Swatfest at Des Moines.

DES MOINES, June 23.—Des Moines scored seven runs in the ninth inning by hard hitting, the most wonderful batting rally ever seen on the local grounds, and won from Colorado Springs today by a score of 12 to 11. Manager Shriver went into the game and made several changes in the positions of his men. The team was wonderfully braced up and played good ball. Stimmell was pitted against Morrison and both pitched good ball until the sixth, when the visitors began pounding Morrison hard and Manske succeeded him. Manske did no better and the Springs took ten hits and eight scores from him in two innings. Bader hitting the ball over the centerfield fence, with the bases filled, in the aeventh. Needing six runs to the and seven to win, Des Moines went to the bat in the last half of the ninth and batted out a victory. Score:

BIOUX CITY, June 23.—Sioux City broke even on the series with Denver by winning today's game. Cadwallader only gave the Grizzlies six scattered hits, while the Packers bunched their hits off Hickman.

The Packers opened up strong by batting out three in the first, Noblit's home run over the centerfield fence bringing in two. In the third Noblit hit the ball for two sacks, went to third on fielder's choice and scored on Wilson's out to first. In the fourth O'Hara got a single, second on Cadwallader's sacrifice, third on fielder's choice and scored on throw to second.

OARSMAN DALY IS REMOVED Accused of "Cribbing" Cannot Take Part in Race.

Take Part in Race.

NEW HAVEN, Conn., June 23.—Cornelius E. Daly, the Yale 'varsity oarsman who was charged with "cribbing" in an examination on psychology, was taken out of the boat today and Ortmayer, of the 'varsity four, given his place.

The announcement of Daly's removal was made by Julian W. Curtiss, graduate coach, who said the action was taken in accordance with a decision of the faculty. Continuing, Mr. Curtiss said:

'The examination under discussion was held last Saturday at Gale's Ferry. At that time I investigated the matter fully, and to put it mildly, there was an honest doubt in my mind in regard to same. The course under Prof. Ladd, the psychology teacher, is a peculiar one and the students are given latitude unheard of in other courses. The questions "they are to be asked on examination are given to them nearly a month beforehand and other special privileges are conceded, including liberty to bring in papers. I am convinced that Daly thought he was acting well within his rights. Had I believed otherwise I most certainly would have taken him out of the boat instantly, as I would far rather lose the race than have any man in the boat mistantly, as I would far rather lose the race than have any man in the boat who had done any cribbing in the examination room. I felt that this sort of cheating is one of the worst evils in college life today. I regret more that I can express that this should have happened. Mr. Daly has worked his way through college and my admiration for this kind of a man is always unbounded."

The faculty held a meeting this afternoon and Daly was called before it. The first phase of the discussion was the publicity given the case and then the charge was taken up. The faculty did not like the words "cribbing" or "cheating," so it was changed to "improper conduct for a member of the university."

Daly was asked to give his side of the case, which he did. Several of the members defended him, but when the vote was taken the question of dropping him from the university roll was pas

to the lack of wind, as the judges called it off after the Priscilla had rounded the sixth buoy, when more than three minutes ahead. This lead means nothing, inasmuch as the affair was an absolute fluke, the Togo all the while playing in rough luck and the Priscilla getting all the stray puffs that never touched its rival's sails. When the boats were docked the lake was almost a dead calm and the crews went to dinner with hopeless prospects for another race that day.

The wind was fresh and blowing rather

steadily from the southeast. A new course had been marked out which gave more windward work and also increased the distance twice around to nine and one-fifth miles. On the starting gun at 4:05 Clarke came down before the wind with a rush and gibbed around the buoy across the line just with the Togo, coming from the other direction. Captain Robbins got the winds ward place, but the Priscilla was slightly leading. R. W. Goelet's Swan made a bad start and was last over the line, but it went straight through the fleet, gave a beautiful example of seamanship and got right up to windward and returning away from the other fleet, finished four minutes and forty-five seconds ahead of Thyra, which was second. The Capri came in third. Time; 4:15:45. Course, 12 miles. A good strong breeze was blowing and most of the boats put in at least one reef.

Prince Henry of Prussia, with Allison V. Armour on board, was to have sailed the Orion over a thirty-three mile course, with no competitor in its class. The Alisa, although not regularly entered, was invited to sail against the Orion and the representative of the Alisa's owner did so. The Alisa crossed the line too soon, has to come back and did something, frequent enough in America, but which gave the judges a scare. It made a turn around the starter's boat, almost touching its spars and came up to windward. In the meantime the Orion was getting away fast. The Alisa at the first turn was fifty seconds ahead it finished one minute and teven and at the third turn was fifty seconds ahead. It finished one minute and ten seconds ahead of the Orion.

AMERICAN TENNIS PLAYERS WIN Will Play Finals Among Themselves in London.

LONDON, June 23.—The American tennis players swept everything before them at the Queen's club today, defeating the Englishmen in the singles and the Australians in the doubles in the semi-final rounds. Wright scratched to Ward for the finals in the singles, thus creating Ward champion of the city of London. In the doubles Larned and Clothler secured three sets to their opponents' one, while Wright and Ward won three straight sets, one of which went twice to deuce sets, the Australian pair, Brooks and Dunlop, making a desperate fight for at least one set. This leaves nothing but Americans in the first big tournament in which international teams are represented on this side of the water. Ward is playing an especially fine game, his varying crew service being particularly puzzling, while the careful playing of volleys by both Wright and Ward elicited continuous applause from the galleries, notwithstanding the fact that the flower of England's tennis playing talent was going down in defeat.

The perfect weather favored the Americans because it approached nearer to that which they are accustomed. It also brought out a brilliant attendance at Queen's club. Ward and Wright will be partners in the all-England tournament at Wimbledon next week, in which Larned and Clothier are also entered. Wright and Ward will compete in the singles.

SIOUX FALLS, S. D., June 23 -(Special)-A great deal of local attention continues to be directed to the matrimonial difficulties of Dr. Frank A. Coulter of Omaha, who some months ago arrived in Sioux Falls, since which time he has been a member of the local divorce colony.

At the time of the kidnaping by Dr. Coulter of the two children it was thought the children would be brought direct to Sioux Falls, but no trace of them can be found here. From what can be learned the kidnaped children are being kept at Canton, a town twenty miles south of Sioux Falls, their nearness to Sioux Falls enabling Dr. Coulter to see them frequently without the danger of having the mother discover the whereabouts of the children

and securing their return to Omaha. The fact that Mrs. Coulter received letter from Roberta, the younger of the two girls, and that while the envelope was postmarked Sioux Falls, the letter itself was dated at some other place, the name of which was unintelligibly written, is believed to confirm the opinion that the children are being secreted at Canton.

The divorce case of the doctor was set for trial at the last term of court, but for some reason was continued to the next term. It is thought Dr. Coulter had the case continued to such a time as would enable him to cure such defects as might exist in his legal citizenship in South Dakota. He now maintains an office in this city and doubtiess intends that his residence shall be legal in every respect by the time his divorce suit is called for trial at a future term of the circuit court.
