plete accord with the views the empero BRITISH MAILS RELEASED plete accord with the views the emperor held on a general settlement so essential to the good progress of the whole of mankind. As for an eventual meeting of Russian and Japanese plenipotentiaries, charged with learning how it twould be possible for the two powers to elaborate conditions of peace, the imperial government would have no objection in principle to such an attempt if the Japanese government expressed a design therefor.

Probable Attitude of Japan. Japan's terms continue to be a matter for earnest speculation. A well informed diplomat, who says he knew Japan's terms before the battle of Mukden, considered them to have been very moderate, and believes that even now they will be found to be not unduly harsh.

Private advices received from a Russian source at Shanghal say it is certain that Japan will demand the surrender of all ships interned in eastern waters, which may be another item offsetting indemnity. Papers supposed to have semi-official in-

spiration continue to speak dublously of the results, but it is noticeable that the cheapand popular papers like the Gazette plainly advise the people to reconcile themselves to defeat and peace. With peace in sight, by a strange per-

versity, some of those who were loudest in its favor when it was below the horizon seem suddenly to have changed their attitude, finding it less attractive than when it was opposed by the government.

ITALIANS AT TARGET PRACTICE

Firing by One Cruiser Brings Query from Government at Rome, VANCOUVER, June 13.—Captain Camillo, commander of the Italian cruiser Umbria, at present in this port, has received from

Rome the following cablegram: "Reported in English papers that you bombarded Pender island. What have you

to say in explanation?" At Pender Island are located the targets which the British ships at Esquimalt use for target practice, and at the suggestion of the commander of the British druiser Egeria the Umbria's crew had target practice there last week. No property was injured during the practice and no complaint of the target practice was made by the residents of Pender island.

Full Extent of Damage Following Bursting of the Water Main

Has Not Yet Been Determined.

NEW YORK, June 13 .- For the first time in more than thirty-six hours through service in the underground system was rehad been temporarily repaired. When the morning rush hours came the service, both local and express, was almost normal and the surface and elevated lines which yeaterday were straining every facility to accommodate the additional thousands who urned to them, had been relieved.

It is estimated that fully 25,000,000 gallons of water was pumped from the tunnel be fore the tracks were cleared sufficiently to permit the resumption of traffic. It was between Fourteenth and Forty-second streets that the most serious trouble was encountered. There the track dips several feet below the normal level and the water gathered to a depth of many feet. The full extent of the damage caused by the flood had not yet been determined.

Corn in Mississippi and Missouri Valleys Shows Decided Improvement. WASHINGTON, June 13 .- The weather sureau's weekly summary of crop conditions issued today is as follows:

The lake region and part of the upper Mississippi valley have suffered from heavy rains, while the southern states and the southern portion of the central valleys are

difficult to get control of the fire, and this, along with the fact that the alarm was not turned in for some time after the fire had started, was the cause of the building being completely destroyed. Government officials could not be located last night and the value of the building could not be learned.

NOW IS THE TIME FOR HYOMEI.

Far Easier to Cure Catarrh Now Than at Any Other Season.

Now is the time to use Hyomel when the early summer days make it so easy to ure catarrhal troubles. The Hyomel treatment, breathed for a few minutes three or four times a day in May or June, will do good twice as quickly as it did in January and nearly everyone knows that used faithfully then, it completely rids the system of

catarrh. The complete Hyomei outfit costs but one ollar, and consists of a neat inhaler that can be carried in the purse or vest pocket, and will last a lifetime, a medicine ropper, and a bottle of Hyomei. Extra bottles of Hyomei can be procured, if de-
