GROWTH OF CHRISTIAN WORK

Speaker at Baltimore Tells Progress Made with the Young People.

BALTIMORE, July 6.-The second day's session of the twenty-second International Christian Endeavor's convention was presided over by the Rev. George B. Stewart of Auburn, N. Y. William Shaw of Boston, delivered the following address upon "What Christian

Endeavors Have Done." saying in part: Twenty-five years ago the ruling idea in the church was that children should be seen and not heard. The result was that few were seen, and none were heard. Twenty-five years of Christian Endeavor has revealed to the church that it is out of the young people that the Kingdom of Heaven is to be made.

has revealed to the church that it is out of the young people that the Kingdom of Heaven is to be made.

This week over 16,000 Christian Endeavor prayer incettings will be held, and tens of thousands more by societies that belong, and ought to be, in our fellowship. Twenty five years ago the church that had a well-organized young people's society was the exception. Today the church that does not have such a society is a curlesity.

Christian Endeavor made 'he prayer meeting the heart of the movement, and has laid great emphasis on testimony and testimony the church would die. The marryrs and confessors rank together. Through its system of committee work it offers opportunity for training in service to every member.

Through the executive committee work it offers opportunity for training in service to the pastor a cabinet by winch he can touch and direct every line of work in which the young people are engaged Twenty-five years ago a small percentage of the churches had mission circles composed of girls or young women. Now we have thousands of our brightest and best young men vying with the young women in their interest and enthusiasm for missions. Tens of thousands of missions study classes are conducted.

Last year the gifts of the young people and the petition and announced he would appoint a receiver for the projecty tomorrow.
