to show Neils Samuelson the error of his intoxicated condition. The fact that Hinshaw took to his heels and ran when the officers questioned him strengthened the supposition that Hinshaw was "working a drunk," which charge was placed against the temperance reformer at police headquarters, after a lively chase by the officers. Hinshaw had little trouble in convincing Judge Berkas as to his antecedents, so he was discharged when arrested in police court.

The detectives testified they saw Hinshaw and a man named S. W. Smith, who was also arrested, sitting on beer kegs at Tenth and Capitol avenue.

"What is your name? Where did you come from? What is your business?" were the rapid fire questions put by Detective McCarthy to Hinshaw.

"In their citizens' clothes the officers looked like confidence men to me, so I ran away as fast as I could go," said Hinshaw. "I have heard of people being stopped on the street by strangers in large cities, and when questioned Friday evening I thought it would be best to make for the more populous streets without delay, and I did so."

Mr. Hinshaw says he has been in the temperance reform movement for six years, but is a stranger in Omaha. Before leaving

property within five miles of the center? \$1.00 per acre.

What is the value of best acreage ten miles from center? \$100 per acre.

What is the value of the cheapest acreage five miles out? \$50 per acre.

What is the value of the cheapest acreage ten miles out? \$75 per acre.

Has the central or suburban property increased most in value within the last three years? In proportion, the suburban.

Omaha's population in 1900, 192,000.

Bank clearings in 1903, \$32,000,000; bank clearings in 1904, \$38,000,000; building permits for 1903, \$1,613,294; building permits for 1902, \$1,300,836; building permits for 1901, \$1,072,807; building permits for 1900, \$2,061,500.

**TRIBUTE TO MRS. BRANDEIS**

**Resolutions Adopted by Wise Memorial Officers Commending Her Splendid Labors.**

In recognition of the splendid and unselfish labors of the late Mrs. Jonas L. Brandeis the officers and trustees of the Wise Memorial hospital adopted these resolutions:

Whereas, The melancholy event of the death of Fannie Brandeis, wife of the late Jonas L. Brandeis, occurred after protracted illness on May 15, 1905, and the officers and board of trustees of the Wise Memorial Hospital association sharing in the general grief, desire to manifest their respect to her as the founder of the Wise Memorial hospital. Therefore be it resolved, By the officers and board of trustees of the Wise Memorial Hospital association, that resolutions be passed and spread upon the minutes of the association expressing the great loss suffered in her death.

In establishing the Wise Memorial hospital Fannie Brandeis found her work a life purpose. With patience and perseverance, undaunted by discouragement, she courageously carried forward her plan of founding a permanent institution in the city of Omaha, open and free to the afflicted without distinction as to creed or race.

Inspired with such a purpose, her life speaks its own best eulogy. Her work was simplicity, sweetness and harmony and was warm with the glow of human sympathy for all in sickness, in want and in distress. By the force of her own character she impressed her ability upon those associated with her in the founding of this hospital. In her efforts to alleviate suffering humanity she has erected a monument to her memory in the hearts of grateful
