RAILROADS DID NOT TRY TO ENJOIN

Threatened Fight Between Enton. Galusha and Searle Not Likely to Materialize and They Will Stand on Record Made,

(From a Staff Correspondent.)

LINCOLN. June 15 - (Special.) - Secretary Bennett of the state board of assessment has certified to the county clerks the valuation of the big railroads, having completed the work late Saturday after-It has been repeatedly reported in a local paper that the Union Pacific was working its legal department overtime to get out an injunction to prevent Secretary Bennett from attending to this little detail of his work, but if such was the case the injunction will come too late, as the work is already done.

It looks now that the threatened fight between Eston, Galusha and Searle would not occur, but that each would stand on his record without further explanation. Searle, Mickey and Mortensen worked together almost constantly in figuring up the valuation and before the final vote was taken these three stood very close together. Most of the figuring was done by Searle and the assessment was largely opposed the reduction of the Burlington and at the same time did not believe the Union Pacific should be assessed at \$13 .oce. It was reported that the Union Pacific brought all possible pressure to bear on Searle to get him to stand for the assessment of last year, and the fact that he couldn't see things that way after strengthens the position taken by Mickey and Mortensen and at the same time they give Scarle much credit for what he did.

Crank Misses Mickey. real live crank, with Governor Mickey his objective point, was at the state house late Saturday afternoon. The governor's office was locked and the crank accosted Don Despain, who was passing. "I want to see the governor," he told

"What do you want with him?" asked the eagle-eyed chief and only clerk in the labor bureau, scenting trouble.

"I am commissioned by the people to see him and see him I will," retorted the crank. "He must not let Sweden run over Norway. Norway must be free and the governor must see to that she gets a square deal. 'He can stop all the trouble over there if he will. I want to tell him to do it and if he refuses then look out for me, for I am the people."

Despain, who is not only hefty but a diplomat as well, told the man the governor was not in town, and then invited him to take a walk. What became of the crank is not known, as Despain lost him in the busy bustle of O street. Governor Mickey left yesterday afternoon

for Osceola, where he spent today. He expects to come back to Lincoln Monday.

the fair managers feared it might result in a very small exhibit in this department at the state fair. Their fears are proving groundless, for already three-fifths of the lots in the implement section have been assigned and applications for space in this department are being received almost daily. The plow and implement exhibit, while an interesting feature of the fair, is not a

INCREASE OF FIVE MILLIONS Board of Equalization Expects the Assessor's Totals to Show

This Result.

Members of the board of county com dissioners will go to Waterloo this morn ing to ascertain the condition of the steel bridge which tipped over and slid into the Elkhorn river Friday afternoon. While they are away Assessor Reed and his clerks will endeavor to get a line on the approximate totals of the county assessment, although a good many of the larger oncerns in the city are yet to have their claims adjusted. The equalizers express the opinion that the total this year will reach \$150,000,000, which is \$5,000,000 in excess of the total for 1904. The increase is so well scattered that it will not fall very heavily on any one line of property.

That the assessment as a whole is con sidered very fair is indicated by the fact that the number of protests filed was considerably less than usually reach the board. The assessor devoted Saturday afternoon to figuring just what deductions should be allowed the banks on their claims, but he will withhold the figures until the whole

board has approved them. Teething Battes. Children when teething, especially during the summer months, are more or less subject to diarrhoea. This can be controlled by giving Chamberlain's Colic, Cholera and sen Parent in sweetened water as

Joseph Western league base ball franchise The latest recruit in the ranks of the Salvation army is Charles Draper, a youth of some 19 years. Draper has been for some months past a regular caller at the police station, where he told the officials he would rather be than anywhere else. It was he who broke all the windows in the Bemis Bag company's factory one night with strong probability of obtaining it. A prominent business man of that city conferred with President O'Neill in St. Joseph today. There appears to be a first class it was he who broke all the windows in the Bemis Bag company's factory one night last winter in order that he might be put in jail. He was accommodated and for several months after he received his mail regularly at the city bastile. It is said that Draper got religion by the merest chance. He was waking along Sixteenth street one evening and heard the singing of one of the army lasties and was so smitten by her sweet voice that he then and there resolved to become a member of the organization. This happened several weeks ago and now Draper is dressed in the full uniform of an army officer and is taking an active intenst in the work of the soldiers of the arm; He says he likes his new location and hopes that the police officials do not miss him from the station. ball park at Lincoln and plenty of financial backing. Elephant Trainer Slugged.

Hagenbeck's trained elephants were billed to swim at Lake Manawa yesterday afternoon—and that is why William McHaile, one of the employes of the Hagenbeck show, appeared at the police station last night with a severe cut on the top of his head. There was a crowd at Manawa Sunday afternoon to see the elephants do their stunt, and while waiting for them to appear on the scene Edward Kelley of Council Bluffs vented his wrath on McHaile. Kelley picked up a chair that was standing nearby and gave the elephant trainer such a lick across the head that he fell to the ground in an unconscious condition. He was picked up by two of his companions and boarded the street car and at once started for the Omaha police station. Arriving at the city jail they asked for Dr. Wigton, whom McHaile said he had heard of as being one of Omaha's police surgeons. Dr. Wigton dressed the man's wounds, after which he returned to Council Bluffs. His injury in painful, although not dangerous. Eklley is in the Council Bluffs jail. The condition of I. W. Nash was reported to be somewhat worse yesterday afternoon. Although the patient suffered no serious relapse its condition was not so encouraging during the day, and last night it was said tha there was no change for the better or worse. only theory occurring to my mind which offers any excuse for such a tirade, either against the Reorganized church or myself as its trustee is that John M. Macfarland, referred to, is possibly an elder or member of the polygamous church of Utah, and that he, with his Utah relations, have taken

enter into the kingdom of heaven." He said in part:

What was the essential characteristic of the scribes and pharisees?

It was this: The scribes and pharisees made morality and even religion a matter of rules and conventions. They looked for nothing higher and cared for nothing better than a system of observances which they had inherited from their fathers. This system was not in itself a bad one.

Why, then, does devotion to a good system of rules and observances like that of the Pharisees lend its followers astray?

Partly because the practice of relying upon rules and conventions, however good, lessens a man's power of meeting the unforescen emergencies and crises of life.

But even if no emergencies or crises arise which stretch our rules to the breaking point, there is another and more insidious series of dangers which beset the man whose morality and religion are matters of rules alone. The keeping of definite rules produces self-satisfaction and self-satisfaction is but one step short of moral stagnation. No man, however far and however well he has managed the voyage of life, can afford to rest complacent in what he has achieved.

A man of bad antecedents and surroundings who recognizes that they are bad has greater possibilities than the man who lives under better rules but sees neither need nor room for improvement.

To the college man more than to anyone else this broad view of Christian duty should appeal. He of all mankind has least occasion for Pharisalc complacency. this plan to renew their bitter fight against the Reorganized church of the Latter Day Saints because of the latter's battle against Mr. George H. Miller, the stepson, introduced to me as such by Mr. Jones himself, was an entire stranger to me until upon the earnest solicitation of Mr. Jones and his wife, made direct to me by several urgent letters of Mr. Jones, I went to Omaha to arrange property interests between them.
