Des Moines Goes to Top.

DES MOINES, June 20.—Des Moines took the first game of the series from Colorado Springs today and by so doing went to the top of the league. Scorling one in the first inning the Underwriters clinched the game in the third. Ganley opened with a two-sacker and scored a moment later when Hogriever attempted to sacrifice, but Companion threw wild. Long sacrificed and Rossman hit to Companion, who tossed the ball to Mott, who dropped it, allowing Hogriever to score, and Rossman went on to second on the play. Caffyn hit to Mott, who retired him, bût Rossman was advanced to third and scored a moment later on Shugart's single.

The air arising from low, marshy places, damp cellars, stagnant ponds and pools and from decaying vegetable matter, as well as the gases from sewers, is loaded with germs of malarial poison. The water we drink, that has not been properly filtered and purified, is also full of these germs and

For several years I suffered with Chills and absorbed by the blood, the Fever, caused by Malaria in my system, and each entire body begins to feel the effects of the poison. The most common form of Malaria is "chills and fever," summer for several years I would have a relapse. Finally my physician prescribed S. S. S. It entirely cured me: I have never been troubled since.

but when the blood is thoroughly saturated with the poison it becomes so weak and polluted that abscesses, carbuncles, boils, sores, ulcers and other skin diseases result. Malaria also affects the liver, kidneys, bowels and stomach, producing a chronic state of biliousness that often results in jaundice or some malignant fever. In cases of Malaria the blood must be purified before the body can regain its natural health. S. S. S. contains purifying and tonic properties possessed by no other blood medicine, and is the ideal remedy for the treatment of Malaria. It destroys the germs of the disease and builds up the

Mr. Whittemore could have remained another year had he so elected, but he felt that three years was enough. "The notion that bunting is not popular is, I think, a mistaken one," says Pitcher Eddle Quick. "It's true that when a batter has tried twice to lay it down in an effort to move along a base runner you hear a few people yell. 'Hit 'er out!' But these people form a very small part of the crowd and no part at all of the intelligent base ball critics. The thing that counts in base ball eritics. The thing that counts in base ball is runs and not nice, long flies to the outfield. When a man is on first or second with none out, and a run is needed, the thing for the batter to do is to move the runner up nearer the plate, and it is his duty to do so, regardless of how many people yell 'Hit' er out!' The truth is that the people who don't know hase ball shout 'Hit' er out!' while the people who do know the game sit quiet, appreciating the efforts of the men to win."

What has become of the spit-ball pitcher, that terror who was to may down the opposing batsmen like ten pins? Also, where are the experts who clamored for a repeal of the foul strike rule because it handicapped the batters, and rendered the game a dreary waste of strikeouts and fungoes? Monday's record will give these gentlemen little comfort. In four National league games eighty-three safe hits were made, many of them for extra bases; in the American league fifty-eight safeties were registered in three games, in the American association the count was 105 in four games, and in the Western league fifty-nine were made in three games. The line of march will be down Farnam to Eleventh, then to Jackson, then to Tenth, then to Union station.

The picnic will be held at a fine park in Missouri Valley and the train runs out to the park. There will be a program of base ball games, foot races, horse races and bicycle races. The grocery clerks and the commission clerks will play ball and the Missouri Valley team will meet the Omaha Originals. There will be a steer killing contest between a man from South Omaha and one from Des Moines. There is plenty of fresh water at the park and benches and tables will be provided for everybody. Those who like quiet may have their family picnic in a beautiful fiveacre park adjoining the large park. It is estimated that 5.000 to 6,000 persons will attend from Logan and Harrison counties, Iowa, and from Washington county, Ne-

Don't allow disease or weakness to take away all the pleasures of living. Life is beautiful when you have perfect health. We can stop the unnatural drains and losses which are a menace to your vigor and vitality if you will consult us before it is too late and your future career is blighted, thus depriving you of all your happiness and strength. Our many years of successful experience, supplemented with an immense practice, enables us to combat and conquer the diseases and weaknesses so prevalent among men.

The man who has youth in his heart, pure blood in his veins, ambition, confidence and nervous energy in his makeup, and who is free from the contaminating effects of private diseases or the depressing influence of nervosexual debility, is worth more to himself, to his family, his friends and the world, than is the broken-down millionaire with all his wealth in the bank.
