STARTS FOR ODESSA

Kniaz Potemkine Leaves Roumanian Port After Brief Stay.

NOT ALLOWED TO TAKE PROVISIONS Offer of Permission to Land Without Arms is Refused.

WILL TRY TO SINK THE BATTLESHIP Torpedo Boat Starts in Search of Mysterious Wreck.

SITUATION IN ODESSA IMPROVING

Big Strike in Navy Ship Yards at St. Petersburg—Disorder Reported at Many Other Points.

BUCHAREST, July 3.—The Kniaz Potemkine left Kustendj this afternoon. It is stated that it is returning to Odessa.

The departure of the vessel followed the refusal of the crew of the Kniaz Potemkine to accept the government's offer made through the captain of the port, who had previously announced that the mutineers would not be allowed to receive provisions unless they came ashore unarmed and delivered up the battleship and torpedo boat to the captain of the port.

If these conditions were fulfilled the mutineers would be given liberty to go where they pleased.

The rebellious sailors conferred together, then refused the government's demand and renewed their demand for provisions.

This was again positively refused by the captain of the port, who ordered the torpedo boat to be fired upon.

On being fired on by the Elisabetha and evidently awed by the firm stand taken by the authorities it decided to return.

A sailor from the Kniaz Potemkine who came ashore here today with his comrades to negotiate with the prefect slipped away and escaped to the town.

He appeared to be greatly excited and exhausted and reported that the battleship's provisions were completely consumed and that the crew had been in a state of starvation for two days.

The sailor begged not to be returned to the ship, as he would be killed. He said there were only ten tons of coal on board the Kniaz Potemkine, that two-thirds of the crew favored landing at Kustendj, while the other third wished to return to Odessa and bombard the city.

It is said tonight that there is every reason to expect that the Kniaz Potemkine will surrender tomorrow, July 4.

Vessel is Declared a Pirate. ODESSA, July 3.—11:30 p. m.—Interest here today centers in the whereabouts and designs of the Kniaz Potemkine.

The Russian authorities will pursue toward it. It seems to be incredible that the authorities will permit it to cruise freely in the Black sea indefinitely.

It is reported on good authority that it will be sunk as soon as a good opportunity offers.

The naval authorities here are of the opinion that the best and most effective way to deal with the mutinous battleship would be by sending torpedo boats against it, especially as such craft should be expected to make a ship really a number of men, who could probably be better relied on to execute orders to sink a vessel containing their comrades than could the crews of the larger vessels.

It should also be remembered that the Kniaz Potemkine is a very powerful vessel and that if fought by cruisers or battleships it would be more than a match for any two or three of the Black sea ships.

The situation of the men on board the Kniaz Potemkine is indeed desperate. They are practically pirates, and their predicament offered little avenues for escape.

If they do not surrender it is believed they will go to some Black sea port, not in Russia, where they will make the best chance of getting away overland.

In doing so they would be confronted by the attitude of the power on whose shores they disembarked, but their situation being desperate, a desperate course may be well expected of them.

The Kniaz Potemkine was reported today to be at Kustendj, Roumanian, demanding supplies. It is also reported that several Jewish agitators went on board the Kniaz Potemkine, which is in the harbor, and that they are the moving spirits of the mutiny; that the mutineers found about \$10,000 in the ship's strongbox and they are fighting among themselves, many being killed or wounded.

It is impossible to verify these statements. They emanate from persons who visited the Kniaz Potemkine while it was still here.

Matlay on Pobledonozets Ends. Recent developments concerning the mutiny on the Georgia Pobledonozets seem to show that the Kniaz Potemkine battleship were coerced by those of the Kniaz Potemkine. In any event they ceased their mutinous conduct at the first opportunity, which probably in large measure accounts for the fact that the crews of the two vessels were pardoned on again swearing allegiance to the emperor. Sixty-seven of them have been imprisoned as ringleaders. They are mostly old men, evidently drafted from the reserves, and taken from their homes, stocks and farms against their wills. The Georgia Pobledonozets will probably go to Sebastopol tonight or tomorrow.

Those who brought about the disorders and strikers generally have had a fearful lesson, but it is open to question whether they would not do the same thing over again under provocation.

Situation is Improving. The general situation in Odessa has much improved, but there is still a widespread feeling of nervousness. Those best known to the conditions are of the opinion that the greatest danger now lies in a possible anti-Jewish rising. The Jews here number about 170,000 to 200,000, and for a variety of reasons they are deeply hated in Odessa. The fact that they are credited with bomb throwing during the recent disturbances coupled with the fact that the police found large collections of bombs in the houses of two prominent and wealthy Jews, has served to inflame minds against them, and it would not take much to start anti-Jewish demonstrations the end of which would be most terrible.

The conditions of the country surrounding Odessa are very disquieting. The peasants are committing disorders, stealing and burning. Several telegrams were received here Saturday from different points in the government of Kherson, in which Odessa is situated, telling of disorders and the dangers to landed proprietors and asking military protection, but it will be extremely difficult for the authorities to spare any of the 12,000 troops quartered here for service outside Odessa.

Will Try to Sink Kniaz Potemkine. ST. PETERSBURG, July 3.—A dispatch received by a cable.

Many cases of death from sunstroke have occurred among persons who work in the open fields.

STRIKE WEARING ITSELF OUT

Teamsters Returning to Work—Strike Benefits Have Stopped and No More in Sight.

CHICAGO, July 3.—From today's developments in the teamsters' strike the indications tonight are that the men will return very long ago to the struggle themselves by returning to work or at least making an effort to do so, as individuals. Inability of the union to pay strike benefits and inactivity on the part of the labor leaders has brought about this state of affairs. Nearly 100 department store drivers made application for their old jobs today and twenty-five of them were put to work by their former employers.

To add to the dissatisfaction among the men, the special meeting of the Teamsters' Joint council scheduled for tonight to devise means of raising funds, or if it was found that the council was unable to procure any more money to call off the strike, failed entirely of its purpose. When the time arrived for the meeting to be called to order there were not enough present to form a quorum.

MITCHELL IS FOUND GUILTY

Jury Brings in a Verdict at 11 O'Clock After Being Out Eight Hours.

PORTLAND, Ore., July 3.—The jury in the case of the United States against Senator John H. Mitchell returned a verdict at 11 o'clock tonight.

The charge was that Senator Mitchell while occupying his public position accepted a pecuniary compensation for practicing before the federal departments at Washington, which under the federal statute was prohibited.

There had been little belief in the city that a verdict would be reached, and when the hours were away and the jury hung far into the night, hope even among the remaining few in the court room had ebbed to the lowest ebb.

A few minutes before 11 o'clock the bailiff was summoned to the jury room. A moment later he reappeared and communicated to those in waiting the news that the jury had agreed. Judge De Haven, the attorneys and the crowd gathered outside, were all in a state of excitement.

The money order filed by a woman from a cannon in mid-air being a foretelling.
