Preceding the festival by an unanimou vote a telegram was ordered sent to Rev. Francis E. Clark, who is ill at his home in Maine, pledging loyalty to the Christian Endeavor movement and praying for his speedy recovery, A proposal originating outside of the offi-

cers of the United society has been made, looking to the establishment of a memorial fund to aid the society to accomplish still more in the future and especially in loving honor of Dr. Francis E. Clark, the founder of this world's movement for the religious training of the young

The suggestion is that the fund be known as the quarter century memorial fund and that it be made up of contributions to average 15 cents (1 cent for each year of the life of the society, reckoning from next year) from each member of the or ganization. As the membership is in the neighborhood of 8,000,000 a fund of about \$2,000,000 would be realized. It is suggested that the best plan for the investment of such a fund would be the erection of a building part of which would be for the use of supplying income, and part used as international Christian Endeavor headquarters. At the meeting of trustees today this plan was, by vote, heartily approved and the executive committee was requested to appoint an international committee to

The reason why so many women sink under the strain of motherhood is because they are unprepared.

"I unhesitatingly advise expectant mothers to use Dr. Pierce's Pavorite Prescription, "writes Mrs. J. W. G. Stephens, of Mila. Northumberland Co., Va. The reason for this advice is that Dr. Pierce's Pavorite Prescription is the best preparative for the maternal function. No matter how healthy and strong a woman may be, she cannot

ST. PETERSBURG, July 6.-2:15 a. m .-

WASHINGTON, July 5.-A memorial raising the standard of revolution. Nothing has been received to confirm the supposition that the request for a does tor at Theodosia indicated a struggle for supremacy on the warship on the way from Kusenji. According to a rumor printed in an afternoon paper the ship's strong box contained \$375,000, and the multineers the standard of American manhood and womanhood is to do the greatest service to the room at the time of the explosion, was saved from death by the bravery and presence of mind of Mrs. Johnson's 12-token who ran into the strong and the multineers the kitchen where the days of the strong the strong and the multineers.

To make better citizens, to lift up the standard of American manhood and womanhood is to do the greatest service to the room at the time of the explosion, was saved from death by the bravery and presence of mind of Mrs. Johnson's 12-token who ran into the strong the country. The stability of this government depends upon the individual character of its citizenship. No more important work can be done to the cause of Christianity as well as to our national life and greatness. Nothing has been received to confirm

The northern districts of the country experienced temperatures too low for rapid growth, but in the southern states the temperatures were highly favorable. Exgrowth, but in the southern states the temperatures were highly favorable. Excessively heavy rains from the central and west guif districts northward over the western portion of the central valleys, while relieving the drought in Missouri, were injurious in places and interfered extensively with cultivation. The conditions on the Atlantic and Pacific coasts were generally favored. Rain is much needed in the southern plateau region. Corn has made excellent progress over the greater part of the corn beit and, except in the upper Missouri and lower Ohio valleys, where rains have retarded cultivation, the crop is clean and well advanced. Considerable has been laid by in Illinois, Missouri and Kansas. Late corn in the southern states is suffering for cultivation.

Winter wheat harvest is well advanced in the northern portion of the winter wheat belt and is practically finished in Illinois, Missouri and castern Kansas. Rain has caused injury to grain in shock in Texas.

trict is intense in the northern portion of the winter wheat belt and is practically finished in illinois, Missouri and eastern Kansas. Rain has caused injury to grain in shock in Texas, Tennessee and Kentucky.

Spring wheat has advanced rapidly throughout the spring wheat region and continues in premising condition. Some rust, however, is reported from the southern portion and on lowiands in Minnesota there is a tendency to lodge. The crop also continues in fine condition on the north Pacific coast, except in the Will-amette valley, where aphides are unusually numerous.
