THEY SUCCEED IN MAINTAINING PRICES Corn and Wheat Close Higher, While Onts Are a Little Weak-Coun-

try Offers of Corn Are Very Light.

OMAHA, June 12, 1906.

In the fact of a favorable government crop report and good weather the bulls made a strong effort to keep the market up, and they succeeded. Wheat started off a little lower and sold as low as 85%c niter big selling at Chicago, but the bulls began bidding for July and ran the price up almost a cent above yesterday. Corn was also off Mc at the start, but manipulation helped it up. It closed strong, bu above yesterday.

Wheat finished with July at 85%c, September at 83%c and December at 83%c, old September 187%c and December 187%c, old September 187%c and December 187%c. OMAHA, June 12, 1906.

cember 30%c, old September 30%c and De-cember 40%c.

Oats were a little weak in near futures.
July closed at 31c, September at 28%c and December at 28%c.

Country acceptances of corn bids are falling to show improvement. The high bids sent out Saturday by one Chicago house, 53c on mixed, track, Chicago, and 54c on yellow, brought acceptances of only 5.80 bushels and other houses are getting practically nothing. There were charters for 184,000 bushels corn Chicago to Euralo Saturday. The world's corn shipments for the last week were 3.78,000 bushels; for the week before 2.986,000 bushels; last year 2.39c.

urday. The world's corn shipments for the last week were 3.78,000 bushels; for the week before 2.896,000 bushels; for the second bushels.

The Adams Grain company, through its correspondent at Chicago, received the forlowing from C. H. Thornton, Commercial Record, Dulutti: "The condition of \$5.5 on winter wheat calls for \$65,000,000 bushels." Spring wheat area at 17,613,000 acres and condition of \$4.7 means 25,600,000 bushels. This is much too low, both on area and condition. The northwast alone promises 125,000,000 bushels; and balance of spring wheat, 80,000,000 bushels. The world's wheat shipments for the week were 11,255,000 bushels and last year 15,-32,000 bushels and last year 15,-32,000 bushels and last year 15,-32,000 bushels.

were 12.68,000 bushels and last year 10,152,000 bushels.
The oats situation is thus summed up by
the Chicago Tribune of today. The trade
probably will not be disappointed at the
government estimate of the oats crop. The
total is large, but this was anticipated in
view of the excellent crop reports received.
Last week saw a fair, steady hardening of
the July futures. The buying was fairly
important and persistent. Net gains for
the week were %c for July, %c for September and %c for December. The total area
in oats, as per the government report, is
about 27.688,000 acres, an increase of \$1,000
acres, or two-tenths of 1 per cent on the
area sown, against \$9.2 a year ago and \$5.5
in June of 1903."

From the Inter Ocean: "Late Saturday From the Inter Ocean: "Late Saturday afternoon the wheat traders had the June government figures for which they had been waiting the latter part of the week, and although the winter wheat condition was cut seven points under the May report a crop of 713,000,000 bushels was suggested, a yield second only to the bumper yield of 1901, when the crop tipped the scales at 748,460,000 bushels. The condition of spring wheat was high at 92.7, indicating 28,000,000 bushels, but only 3 over the June condition of last year, when the final yield was cut to 27,000,000 bushels by rust damage late in the summer. The increase of 2.8 per cent

the summer. The increase of 2.8 per ce in the spring wheat acreage, or a gain 472,000 acres, was a good feature, practica insuring a larger crop unless direct calaity comes later. The winter wheat con tion of 85.5 on an acreage of 28.72,000 acres as to be a sixteen bushes as par, suggests 4 using sixteen bushes as par, suggests 42,600,000 bushels, or 107,000,000 bushels more
than harvested last year, but only 74,000,000
bushels more than indicated by the June
report of a year ago.

Wool Market.

ST. LOUIS June 12.—WOOL—Market steady; medium grades, combing and clothing, 269314c; light fine 244462sc; heavy fine, 269214c; tub washed 26144c.

BOSTON, June 12.—WOOL—The Commercial Bulletin says of the market: The wool market is in a strong position and spot wools have been freely taken by manufacturers at good prices. Dealers are not desirous of selling more contracts until some deliveries are made. Stocks are light for this time of the year. The sale at Shainko. Ore., on June 8 has practically cleaned up that state. Buying is still going on actively in Ohio and Michigan. About 10,000 to 18,000 bales have arrived here from the last London sales. Australian and South American weels are well cleaned up and the new arrivals are now being awaited by purchasers. The foreign markets are very strong and rising, with only small stocks on hand. The shipments of wool from Boston to date from December 29, 1904, according to the same authority, are 150,751,180 pounds, against 31,191,082 pounds at the same time last year. The receipts were 155,128,448 purpounds for the same period last year. Wool Market.

Elgin Butter Market. BLGIN, Ill., June 12—Butter sold at 184cc a pound on the Board of Trade today. This is a decline of 1 cent from last week's quotation. Sales for the week were \$31,000

been the case for

has been the case for some days, were not in good demand and trading on these was slow and dull; in fact, trading on the good kinds could not be called active. Although there was little urgency to the demand, buyers picked the cattle up slowly at prices right around steady with the close of last week. Grassy cattle were in about the same condition as last week—that is, in poor demand—and buyers were inclined to pound the market.

There was a fair run of cows and heifers on sale today and there was a little better tone to the trading. On the good kinds buyers bid right around steady and most sales were made on this basis. Good kinds were in better demand than the common grades, which were hard to move at the prices. Trading was somewhat slow and buyers were evidently not overly sinxious for supplies. Grassy and half fat, warmed up stuff were very slow to move, as buyers were not interested in anything showing grass.

Bulls, yeal calves and stags sold at about the same figures as the close of last week, there being no quotable change in prices.

Only a few loads of stockers and feeders were on sale today, and as has been the case for some time, the demand was only moderate and inquiry from the country very small. Prices on the good kinds were a little stronger than at the close of last week, but-common grades were no better than steady. Representative sales:

mmon grades were no better Representative sales:

BEEF STEERS.

sale. Chicago reported a big run, with prices just about steady, and this fact lent a fair tone to trading here. Buyers were out in good season and there was a fair activity to the early trading. Light hogs were in best demand today and prices on these kinds ruled generally right around steady with Saturday. Heavy hogs were not so much in favor this morning and buyers pounded the market for a decline of about 25c. The bulk of the hogs sold at \$5.174,65.00, tops reaching \$5.55. The popular price was \$5.174, while some loads sold down to \$5.15, and others brought \$5.574. The general market could best be described as being steady to E5c lower, with a little weaker tendency to the trade as the morning advanced. Representative sales:

No Av Sk Pr. No. Av Sk Pr.

or transaction itself also being admissible in evidence.

9. When there are numerous assignments of error the reviewing court will consider and discuss such of them only as appear to be essential to a proper disposition of the cause under review and to finally determine the matters involved in the litigation. The fact that all assignments of error are not noticed and commented upon in the opinion does not imply that they have not been considered and given due weight in arriving at a decision.

12752 Mason against Strickland. Appeal and error from Dawes. Reversed and re-

1878. Mason against Strickland. Appeal and error from Dawes. Reversed and remanded, with directions. Letton, C. Division No. I.

1. A party to a contract of sale of real estate for cash upon the delivery of the deed is excused from performance if the other party neglects or refuses to pay when the deed is ready for delivery and requests an extension of the time for payment.

2. It is optional with a vendor to rescind a contract of sale when the vendee fails to perform the same according to its terms, and a demand for the return of a deed sent to the vendor's agent to be delivered upon payment of the money, the same person being the agent of the vendee, together with a notice that the "deal is off," is an exercise of the option and a recission of the contract.

3. Where the agent of a vendor receives a

contract.

3. Where the agent of a vendor receives a deed for the purpose of delivery upon payment of the consideration, without disclosing that he is also agent for the vendes, and places the deed upon record after he has been notified by the vendor that the contract has been rescinded for non-performance, no legal delivery of the deed has been made and the grantee acquires no title thereby.
