Resolved, By the city council of the city of Council Bluffs that the Council Bluffs City Water Works company be requested by July 1 to submit to this council a proposition for the sale of its plant to the city for the lowest price it will accept therefor, indicating the terms of payment and based upon the ability of the city to pay therefor out of money arising out of the water tax and hydrant rentals.

2. That a committee of three be appointed by the mayor to retain counsel to assist the city solicitor in the matter of the purchase or construction by the city of a water works plant and making adequate provision for the supply of water to the city and its citizens and to make a contract with such counsel for services and compensation and said committee, together with the mayor and city solicitor, shall have charge of all negotiations and proceedings necessary to carry out the aforesaid recommendations of the mayor, subject to the approval of the council, to which it shall make report from the to time.

Every healthy man has five million and blood blood, he will be able to overcome the enemy in these germs of disease." Every healthy man has five million red blood corpuscles to every square millimeter of blood. and numbers its cures by the thousand.

Many popular patent medicines or tonics are made up largely of alcohol and will shrink the corpuscles of the blood and make them weaker for resistance. What is needed is an alterative extract, like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the atomach in assimilating or taking from the food such elements as are required for the blood, also an alterative that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everygerms of disease which we find everywhere—in the street-cars, the shops, the
factories, the bedrooms, wherever many
people congregate, or where sunlight and

CHANCE TO KICK ON TAXES Douglas County Board of Equalization is to Be in Session for

Next Ten Days. The County Board of Equalization will go into session Tuesday morning for the

hearing of complaints from taxpayers who think they have been given the worst of it by the assessors. Besides the five county commissioners the county assessor and county clerk are members of the board. At its opening session tomorrow the equalization board will not have before it the totals of the assessment for the whole county, but these are expected to be available within a few days. Some of the out lying districts are yet to be heard from Assessor Reed has started his hustlers after the slow deputy assessors and all the returns ought to be in very soon now. Taxpayers who have any kick to make against their assessments will have the next ten days in which to present their protests. With the board it is "first come first served," and the early birds in this matter will naturally get more consideration than the kickers who appear only at the eleventh hour.

BACK NOT OBSTRUCTIONIST First Ward Conneilman Says He Will Not Block Any Street

Councilman Back, chairman of the committee on paving and sewerage, denies emphatically that he ever said if he could prevent it no paving would be done under the

1905 specifications. "I never made any such statement," says Councilman Back, "Personally I think the one-inch asphalt topping is too thin and the wearing surface should be thicker, but I do not propose to be an obstructionist for this reason. My policy is to give the people what they want. The property owners will have opportunity to study the published prices on various kinds of paving, familiar ize themselves with the specifications and decide what they want. As chairman of the committee I shall act strictly in accordance with their expressed wishes, and if anyone is looking to me to delay the game that person is badly mistaken. Omaha wants and needs lots of paving and I am not going to stand in the way."

In the city engineering department the one-inch surface is defended on the ground that the one-inch binder beneath it is to be an asphaltic mixture on five inches of Poetland cement base, thus making in reality two inches of asphalt surface. The binder has small rock in its composition somewhat similar to the bitulithic pavements. City Engineer Rosewater and Assistant City Engineer Craig are adhering to a policy of strict silence regarding criticisms

of the specifications. They say they do not propose to be dragged into any such unsatisfactory and interminable wrangle as that of last year and the year before it.

DEVOTE THE DAY TO MISSIONS Discussion Lasts All Day and No

Action is Taken. STANTON, Ia., June 12 .- (Special Telegram.)-Today the question of missions received further discussion at the Swedish Lutheran conference, but no action has for conducting this field is the chief topic talked about. So much time is consumed in discussion, that midnight session will soon be used, unless the synod is extended over Thursday. This afternoon the preaching service was in the line of missions and tonight the program, outlined by the women's missionary secretary, is all of the opic.

Tomorrow will practically be an all day usiness session. In the evening the confirmation alumni have charge of the program. Last night was used for memorial services, and a memorial was dedicated to each of the departed ministers, during the year gone by. The Wenneberg male chorus was present and sang. All the sessions are well attended

L. M. Leslie of Warsaw, Neb., is wondering what he has done that he should have such a run of hard luck while on his present little visit to town. Leslie alighted from a passenger train at the Union station last Saturday morning. Saturday night he was conveyed to the city jail and had to be held up while searched. He was released early Sunday morning on a cash bond and forthwith renewed his attacks on the liquor supply. At Fourteenth and Capitol avenue he narrowly escaped being seriously hurt by a passing street car; as it was he was only bruised. He was again arrested and when arraigned in police court was fined for being drunk.
