

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored

LION COFFEE, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

Use **LION COFFEE**, because to get best results you must use the best coffee. Grind your **LION COFFEE** rather fine. Use 4 tablespoons to each cup, and one extra for the pot. First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.

2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

3. Don't boil it too long. Don't let it stand more than ten minutes before serving. DON'TS Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE.

1st. With Eggs. Use part of the white of an egg, mixing it with the ground **LION COFFEE** before boiling.

2d. With Cold Water instead of egg. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepared according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.) (Lion-head on every package.) (Save these Lion-heads for valuable premiums.)

SOCIALISTS WILL TEST LAW

Dodge Primary Measure to Be Attacked by Party in Courts.

STATE TICKET NAMED BY CONVENTION

New Law Decried as Intended to Prevent Socialists from Getting on Ticket and as Such Will Be Contested.

Decisive action regarding the Dodge primary law was taken by thirty-one persons composing the state socialist convention at 108 South Fourteenth street last night. It was agreed to contest the law in the courts and to attempt to get a ticket on the county ballot this fall in the old way. By the adoption of a resolution proposed by W. R. Adair the financial and moral assistance of the party in the state is pledged to the move. J. P. Roe made a fiery speech denouncing the law and this resolution was adopted:

Whereas, Our late state legislature passed a bill known as the primary election law, which is intended to destroy the socialist party and prevent further wage class certified political action through its defenders claim for its purpose the curtailment of corporation rule, as the said law provides that all candidates nominated in Douglas county shall pay to the state a registration fee equaling a certain per cent of the salary of respective offices for which such candidates are nominated; and Whereas, We, the socialists of Nebraska in convention assembled, consider said law a menace to political freedom and direct conflict with the constitution, as it is plain and unadulterated sectional discrimination, be it

Resolved, That we, the socialists of Nebraska in convention assembled, this 4th day of July, do hereby denounce the said bill and will support to the full extent of our ability any move to kill this law, and appeal to all justies loving the constitution of Nebraska for their co-operation in having this bill destroyed.

State Ticket Nominated.

Parker S. Condit was nominated for judge of the supreme court and Mrs. J. P. Roe and L. DeVore of Laurel for regents of the University of Nebraska. Lucien Stebbins of North Platte ran Mr. Parker a close race for the supreme court nomination, but there were no real contests.

In the morning the state committee met with Parker S. Condit in the chair and W. C. Rogers of Waterloo as secretary. This telegram from National Secretary Bonner was read:

The socialist party for the working class is the hope inspiring thinking men and women. We have nothing to arbitrate with capitalists. The state committee endorsed the national plan of raising the fees of lecturers from \$1.50 to \$5 and allowing the speakers to take up a collection. This monthly fee of members-at-large in the state was raised from 10 to 25 cents, to be apportioned equally among the nearest local, state and national organizations.

Mr. Condit was chairman of the convention and John Huba was secretary. Three women were present and participated. Speeches on various topics were made by Messrs. Adair, Stebbins of North Platte, Rod of Denver, DeVore of Laurel, Gerritt of Chicago and Lester of LeRoy.

Substance of Platform.

The platform adopted condemns the present economic system, declares the products of labor belong to labor and that the control of the government must be wrested from the grip of the capitalists before the abolition of the wage system and the proposed remedy of transforming capitalist property into collective property of the working classes can be brought about. The party pledges itself to work alone for the interests of the working class if placed in power and advocates the production for use instead of profit.

A resolution adopted directs public attention to the recognition of "levies arising from private ownership of the means of distribution and production by the highest officials of the government," and announces that the only way voters can help to change these conditions is to vote for the socialist party and the establishment of the "co-operative commonwealth."

About half of the socialists attending the convention, which was open to all paid-up members, came from out in the state.

INSPECTOR LEWIS LET OUT

Laid Off by Edquist as Postscript to Collapse of Waterloo Bridge.

CHARGES ARE PREFERRED AGAINST HIM

Lewis Denies Them and Gets Up Petition from Friends—No Inspector for the Temporary Bridge.

A postscript to the dumping of the Waterloo bridge into the river in the process of moving it comes in the suspension of John Lewis from his position of inspector of construction work for the county. Mr. Lewis, who had been detailed to watch the bridge builders at Waterloo, was surprised last Thursday to receive an order from County Surveyor Edquist to return to Omaha and report at his office, and more surprised yet on reporting to be told that he was laid off indefinitely.

To friends on the outside Lewis has declared that while his suspension was explained to him as based on charges of drinking and neglect of duty, the only possible complaint must have come from the contractor who took this way to avoid the presence of a county inspector during the progress of the work. To support his denial of the alleged charges he has a statement signed by about a dozen of the leading citizens of Waterloo and several letters, among them one from the Presby. terian minister there, who testifies to driving around with Lewis and seeing nothing wrong with him at any time.

When questioned on the matter County Surveyor Edquist answered: "Yes, I have laid Lewis off. I do not know personally of anything wrong with him nor have I any complaint with his work. But two members of the county board came to me at different times and said that Lewis had been drinking for several days and under the circumstances I saw no other course than to suspend him. I have not put any one on in his place. It is almost impossible to get competent inspectors at the rate of \$3 a day, which is the limit we can pay, and I was forced to get Lewis, who had had experience as construction inspector at the St. Louis exposition, last year. Whether I will restore him later depends on circumstances. I went out to Waterloo myself yesterday, and while I found no one complaining of Lewis, I saw that the only work in progress is the pulling up of the old bridge and the construction of a temporary wooden bridge, toward which the county is to pay the bridge contractor only \$1.50 a foot, and I see no need of an inspector until they begin rebuilding the permanent bridge."

Corpse Taken Out of Hotel

Weight of Dead Man Astonishes Two Guests Who Witness the Affair.

Two strangers, stockmen from the western part of the state, were at the Murray Tuesday taking an afternoon siesta in the hotel lobby, when a piano van backed up to the front of the hotel. A couple of men with the van entered the hotel, bringing with them a piano truck and canvas covering for a piano, and ascended the elevator. The proceeding interested the two strangers and one remarked to the other: "Conny, somebody must be dead up stairs. Them fellows have gone up to bring down the body."

"Guess that's so. But, thunder, they have got a big ambulance out there. That must be the city ambulance, going round gathering up the fellows that are killed on the Fourth."

When the piano men came down with the piano that was being removed from the hotel, covered with the canvas, Conney remarked: "Gee, but that corpse is a heavy one."

Police After Panel Breakers.

Another panel-breaking burglary in the west part of the city has been reported to the police. The home of J. Lindberg, 97 North Forty-first avenue, was entered Sunday evening during the absence of the family. Entries were gained by breaking a door panel. While the house was ransacked, nothing of much value has been missed by the members of the family. The police have a few plain clothes men at work in this part of the city and they are weaving a net which they believe soon will gather in the proper culprits.
