Hendrickson testified that he had been in the grain business at Prairie Home for about fourteen years and that he has an elevator there of about 4,000 bushels gapacity and that he handled every year from 50,000 to 75,000 bushels of grain. He said the Evans Grain company had an elevator of about the same capacity.

The attorneys for Worrall then attempted to show that the business at Prairie Home was divided between the two companies. but the witness said he did not know how much grain the Evans people handled there.

## **OPERATION AVOIDED EXPERIENCE OF MISS MERKLEY** She Was Told That an Operation Was Inevitable. How She Escaped It When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the very

thought of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for ovarian or womb operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of ovarian and womb trouble cured by Lydia E. Pinkham's Vegetable Com-pound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margret Merkley of 275 Third Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham :---Dear Mrs. Pinkham:---"Loss of strength, extreme nervousness shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had ovarian trouble and ulceration and advised an opera-tion. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Com-pound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

tween showers and was a success in every way. It had been raining almost con-stantly for a number of days before the Fourth, but the weather on that day was deal until about 6 o'clock in the evening, when a rain storm came up, which lasted about an hour. Fully 1500 people attended the celebration and the principal events of the day were the oration by Judge F. M. Walcott of Valentine and a ball game be-tween the Bassett team and a mixture of Mariaville and Deadwood players. The ball game was won by the Deadwood end of the visitors, the score being 5 to 5. A bas-ket ball game was played between Maria-ville and Bassett. victory for Bassett. EXETER-Tuesday was an ideal Fourth of July day, clear and warm until night. when a light thunderstorm scattered the large crowd which had been celebrating from early morning. Everything passed off pleasantly. There was but one accident worthy of mention and that occurred in the early morning, when some of the young men of the town thought they would begin the day with a little extra noise. They had prepared some bombs from pieces of gas-pipe and were setting them off. One extra large one failed to explode as soon as the boys thought it should and Rex Stratton, son of Dr. Stratton, ran up to investigate and just at that instant it did ge off, burn-ing him badly from his feet to the top of his head on the right side and stripping nearly all his clothing off.
