Up to a late hour this afternoon the Russian reply to the president's suggestion regarding an armistice had not been received and until this reply is received the result of this phase of the negotiations cannot be known. Mr. Hyde said he was more than anxious for an immediate determination of the ownership of this fund and "If he is right, as ne believes himself to be, the judgment of the court will relieve him from the criticisms that have been leveled at him in the reports of the superintendent which he regards as most unjust and based upon a total misapprehension of the law and facts."

Last Cabinet Meeting Before Vacation Gives Much Attention to the Subject.

WASHINGTON, June \$2 -- Chinese imnilgration to this country and the execution of the Chinese exclusion laws constituted the principal topic of discussion at today's meeting of the cabinet. It was the last meeting of the cabinet to be held before President Roosevelt shall leave Washington for the summer.

The situation is regarded both by the president and by members of his cabinet as serious. As Secretary Taft phrased it, there seems to be more trouble over the administration of the law than the law itself. In fact, he expressed the belief that too much time was spent in developing evidence against Chinese who presumably were entitled to enter the country.

The president made it clear at the meeting today that he has determined the Chinese shall have fair treatment under the law whenever they applied for admission to this country at any port. He believed this definite decision was reached at today's relations which the country has always maintained with China should be continued if possible. To this end Secretary Hay will take action on behalf of this country. China have entered into hard and fast agreements to boycott American goods, and | 1908.
